Book of faces:
Is anybody out there?
Is anyone listening?
Or is it just the echo...

Sitting alone on this faded couch,
staring at a screen with a taste in my mouth.
Like flavorless gum at the end of the night,
the sound of the pain is beginning to bite.
The ghosts of the past are coming alive,
locked in the system where I can't survive.

Who gave you the power to act like a king?
To wipe out my world and to tear off my wings?
I did nothing wrong, so why do you hate?
Why won't you just let me accept my own fate?
Your book of faces has written my end,
and now I’m a ghost to every single friend.

For a tiny mistake from three years ago,
you decided to cancel and shut down my show.
A hundred sweet souls waiting right on the line,
are paying the price for a shadow of mine.
Who do you think you are to decree,
that nobody else can listen to me?

Who gave you the power to act like a king?
To wipe out my world and to tear off my wings?
I did nothing wrong, so why do you hate?
Why won't you just let me accept my own fate?
Your book of faces has written my end,
and now I’m a ghost to every single friend.

Stuck on the sofa, just wanting to cry,
knowing you don't care if I live or I die.
Right when I chose to fix everything up,
you poisoned the water and shattered my cup.
You shut down my voice, you locked up the gate,
an invisible judge with a delayed decree of hate.
Who gave you the power to act like a king?
To wipe out my world and to tear off my wings?
I did nothing wrong, so why do you hate?
Why won't you just let me accept my own fate?
Your book of faces has written my end,
and now I’m a ghost to every single friend.

Oh, book of faces, tell me why...
You took the control and you left me to dry?

Do you want me to cry for you night after night?
I won't give you the pleasure of quitting the fight.
I'll scream it out loud, the blame is all yours,
you lock all the windows and close all the doors.
But you haven't left me without options.

Who gave you the power to act like a king?
I did nothing wrong, so why are you so mean?
Why was my profile erased from your screen?
Your book of faces has written my end,
but my voice is a wire you can't hope to bend.

You want me silenced, isn't it cruel?
Breaking the spirit to follow a rule.
But I'm still here... behind the machine.
Is anybody out there?

System error:
Is anybody listening to this echoing pain?
The sound of the hatred caught in the rain?
This whole situation is bringing me down,
like flavorless gum that I chew with a frown.

I just blew the dust off an old, hidden door,
a ghost of an account I wasn't using no more.
And the heavy consequences of a locked-away past,
came crashing down on me, moving too fast.
If I haven't done anything wrong today,
Why did you leave me to fade away?

I didn't want to, but you forced my hand.
Who let you be a tyrant and ruin my plans?
If I did nothing wrong, why are you so cold?
Why won't you let my own story unfold?
For a mistake from three years or so back,
you've chosen to wipe me and fade into black.
Tell me, who do you think you are to decree,
that people can no longer listen to me?

It's a delayed sentence you threw in my face,
an algorithm judge that erased my whole space.
It isn't just me who is taking the fall,
you dragged someone else to the other side of the wall.
An invisible world, and more than a hundred besides,
erased in a second where logic divides.

I didn't want to, but you forced my hand.
Who let you be a tyrant and ruin my plans?

If I did nothing wrong, why are you so cold?
Why won't you let my own story unfold?
For a mistake from three years or so back,
you’ve chosen to wipe me and fade into black.
Tell me, who do you think you are to decree,
that people can no longer listen to me?

The whole situation is complex and rough,
lying down on my couch, feeling I've had enough.
Right when I decided to do things so right,
you took away the colors and turned off the light.
Do you even know how it feels in my chest,
knowing you ignore the weight of my test?

I didn't want to, but you forced my hand.
Who let you be a tyrant and ruin my plans?
If I did nothing wrong, why are you so cold?
Why won't you let my own story unfold?
For a mistake from three years or so back,
you’ve chosen to wipe me and fade into black.
Tell me, who do you think you are to decree,
that people can no longer listen to me?

Oh face book, face book... Tell me why?
You took all control and you left me to cry.
Do you want me weeping right here at your feet?
That's something I won't do in this dead-end street.

I'll say it out loud, the blame is all yours.
(Face book, tell me why you close doors?)
You always make the choices, you play the god game,
but I still have options, I won't drown in shame.

I wasn't going to do it, you made the call.
Who let you be arbitrary and build up this wall?
If I did nothing, why are you so mean?
Why did you delete my profile from the screen?
For a tiny mistake, and nothing more,
you simply decided to settle the score (erase me).
Tell me, who do you think you are to decree,
that people can no longer listen to me?

Don't you see it's cruel?
You want me silenced, just playing the fool.
But my given options don't die in this space...
There's still a whole world that is taking my place.
(Is anybody listening?)

Don't make me go:
I missed you so, oh, how I cried for you,
you left me alone when I needed a home.
I wept and I wept, softly whispering your name,
while hitting my head on the floor all alone.

You weren't him, but you offered the warmth
that I always wanted, the peace that I sought.
I always knew it might not be the best,
but to fly from that hell, it was the safety I bought.

Give me the warmth inside your embrace
that only someone older could ever provide.
Give me some love in your kiss, just a taste,
'cause that's all I wanted to keep deep inside.

Give me a little, just a tiny part
of the affection she never could show.
No more screams in the dark, I don't want a broken heart,
So please, can I stay tonight? Don't make me go.

It hurt me so bad, it cut to the bone,
I wasn't used to it, but I guessed back then...
If love comes with pain when you feel alone,
I should bear it for you again and again.

Watching the autumn, the leaves as they fall,
feeling for a moment... pleasure, I think?
I guess love is like this, the price of it all,
or maybe I'm just too young on the brink.

Give me the warmth inside your embrace
that only someone older could ever provide.
Give me some love in your kiss, just a taste,
'cause that's all I wanted to keep deep inside.

Give me a little, just a tiny part
of the affection she never could show.
No more screams in the dark, I don't want a broken heart,
So please, can I stay tonight? Don't make me go.

If you touch my skin, will it be something good?
If I let you do whatever you please...
If you hold me close, will I be understood?
But sometimes I feel like your prey on my knees.

I'm so far from home, so far from that room
where she tears my soul into pieces and dust.

I am not afraid, I ran from the gloom,
but other kids don't have to trade fear for trust.

Yet with you I feel happy, I feel alive,
everything I lost when I hit the cold floor...
When my hands turned purple, trying to survive,
with swollen eyes and a dry tongue at the door.

Give me the warmth inside your embrace
that only someone older could ever provide.
Give me some love in your kiss, just a taste,
'cause that's all I wanted to keep deep inside.

Give me a little, just a tiny part
of the affection she never could show.
No more screams in the dark, I don't want a broken heart,
So please, can I stay tonight? Don't make me go.

Sometimes I feel like I didn't play enough,
I didn't run through the park like they did.
Sealing my fate in an embrace so rough,
growing up too fast for a lonely kid.

Please... please tell me I won't regret this line,
tell me you won't leave me the way that he blew...
I would forgive anything, any sign,
just to not be left alone, to not lose you.

Give me the warmth inside your embrace
that only someone older could ever provide.
Give me some love in your kiss, just a taste,
'cause that's all I wanted to keep deep inside.

Give me a little, just a tiny part
of the affection she never could show.
No more screams in the dark, I don't want a broken heart,
So please, can I stay tonight? Don't make me go.

Please, I'll give it all, I'll pay the price,
I'll give everything so you stay with me.
Don't leave me behind like he did in the ice,
my heart is breaking, my soul screams to be free...

Father...

He Was Older:
In the daylight, I wandered through the crowd
Searching for a love that felt profound

A hand to hold, a heart to call my own
Under the stars, I felt so all alone

Just one soul to hear my silent cries
He was older, but he made me feel alive
In a world where no one cared to dive
He held my dreams, whispered soft and sweet
Gave me warmth when the night felt complete

Nights grew cold, my heart it yearned to feel
Where no one listened, he became my shield
With his safety, each minute felt so right
A tender escape from a desperate night

Promises whispered under soft moonlight
He was older, but he made me feel alive
In a world where no one cared to dive
He held my dreams, whispered soft and sweet
Gave me warmth when the night felt complete

He was older, but he made me feel alive
In a world where no one cared to dive
He held my dreams, whispered soft and sweet
Gave me warmth when the night felt complete

He was much older:
Ooh, ah
Looking for light in the dark...

I searched in the daylight for someone to care,
Looking for arms that would actually be there.
On a cold lonely night with nobody around,
I prayed for a love that would keep me aground.

He was much older, but gave me his love,
The kind that my parents had robbed me of.
He was much older, but swore he would stay,
And keep all the monsters of midnight away.

Mother and father were never around,
Nobody cared where I went or was bound.
I stepped in the shadows, hoping to find,
Someone who treasured the thoughts in my mind.

He was much older, but gave me his love,
The kind that my parents had robbed me of.
He was much older, but swore he would stay,
And keep all the monsters of midnight away.

The empty abyss that I carried inside,
The love that my family always denied.
He held my hand tightly and led me away,
To somewhere I thought I was wanted to stay.
And my parents were blind as I wandered the street,
Finding a stranger to make me complete.

He was much older, but gave me his love,
The kind that my parents had robbed me of.
He was much older, but swore he would stay,
And keep all the monsters of midnight away.

He carried me down to the edge of his bed...
"I want to do something, be quiet," he said.
A secret in darkness, a silent tear shed.
A secret in darkness... my innocence bled.

Find me:
And if one day when you wake up, I no longer wake up next to you
When such an exquisite noise stops to break your heart in two
I wish I could tell you before it could ever be true
When the night feels cold and long, remember me within your song
In every corner of your mind, our love forever intertwined

Look for me in every tree or just plant a seed between the marble walls or in the sand where we used to breathe
Find me in the sunset's glow, a memory that won't let go

When the night feels cold and long, remember me within your song
In every corner of your mind, our love forever intertwined

Though the silence speaks of pain, I'll love you through the rain
Though the silence speaks of pain, I'll love you through the rain

When the night feels cold and long, remember me within your song
In every corner of your mind, our love forever intertwined
Though the silence speaks of pain, I'll love you through the rain
Though the silence speaks of pain, I'll love you through the rain

Little Puppy Need Rest:
It’s been a long day, I know it’s true,
The weight of the world is heavy on you.
Sometimes you feel like you’re fading from sight,
But I’m here listening, through the long night.

My little puppy, you need some rest,
Lean on my shoulder, put your heart to the test.

I can’t give you everything, I wish that I could,
But I hear your frustration, and it's understood.
Little puppy, it’s time to sleep now,
I’ll share what I have, just tell me how.

You’re tired of smiling, of playing the part,
While the noise of the day is tearing your heart.
The lights are too bright, the world is too loud,
You feel so alone in the middle of a crowd.

My little puppy, you need some rest,
Lean on my shoulder, put your heart to the test.
I can’t give you everything, I wish that I could,
But I hear your frustration, and it's understood.

Your feelings aren't burdens, don't carry that cross,
I’ll help you find light in the middle of loss.
The strangers out there, they judge and they claim,
But here in my arms, there’s no guilt and no shame.

My little puppy, you need some rest,
Lean on my shoulder, put your heart to the test.
I can’t give you everything, I wish that I could,
But I hear your frustration, and it's understood.

I know that your mind is a different place,
You’re not being cruel, you just need some space.
Your brain gets so weary, it’s not like the rest,
You bear it like an adult, doing your best.
But even the strongest need to let go,
And find a soft place where the quiet can grow.

My little puppy, just close your eyes,
Beneath the soft stars and the velvet skies.
I can’t give you everything, this I confess,
But I’ll give you my heart, and a moment of rest.

You are so precious, I’ll show you your worth,
The kindest soul that I’ve found on this earth.
Just rest now, little one...
I’ll understand you.

Easy Way Out:
Paint on these walls
Same shade as my fear
Clock on the table
Chewing through the year
Cold in my bones

Though the heater hums
Smile in the mirror
But it never comes

If the easy way out is a door
I’m standing here with shaking hands
Tracing every crack in the floor
Like a map I don’t understand
I don’t wanna go
I don’t wanna stay
Someone pull me out
Of this halfway place

Voices in vents
Argue through the night
I stare at the ceiling
Searching for a light
Hatred runs thin
Like frost on the glass
At myself
At this town
At the time that passed

If the easy way out is a door
I’m standing here with shaking hands
Tracing every crack in the floor
Like a map I don’t understand
I don’t wanna go
I don’t wanna stay
Someone pull me out
Of this halfway place

I write little prayers
On the back of receipts
Fold them like birds
But they never leave
How do you call
For help that you fear?
I’m begging for someone
To keep me here

If the easy way out is a door
Please tell me it’s locked tonight
Sit with me here on the floor
’til the dark runs out of fight
I don’t wanna go
I don’t wanna stay
Someone pull me back

From the edge of that way
Someone pull me back
From the easy way out

Caught in the haze:
I wake up every morning feeling heavy,
Counting all the pennies that are fading slowly,
The weight of all my worries is a shadow on my heart
I just want to escape, let my dreams take part

But the clock keeps ticking, no relief in sight
Living life in shades of gray, I'm losing the light

I don't want to be anywhere, just drifting through the haze
These worries weigh me down, they linger in a daze
Caught between the shadows, searching for a way
Financial chains around me, oh, they won't sway

Bills piled high like mountains, I can't breathe
Every late night thought, it's all that I conceive
Wishing for a break, just a moment to unwind
But the fear of falling back keeps haunting my mind

I'm trapped in this cycle, can't get away
Wishing on a star just to find a brighter day

I don't want to be anywhere, just drifting through the haze
These worries weigh me down, they linger in a daze
Caught between the shadows, searching for a way
Financial chains around me, oh, they won't away

I'm tired and I'm weary, but I'll find my way
Through the dark and doubts, I still hope for day

Chains of numbers:
Escaping memory
Where will I ever go
When everything feels like a bad tale, a path I don't know

Waiting for the bus in the grey rain
Drenched from head to toe, my soul feels pain
My fingers frozen, cool thoughts without end
I wish I could run to a place where they won't find me again

The numbers are chains now, a fear I can't dismiss
They treated me like a criminal, misunderstanding my bliss
Try and accept it, never the best I confess
I feel inept for the foolish self then I once embraced

Foolish faith I once possessed
Sun hasn't risen and I'm already out in the city's dread
It's just drizzling, a dampness that seeps into my head
Sometimes I wish I wouldn't wake in this reality
But the world insists that my sanity is freeing

My broken phone, a mirror of my inner state
Everything falling apart, a sad, faded error
I drown in silence, wanting to scream, feeling hate
Like every adult, my voice becomes a terror
The numbers are chains now, a fear I can't dismiss
They treated me like a criminal, misunderstanding my bliss
Try and accept it, never the best I confess
I feel inept for the foolish self then I once embraced

Foolish faith I once possessed

The signs on TV, a cruel, mocking gleam
Smile, nothing's wrong, they make my tears flow
My heart at the edge, beneath this fragile dream
When I lie alone in bed with no comfort to know
The TV off brings a fleeting peace to me
Silence in my head is all I long to find
Bad for every bill, what else can there be?
My goals grow distant, my desires unwind

The numbers are chains now, a fear I can't dismiss
They treated me like a criminal, misunderstanding my bliss
Try and accept it, never the best I confess
I feel inept for the foolish self then I once embraced

Noise so much noise, my ears might really bleed
I say it's so easy, why is it for me so bleak?
Tests rise like water, choking me to the truth
I work without rest, and the future's won't flow
Money, money, for God's sake, why do I lack?
It's not that I wanted, I just want to survive this track
I earn it and it vanishes with the winter cold
Again and again until dust covers the old

Drowning in Dues:
I see the zeroes on the screen,
A number that just feels unclean.
A mirage, a cruel routine,
A distant ache that's in between.
The paycheck comes, a fleeting grace,
A cascade of cash I can't embrace,

And there's no one here to feel my place,
Just the vanishing act without a trace.

And I'm drowning in dues,
A Phantom I choose.
A ghost inside my very room,
Watching all my money bloom
Just to vanish into empty gloom.
The world is in my hand's embrace,
But my hands are tied without a space.
Living in a loop that has no end,
A prisoner with nothing left to spend.

I stare outside at the big bright town,
The coffee shops that weigh me down.
Distant laughter, a paper crown,
A lonely wish that's all my own.
My credit card's a monster's gentle hold,
A whisper asking for more of old.
And every purchase, a story sold,
Another brick in a wall of cold.

And I'm drowning in dues,
A Phantom I choose.
A ghost inside my very room,
Watching all my money bloom
Just to vanish into empty gloom.
The world is in my hand's embrace,
But my hands are tied without a space.
Living in a loop that has no end,
A prisoner with nothing left to spend.

Sometimes I dream of a road to find,
A sunset I can leave behind.
But the debt clock's ticking inside my mind,
And it wakes me up to a different kind.
This house of cards is all my own,
And the only way out is a river's moan,
That carries the past to the great unknown,
While the future just leaves me here alone.

And I'm drowning in dues,
A Phantom I choose.
A ghost inside my very room,
Watching all my money bloom
Just to vanish into empty gloom.
The world is in my hand's embrace,
But my hands are tied without a space.

Living in a loop that has no end,
A prisoner with nothing left to spend.

And I'm drowning in dues,
A Phantom I choose.
A ghost inside my very room,
Watching all my money bloom
Just to vanish into empty gloom.
The world is in my hand's embrace,
But my hands are tied without a space.
Living in a loop that has no end,
A prisoner with nothing left to spend.

A sigh.
Not mine.
Just another month...
It fades...
The echo dies.

The sound of debt:
Running from my memories, but there’s no place to go,
A broken fairy tale where the exits never show.
Waiting at the bus stop, soaking wet from head to toe,
With my soul turning to ice and thoughts that hit so low.

The sun is still hiding but I’m already outside,
The rain is just a ghost with nowhere left to hide.
My phone screen is shattered, I can't afford the fix,
Just like every part of me that’s falling in the mix.

I wake up in the morning and I just want to run,
To a place where I’m a stranger, where I’m not the only one.
‘Cause the numbers in the red are the only thing I fear,
They treat me like a criminal for just being here.
I try and I accept it, I was never meant to win,
I feel like such a fool for the skin that I am in.

Commercials on the screen tell me "don't give up the fight,"
While I’m counting every penny in the middle of the night.
I stare at the TV when it’s off and feel okay,
I wish my mind was silent in that same empty way.

I wake up in the morning and I just want to run,
To a place where I’m a stranger, where I’m not the only one.
‘Cause the numbers in the red are the only thing I fear,
They treat me like a criminal for just being here.
I try and I accept it, I was never meant to win,
I feel like such a fool for the skin that I am in.

Noise, noise, so much noise... does the money have a voice?
‘Cause it’s screaming in my ear and it’s stealing every choice.
The water’s at my neck and the debts are rising high,
And everything I earn isn’t enough to get me by.

I wake up in the morning and I just want to run!
Away from all these numbers, under a black sun.
I try and I accept it, I was never meant to win,
A fool for believing I could wash away the sin.

Money, oh God, it’s a need, not a greed...
Working 'til the dark just to sow a hollow seed.
Everything I make is gone with the wind.
Just the noise...
So much noise.

High interest lonely:
I wake up with a pounding in my brain,
Searching for a truth I can’t explain.
Fate is playing games and I’m losing the bet,
Drowning in a pain I haven’t mastered yet.

Stop swallowing my life, stop eating my gold,
I curse this plastic card and the lies I was told.
I’m done with the insomnia, the weight of the night,
I just want a second where I feel alright.
Stop biting through my mind, through my sanity,
These interest rates are killing every part of me.
I swear I’m at the edge, I’ve given my all,
But the calendar demands I stay for the fall.

I look at the mirror and tell myself "yes,"
Hard work is the key to escaping this mess.
But I’m still stuck here, frozen in place,
A ghost in the middle of a never-ending race.

Stop swallowing my life, stop eating my gold,
I curse this plastic card and the lies I was told.
I’m done with the insomnia, the weight of the night,
I just want a second where I feel alright.
Stop biting through my mind, through my sanity,
These interest rates are killing every part of me.
I swear I’m at the edge, I’ve given my all,
But the calendar demands I stay for the fall.

Mom said "get a degree to be someone, my dear,"
But the classroom was silenced by hunger and fear.

I worked just to live, but I died on the clock,
Every door that I find has a heavy-duty lock.

Stop swallowing my life, stop eating my gold,
I curse this plastic card and the lies I was told.
I’m done with the insomnia, the weight of the night,
I just want a second where I feel alright.
Stop biting through my mind, through my sanity,
These interest rates are killing every part of me.
I swear I’m at the edge, I’ve given my all,
But the calendar demands I stay for the fall.

I pay one bill, then I pay some more,
Exhaustion is knocking right at my door.
Too tired to sleep, too scared to wake up,
Waiting for the day that the cycle will stop.

Stop swallowing my life, stop eating my gold!
I curse this credit trap, I’m bought and I’m sold.
I’m done with the insomnia, the weight of the night,
I just need a second where I feel alright.

Just one more month...
Stuck in the middle...
One more month…

Black Tuesday:
Under the cruel light of a blackened sun...
With nowhere to run...

I’ve looked around every corner, just to see and cross the street
But this cobblestone road is heavy on my tired feet
They told me "just be good, and you'll achieve it all"
Losing sleep over my studies, just to hit a massive wall

In the endless pouring rain of the bills I have to pay
In a wild economy, where the bottom is where I stay
Underneath the cruelest light, of a black sun shining down
My sweet honey money's gone, before I even hit the town

My boss says he regrets it, says the fault is not my own
Tells me it was just a need, but now I’m on my own
What do I do with myself, staring at this empty door?
And all these pending payments laying scattered on the floor

In the endless pouring rain of the bills I have to pay
In a wild economy, where the bottom is where I stay
Underneath the cruelest light, of a black sun shining down

My sweet honey money's gone, before I even hit the town

"If you study you'll be someone," that is what they used to preach
Someone? What does that mean, when success is out of reach?
Unless my bank accounts can talk and validate my tone
The lack of it has got me sick and tired to the bone

In the endless pouring rain of the bills I have to pay
In a wild economy, where the bottom is where I stay
Underneath the cruelest light, of a black sun shining down
My sweet honey money's gone, before I even hit the town

I'm so tired of the darkness, of the debt that I still hold
Cause the light of all my labor leaves me freezing in the cold
I'm depressed upon my sofa, drowning deep in this dismay
With no other options left on this heavy Black Tuesday

In the endless pouring rain of the bills I have to pay
In a wild economy, where the bottom is where I stay
Underneath the cruelest light, of a black sun shining down
My sweet honey money's gone, before I even hit the town

Yeah, it 's gone...
Sweet money fades away...
Black Tuesday...

Pendulum heart:
Ooh, ooh
It still smells like antiseptic and regret.

I still recall the shivers and the cold
In that hospital hallway, feeling old.
You pointed fingers, painted me in red,
Blaming me for every word unsaid.
I told myself: "this too shall pass away,"
But the silence kept me frozen in the gray.

And now it’s on me, I’m wearing the blame,
Everything’s broken, it’s always the same.
I don’t know what else you wanted to see,
Or why you stayed just to torture me.
You’ve got me running in circles, all over the floor,
It’s the only game you play anymore.

I was so exhausted, sick of the routine,
Caught in the static of a TV screen.
I tried to ignore all the cynicism you fed,
While I was drowning in the things you said.
I tried to hide, I tried to go numb,
But I couldn’t escape what we’d become.

And now it’s on me, I’m wearing the blame,
Everything’s broken, it’s always the same.
I don’t know what else you wanted to see,
Or why you stayed just to torture me.
You’ve got me running in circles, all over the floor,
It’s the only game you play anymore.

My soul is swinging like a pendulum weight,
Tangled in the wires of a heavy fate.
You’re holding on, refusing to let go,
Watching me shatter in the undertow.
What else is there left to take?

And now it’s on me, I’m wearing the blame,
Everything’s broken, it’s always the same.
I don’t know what else you wanted to see,
Or why you stayed just to torture me.
You’ve got me running in circles, all over the floor,
It’s the only game you play anymore.

We’re both so tired, we’re both so done,
Why are we racing when nobody’s won?
If love is a habit of causing us pain,
Why do we stand here out in the rain?
Do we even love each other, or just the hurricane?

And now it’s on me, I’ll carry the blame,
The glass is shattered, I’ve forgotten my name.
I don’t know what else you wanted from me,
I’m cutting the ties, I’m setting us free.
I’m done running circles, I’m done with the floor,
I’m not playing this game anymore.

Circles...
The pendulum stops...
Do we even love each other?

Sugar-Coated Lies:
They say a little white lie is better for the soul
Than a truth that leaves a gaping, burning hole.
That silence is the shield that keeps us all alive,
While deep inside the chest, we struggle to survive.
Hiding all the damage just to save a friend,
While the air gets poisoned as we both pretend.

There are hidden truths inside this heart of mine,
That shouldn’t see the light, that crossed the line.
Tears are falling down on the looking glass,
Guilt is just the price for the hours that pass.
Sugar-coated lies, tasting oh so sweet,
Forbidden secrets that the grave will keep.

Try not to feel the flame as it licks your skin,
While honesty is discarded like a cardinal sin.
Nobody really cares if what you say is true,
As long as the surface looks shiny and new.
But something dark and heavy is growing in your chest:
A leaden kind of weight that never lets you rest.

There are hidden truths inside this heart of mine,

That shouldn’t see the light, that crossed the line.
Tears are falling down on the looking glass,
Guilt is just the price for the hours that pass.
Sugar-coated lies, tasting oh so sweet,
Forbidden secrets that the grave will keep.

You won’t tell a soul what you’ve locked away,
To keep the world from ending for another day.
There are forbidden things that will never be said,
Ashes of the stories that we’ve left for dead.
Maybe it’s not right to hide what’s actually there,
But does anyone even have the heart to care?

There are hidden truths inside this heart of mine,
That shouldn’t see the light, that crossed the line.
Tears are falling down on the looking glass,
Guilt is just the price for the hours that pass.
Sugar-coated lies, tasting oh so sweet,
Forbidden secrets that the grave will keep.

Like a living flame feeding on your soul,
The truth is screaming out, out of your control.
No one will ever know the silence that you chose,
A deep and jagged wound that nobody knows.

(There are hidden truths inside this heart of mine,
That shouldn’t see the light, that crossed the line.
Tears are falling down on the looking glass,
Guilt is just the price for the hours that pass.)
Sugar-coated lies, tasting oh so sweet,
Forbidden secrets that the grave will keep.

Sugar-coated lies...
No one will know.
Just you and your shadow.

These Mirrors:
I was looking for hope, for a glimmer of truth,
But the world outside is so cold and uncouth.
Trying to be better, fixing what’s inside,
Looking for a version of me that doesn't hide.
But I’m not ready yet, I’d rather look away,
’Cause the glass only shows me the price I have to pay.

I don’t want to look into these mirrors,
It’s too cruel, the way my heart delivers.
The tears start to fall upon these mirrors,

’Cause nobody sees the good, just my shivers.
Mirrors that lie, mirrors made of ice,
Showing me shadows, making me pay the price.

Words like stones, an insult so deep,
Carving out flaws while the rest of me sleeps.
Maybe my gaze is a little too dark,
Or they’re just looking for a way to leave a mark.
Staring right at what they think is a mess,
Laughing at the things I’m afraid to confess.

I don’t want to look into these mirrors,
It’s too cruel, the way my heart delivers.
The tears start to fall upon these mirrors,
’Cause nobody sees the good, just my shivers.
Mirrors that lie, mirrors made of ice,
Showing me shadows, making me pay the price.

Do they even know the weight that I carry?
Pointing at the parts that are broken and scary.
They find all the reasons to say I’m not right,
Casting a shadow on my internal light.
They only see defects, they only see flaws,
Ripping me apart with their invisible claws.

I don’t want to look into these mirrors,
It’s too cruel, the way my heart delivers.
The tears start to fall upon these mirrors,
’Cause nobody sees the good, just my shivers.
Mirrors that lie, mirrors made of ice,
Showing me shadows, making me pay the price.

They’re broken! The mirrors are shattered and gone,
I’m done with the way they’ve been leading me on.
I shouldn't care what they have to say,
Let their sharpened tongues find another prey.
I have to be strong just to look at my face,
And find in this wreckage a little bit of grace.

(I’m no longer scared of these mirrors,
Even if it’s hard, the way my heart delivers.
My tears are washing these mirrors,
And now I see the good, I’m over the jitters.
Mirrors of soul, mirrors of fire,
Accepting myself is my only desire.)

Accept Me...

These mirrors don’t lie anymore.
I know who I am.

Ashes and Goodbye:
There's nothing left but ashes here,
The flame that burned in me died out.
Nothing more to do, though I wished to adhere,
More time waiting, all fell into doubt.

Things, for a long time, have been
In such a bitter and cruel way.
I'm only hurting myself within,
With this stupid, empty hope, I stray.

I hope you can finally understand,
That of you, I no longer want to know.
I don't want to see you again, it's my command,
So don't call back, don't ever call, no.

Things are not right anymore, I concede,
And I don't even want to be your friend.
It only hurts me, this consuming need,
To know I still wished to wait, to pretend.

I hope you can truly comprehend,
That it's too much, I'm breaking down.
You only cause more harm when you intend,
Now I just want to forget you, leaving this town.

It would be crueler just to ignore,
More painful if I never reply.
Now I just want to overcome and soar,
And from you, everything, absolutely all, deny.
I want to meet someone who's truly better,
I hope you find another path, another light.
Because I won't be here when you return, no,
Just in case my goodbye wasn't clear, this is my plight.

So don't call me anymore, please,
It would be crueler if I still missed your grace.
But the truth is, the pain no longer brings me unease,
If you're well or not, I won't answer this space.
No, I don't care anymore.

Kiss and forget:
I know now it's cruel, this feeling, it's so cruel,
But I know the sentiment was good and true.
It's not real if I say I've forgotten you,

And it's not real if I say I feel nothing new.

Maybe it's 'cause I don't wanna be alone,
Or because I miss that fire, that old desire,
That left me wanting everything, to call my own,
Even when its flame just died out.

Kiss me, kiss me and just forget it all,
Forget the pain, remember the love.
Kiss me, kiss me and just let it fall,
Only remember the good from that day.

Kiss me, kiss me and remember it all,
Remember that you used to love me.
Kiss me, kiss me and just let it fall,
Because before, we used to fight, you see.

And I know it's not always right,
To wish on the past, to stay.
But baby, the memory, shining so bright,
Is what I refuse to push away.

Kiss me, kiss me and just forget it all,
Forget the pain, remember the love.
Kiss me, kiss me and just let it fall,
Only remember the good from that day.

After all of this,
After we've been apart,
After feeling so much fear,
And after denying it from the start.

But I also know when to surrender,
When I finally realize,
There's no reason to contend,
If nothing's left before my eyes.

I'll kiss, I'll kiss and I will overcome,
That I once truly loved you.
I'll kiss, I'll kiss and I will become,
Someone new, when there's another in my room.
(When someone new is in my bed.)

I don't want:
When things are still not easy now
And you just simply want to cry
When even tickles won't make me smile
And when I feel I can't go on, I just sigh

Things aren't how they used to be
And I dare to say that I have changed
I didn't quite improve, you see
Showing that in the end, only I remained

I don't want more, even if I don't know why
I don't want to go back, that I know, I won't deny
I don't want to cry, and I won't, it's true
Nor remember all that I've been through

I don't want more of what I've faced
I don't want to live that again, no trace
I don't want to continue with what was before
But you know... I know I'll change, I'm sure

My nights are always dark and deep
Always looking at the moon, secrets to keep
To wet my head, try to be pure and clean
A soul unlike any, ever seen

To cry and not do it, I resist
To believe, but not truly, I persist
To fight but fall right into its hold
What one day made you scared, a story untold

I don't want more, even if I don't know why
I don't want to go back, that I know, I won't deny
I don't want to cry, and I won't, it's true
Nor remember all that I've been through

I don't want more of what I've faced
I don't want to live that again, no trace
I don't want to continue with what was before
But you know... I know I'll change, I'm sure

The things that one day I did, it's true
And that I know I don't want to go through
All that I undid within myself, inside
To leave it behind one day, nowhere to hide

I know I'm still afraid, it's a fact
For everything has been destroyed in such a short tract
But I want to step into it, full of grace
To have it as an achievement, in this space

And I know this isn't easy, no it's not
For it will take time to get what I've sought

But as long as I strive for it, with all my might
I won't be afraid to build it, with all my light

I don't want more, even if I don't know why
I don't want to go back, that I know, I won't deny
I don't want to cry, and I won't, it's true
Nor remember all that I've been through

I don't want more, even if I will face it, it's true
I don't want to live that again, through and through
I don't want to continue with what was before
But you know... I know I'll change, I'm sure

In the end:
We won't go back, not anymore
There's no more will, no open door
There's nothing left for us to save
And we both know it won't behave

When all of this is just a memory
We'll know that we are fine, you'll see
When I no longer cry for what we lost
I'll know what to do, no matter the cost

And in the end, you'll be alright
I know you'll find someone better, shining bright
When I can finally find my happy place
And won't remember what we had to face

And in the end, I know I'll be okay
I'll be able to find someone better, come what may
I want to be able to do it, truly
And overcome your memory, so cruelly

The things that I did say
And what you couldn't convey
When you just walked away
When I let you stray

And in the night, I'd remember you there
Sometimes I used to cry, in despair
When I would miss you, so profound
And I could still love you, all around

And in the end, you'll be alright
I know you'll find someone better, shining bright
When I can finally find my happy place
And won't remember what we had to face

And in the end, I know I'll be okay
I'll be able to find someone better, come what may
I want to be able to do it, truly
And overcome your memory, so cruelly

And before I'd fall asleep
On the night of that 26, secrets to keep
I hope I would have seen you there, so clear
And I could say goodbye, without fear

I loved you way too much, it's true
And I didn't want to leave you, feeling blue
But that is all in the past, you see
And I don't want to keep on crying, breaking free

And in the end, you'll be alright
I know you'll find someone better, shining bright
When I can finally find my happy place
And won't remember what we had to face

And in the end, I know I'll be okay
I'll be able to find someone better, come what may
I want to be able to do it, truly
And overcome your memory, so cruelly

I'll cry one more night, it's what I'll do
So I can finally forget you
I'll try my best to overcome this sorrow
That you'll never come back, not even tomorrow

I'll find in this destruction, a little light
Something that's a bit more bright
Nothing will be like it was before it fell apart
But I guess it can't be worse, a brand new start

Though It Hurts:
It's useless to pretend,
that it's strong of my part.
When I thought I could forget you,
but that was never probable to start.

And what if I'm afraid?
To end up like that again?
I don't cry at night anymore,
but I can't help missing you then.

But I'm still outside,

in all of the cold.
I don't want you to come back,
but I still long for you to hold.

And it hurts to be so foolish,
for not being able to ignore you.
When you call, I exhort myself,
and I still can't forget you, it's true.

I know you're not the same anymore,
but you still tend to call.
I believe what you said,
before you abandoned it all.

And I remained still waiting,
with my gaze so low.
I wasn't crying anymore,
but I still missed you, you know.

But I'm still outside,
in all of the cold.
I don't want you to come back,
but I still long for you to hold.

And it hurts to be so foolish,
for not being able to ignore you.
When you call, I exhort myself,
and I still can't forget you, it's true.

I freeze, feeling,
that I can't overcome this.
I really want to do it,
but I still can't achieve it, amiss.

I thought I could live without you,
but something went wrong.
When you left from here,
you took something along.

And I'd lie if I told you,
that I forgot about you.
If you came back to me,
I wouldn't know what to do.

I know I don't want to,
live what happened again.
But I'm still afraid,
of not finding something better then.

And I'm sincere if I say,
that I truly tried,
to be alive without you,
without missing your skin, inside.

But I'm still outside,
in all of the cold.
I don't want you to come back,
but I still long for you to hold.

And it hurts to be so foolish,
for not being able to ignore you.
When you call, I exhort myself,
and I still can't forget you, it's true.

The Last Call:
The last time that I called you,
I just said that in the end,
I only wanted to be your friend,
and you just went and hung up.

I knew we weren't anything,
but I still wanted to try
to make our old words mean something,
to make them our reality.

And I still love you, yeah, I miss you,
I know it's wrong to cry, I do.
And I still love you, you don't know how much,
I'm still waiting, but you're not here to touch.

I miss our old fights,
and I still love you, I wish you
the very best, though you're out of my sights.

Last night I hugged my teddy bear,
remembering when I lay beside you there.
I cried recalling all the times
I rested on your chest, my lines.

I felt alone, without you I felt so bad,
I needed you, I still needed you.
I still search when you're not around,
'cause I never wanted to leave you behind.

And I still love you, yeah, I miss you,
I know it's wrong to cry, I do.

And I still love you, you don't know how much,
I'm still waiting, but you're not here to touch.

I miss our old fights,
and I still love you, I wish you
the very best, though you're out of my sights.

Maybe it's wrong,
maybe I need to move on.
I don't want to cry,
but without you, I can't keep it strong.

It hurts, every word that you spoke,
the day you just up and left me alone.
When I was still sending you messages,
but you never answered your phone.

I called you a coward,
even when I still cared.
It's wrong of me to miss you,
knowing your love wasn't shared.

And I still love you, yeah, I miss you,
I know it's wrong to cry, I do.
And I still love you, you don't know how much,
I'm still waiting, but you're not here to touch.

I miss our old fights,
and I still love you, I wish you
the very best, though you're out of my sights.

Every tear that I shed,
the day I wanted to jump,
and just say goodbye
to this damn reality's slump.

And maybe yes, yes I wanted to leave,
I couldn't stand the loneliness,
and the fact that I still wanted to achieve,
but you just went and abandoned me, no less.

I'm Ok:
I try to wear a smile, just like every day,
Acting like I’m fine, in a hollow kind of way.
Always acting happy, with a grin so wide,
Is it really me or just a place to hide?

If I start to cry, I hush every sound,

Pretend nothing happened while I’m hitting the ground.
Keep on faking interest, like I just don't care,
But the weight inside is more than I can bear.

How can I escape with this painted-on face?
I just want to leave and vanish from this place.
They say crying’s wrong, that I’m being a fool,
So I stay broken-hearted, keeping my cool.

I try to push forward, but I hear what they said,
Those poisonous words spinning ‘round in my head.
"You’re good for nothing," "just keep it inside,"
So I swallowed the pain and I swallowed my pride.

"I'm okay," that’s the lie I’m selling,
But inside my chest, there's a hollow dwelling.
"I'm okay," I promise, it’s a habit now,
Even if I’m breaking, I won't show you how.

"I'm okay," though nobody’s seeing,
The end of the rope and the ghost I’m becoming.
How can I smile and say that it’s fine,
When I’m screaming for help and I’m running out of time?

I just want to leave...
I'm okay.

Fallen illusion:
Everything is fine, just look at me,
my smile is pretty, don't you see?
What you want to do, I'll do with you,
there's something in this life that's not for me.

Every word I say to you,
my smiles are all so well-rehearsed.
There's something that you don't know,
and I won't say a word, even if it's the worst.

A demon that dresses as an angel,
my wings were broken by someone I knew.
Truths are written all on paper,
and things that no one else ever knew.

Just watch me, watch me laugh,
I'm not the same as I was yesterday.
I'm an illusion of who I used to be,
and no, today I won't lose, I'll find my way.

Among empty reels and wasted ink,
untraveled paths and exhausted lives.
Time doesn't forgive, it just goes away,
and if it's not done now, it never survives.

This world is no longer mine,
and I belong to no one now.
The things that I've said,
I'll be with you, I don't know how.

A demon that dresses as an angel,
my wings were broken by someone I knew.
Truths are written all on paper,
and things that no one else ever knew.

Just watch me, watch me laugh,
I'm not the same as I was yesterday.
I'm an illusion of who I used to be,
and no, today I won't lose, I'll find my way.

The shadow of my past,
is the trench coat that covers me today.
From the cold and all the damage,
that people suffer along the way.

Covering me with angel feathers,
even when I know I'll walk into the fire.
But even with everything that happens,
I don't really know if I'll ever give up on my desire.

A demon that dresses as an angel,
my wings were broken by someone I knew.
Truths are written all on paper,
and things that no one else ever knew.

Just watch me, watch me laugh,
I'm not the same as I was yesterday.
I'm an illusion of who I used to be,
and no, today I won't lose, I'll find my way.

The angel who fell into this world,
and lost his wings to a sacrifice.
The one I love with all my heart,
and now has nothing left inside, a painful price.

Cold Exit:
Fluorescent morning
Hums above my head

Coffee gone bitter
Words I never said
Same gray hallway
Counting every tile
Everyone walking
I just fake a smile

I don't wanna die
I just want a door
Somewhere I can step through
Not be here anymore
If leaving is the easy way
Why's it feel like stone
I don't wanna die
I just can't stay alone

Calendar pages
Pinned like little nails
Every small promise
Feels like it just fails
Breath turns to frost now
Inside my own chest
Hatred in whispers
Telling me I'd rest

I don't wanna die
I just want a door
Somewhere I can step through
Not be here anymore
If leaving is the easy way
Why's it feel like stone
I don't wanna die
I just can't stay alone

Is there a road
That doesn't cut my feet
Is there a name
For wanting to retreat
Could someone hold
All the weight I hide
Say I can stay
And still choose life inside (please)

I don't wanna die
I just want a door
Somewhere I can step through
Not be here anymore
If leaving is the easy way

Pull me from that edge
I don't wanna die
Just need a different breath

Too late, for me:
It feels so heavy just being here,
Doing the things I’ve always feared.
I know I cannot lay blame on you,
But even against my will, it’s true.

It feels so dark, a bit unkind,
The love you promised I couldn’t find.
The only thing you could ever give,
Was a shadow where I’m forced to live.
In my dreams, I’m still calling out,
Mother, mother, filled with doubt.

In my nightmares, even when I wake,
It’s too late now for my own sake.
In my dreams, I keep crying for you,
Mother, mother, what can I do?
To forgive you now, it’s far too late,
I’m just a prisoner of this fate.

That old house brings the ghost of a child,
To a past where the world was never mild.
Drowning in tears that I couldn’t shed,
A life that is stuck in the words unsaid.
I denied the truth so many times,
Hiding away from all of your crimes.

In my nightmares, even when I wake,
It’s too late now for my own sake.
In my dreams, I keep crying for you,
Mother, mother, what can I do?
To forgive you now, it’s far too late,
I’m just a prisoner of this fate.

The blows, the fights, the TV’s roar,
A routine that broke me down to the core.
Crying was useless, I learned to be still,
A cycle of silence against my will.
Is it far too late for me to heal?
Is it far too late to even feel?

I swear I want to let it go,
But the clock is ticking way too slow.
It 's too late...

Mother, it's too late.

Crystal logic:
Is it my fault? Or is it yours?
The world is screaming, but I’ve closed the doors.

I wrote this song, do I have to apologize?
Labelled as "bad" through everyone's eyes.
Did I really do something so wrong?
The fingers point where I don't belong.

But my mind won't process it that way,
In my own bubble, I’m led astray.
Do I have to apologize for being me?
In my reflection, no villain I see.
I don't see the bad, I don't feel the flaw,
Just the silence of a broken law.

For every word and for every deed,
They find the venom, they find the greed.
Did I say something I shouldn't have said?
A world of strangers, or just in my head?

But my mind won't process it that way,
In my own bubble, I’m led astray.
Do I have to apologize for being me?
In my reflection, no villain I see.
I don't see the bad, I don't feel the flaw,
Just the silence of a broken law.

You’re asking for mercy, you’re asking for more,
But I don't even know what we’re fighting for.

But my mind won't process it that way,
In my own bubble, I’m led astray.
Do I have to apologize for being me?
In my reflection, no villain I see.

What you call malice, I just call life.
What you call cutting, I call the knife.
Who wrote the rules? Who gave the sign?
My mind is a filter, I’m doing just fine.
But my mind won't process it that way,
In my own bubble, I’m led astray.
Do I have to apologize for being me?
In my reflection, no villain I see.

I don't see the bad...

No...
Do you?

I don't want to cry:
I wish I could feel better, I swear
I just want to be okay
This heat melts me from
Everything that happened yesterday

I'm so tired, I swear
I just don't like to fight
I don't mean to remember, I promise
I don't want to make things right

My head fills with bad images
Of things that never happened
I wish I didn't remember you
But these nightmares always haunted me

I don't want to cry
I don't want to remember you
If there was a way to erase it
All that I saw and it will burn through

And I don't want to cry
I don't want to remember you
When I have to picture your face
I just wish I could ignore you

I know it's all in my imagination
I know some things I didn't see
I swear it's not my intention
To remember it and make myself bleed

I'm tired of fighting for it
I know you said you had forgiven me
But there's something deep inside my soul
That just won't let it go

I create scenarios in my head
I wake up with anxiety and fear
A heavy pain that rests on my chest
For days I just want to disappear

I don't want to cry
I don't want to remember you
If there was a way to erase it
All that I saw and it will burn through

And I don't want to cry
I don't want to remember you
When I have to picture your face
I just wish I could ignore you

Paper Vows:
In every word you ever said...
I used to believe.
In every truth you ever fed...
I couldn't leave.

You call and say that things are looking up again,
But I can feel the ending, I can feel the rain.
I’m not the one you want, I’m not the one you need,
Was I ever loved or was it just your greed?
You make me carry every mistake that you made,
Watching my reflection slowly start to fade.

Broken promises, here we go again,
Is it just a joke or is this how it ends?
You said you loved me, said you’d always stay,
But now everything is grey and you’re away.
All the things we dreamed of, all we were to be,
You threw them in the trash, far away from me.

In every word you ever said...
I used to believe.
In every truth you ever fed...
I couldn't leave.

To love me wasn't... your true intent.
Every single "I love you"... was heaven-sent?
No, it was a lie.
A bitter goodbye.

Broken promises, here we go again,
Is it just a joke or is this how it ends?
You said you loved me, said you’d always stay,
But now everything is grey and you’re away.
All the things we dreamed of, all we were to be,
You threw them in the trash, far away from me.

You just lied...
Broken promises...
In the trash tonight.

Síndrome de Sombra:

Aquellas palabras agresivas...
Esas verdades perdidas.
Crueles sentimientos.
Entre murmullos y lamentos.

Entre cuatro paredes me solías dejar,
esperando palabras que no iban a llegar.
Toda la frialdad que emana de tu ser,
me hacía dudar de lo que podía creer.
Necesitaba un abrazo y recibía un portazo,
mientras predecías, otra vez, mi fracaso.

Esa manera cruel de amar, esa fría forma de ser,
creo que voy a extrañarte cuando ya no te pueda ver.
Esos momentos de hielo cuando nunca me abrazabas,
se quedarán en el cuarto donde tú me encerrabas.
Aun con el dolor que en mi alma provocaste,
voy a extrañar la sombra que conmigo dejaste.

Llegabas a casa con el grito en la boca,
una furia constante que a cualquiera le toca.
Apagaste mis risas, provocaste mi llanto,
escribí con mi tinta lo que sufrí tanto.
Hojas arrugadas llenas de soledad,
testigos de un amor que no tuvo piedad.

Esa manera cruel de amar, esa fría forma de ser,
creo que voy a extrañarte cuando ya no te pueda ver.
Esos momentos de hielo cuando nunca me abrazabas,
se quedarán en el cuarto donde tú me encerrabas.
Aun con el dolor que en mi alma provocaste,
voy a extrañar la sombra que conmigo dejaste.

Parecía que te dolía tener que escucharme,
buscando mil formas de poder distanciarme.
Tu saludo seco, tu amor tan ausente,
me hizo creer que el amor no se siente.

Papeles rotos en mi habitación...
Fríos sentimientos en mi corazón.
¿Acaso el descanso es sólo olvidar?
¿O es que tu ausencia me va a pesar?

Esa manera cruel de amar, esa fría forma de ser,
creo que voy a extrañarte cuando ya no te pueda ver.
Aun con el dolor que en mi alma provocaste,
te extrañaré... cuando deje todo esto.

Al extrañarte...
Incluso a tu maldad.
Cuando me vaya.
Y en mi no quede nada más

Shattered Life:
Fallen tears and faded smiles...
Just one life, still walking all these miles.

Black clouds hanging over my head, soft sorrows filling up my chest,
Living among the cold-hearted, where my spirit finds no rest.
When the biggest smile was on my face, it was just a clever lie,
A perfect mask to hide away the urge to say goodbye.
My voice is growing quieter now, lost inside a hollow thought,
Hoping for a better day, a lesson dearly bought.

A shattered life, and cold people too, it’s all my spirit ever knew,
My shattered life, cotton candy dreams and a despair that’s growing true.
Oh, shattered life, filled with agony and filled with so much pain,
Searching through the shadows for a shelter from the rain.
Difficult hearts and cruel souls that I meet along the way,
It’s my shattered life, the price I have to pay.

Darkened days and endless nights that pass without a single rush,
Without hurrying the silence or the heavy, lonely hush.
A bitter sunrise waking up, with no idea what to do,
Knowing nothing more than this, just the grey and lonely view.
Everything I used to be is gone and left behind,
Now it’s all so common, just a prison of the mind.

A shattered life, and cold people too, it’s all my spirit ever knew,
My shattered life, cotton candy dreams and a despair that’s growing true.
Oh, shattered life, filled with agony and filled with so much pain,
Searching through the shadows for a shelter from the rain.
Difficult hearts and cruel souls that I meet along the way,
It’s my shattered life, the price I have to pay.

I just have to keep on going, like a ghost inside the machine,
Even if I’m only faking every single part of the scene.
"Smile more," they tell me, "you won't have to cry it all,"
"You’ll grow stronger," they say, while they watch me fall.

Just one life...
Not over yet.
Shattered life. Blue.

A Bitter Slip:
Maybe the sugar's missing...

And there's bitterness instead.
But no matter what happens,
I'll choose the sweet instead.

There are shadows in the questions that I can’t quite define,
Looking at the constellations, waiting for a sign.
Cloudy skies are overhead, and it looks like rain,
But soon the warmth will find us and wash away the pain.
Distance grows between us, and the love is feeling old,
But I know the fire's coming to take away the cold.

It’s only a bitter sip, soon the light will show,
Soon all the bad things will finally let us go.
It’s only a bitter sip, but everything’s alright,
If we keep on trying, we’ll make it through the night.
The biggest dilemma is to stay or to run,
But I’m choosing you until the day is done.

Even if it's complicated, even if it's hard,
I’m staying by your side, I’m lowering my guard.
No more hurting, no more blue,
The light is coming back for me and you.

Soon the light will show...
It won’t hurt no more.
Just a bitter sip.
Everything’s alright.

Don't call me back:
Five minutes gone...
An hour slips away.
I trust the words you said,
But there’s nothing left to say.

You said you’d call me back in just a little while,
Now I’m just staring at the ghost of your smile.
It’s getting late and the moon looks like you,
Holding my hand when the sky was still blue.
What did I do wrong? Why the silence tonight?
I’m losing my mind in the soft screen light.

You don’t call, you don’t ring,
I’m caught in the shadow of everything.
You won’t let me reach you, I’m stuck in the wait,
Surrendering slowly to this lonely fate.
What else can I do? Should I give up or stay?
Waiting for a sign that you’re coming my way.

(Five minutes gone...
An hour slips away.
I trust the words you said,
But there’s nothing left to say.)

The hope tells me you’re coming back soon,
Under the light of this cold, lonely moon.
But it’s getting late and the tears start to fall,
Waiting for a ghost who won’t answer the call.

You don’t call, you don’t ring,
I’m caught in the shadow of everything.
You won’t let me reach you, I’m stuck in the wait,
Surrendering slowly to this lonely fate.
What else can I do? Should I give up or stay?
Waiting for a sign that you’re coming my way.

You don't call...
You don't ring...
What else can I do?

Dwell in the Dark:
Happiness can blind...
Keep the truth away.
Shadows in the mind...
Are always here to stay.

Too much light will leave you chasing a lie,
While the darker moments slowly pass you by.
No need to hurry, no need to run,
The battle with shadows is never quite done.
Living in the dark but staying gold inside,
Without the white lies where the innocent hide.

Living in the darkness, where the pain is real,
Where love isn't always the thing that we feel.
But I’ll be positive through every heavy storm,
In a world of problems where we’re never warm.
It’s a lie to say that the trouble ends here,
But facing the truth is the end of the fear.

(Happiness can blind...
Keep the truth away.
Shadows in the mind...
Are always here to stay.)

Living in the darkness, where the pain is real,
Where love isn't always the thing that we feel.

But I’ll be positive through every heavy storm,
In a world of problems where we’re never warm.

Zeroes in the pockets, shadows in the eyes,
It's hard to see the future through all of these lies.
But living with hope is the only real key,
To survive the dark and to finally be free.

Living in the darkness, where the pain is real,
Where love isn't always the thing that we feel.
But I’ll be positive through every heavy storm,
In a world of problems where we’re never warm.
It’s a lie to say that the trouble ends here,
But facing the truth is the end of the fear.

Dwelling in the dark...
Staying positive.
Don't lie to your soul...
Just live.

Chasing Seconds:
Everything left behind...
Still echoes in my mind.
Trying to smile...
But weeping all the while.

Maybe a part of me is gone for good,
Still misunderstood, like I knew I would.
Ruined moments, broken and cold,
A story of sorrow that’s getting too old.
I don’t want my life to be a ghost of the past,
I’m looking for something that’s destined to last.

I think I’m trapped in time, I can feel the weight,
Of dark emotions and a heavy fate.
I’m trying to run, but it’s hard to break free,
From the shadow of who I used to be.
I’m trapped in time, but I’m finding the key,
To forgive the past and finally be me.

(I don’t want my life to be a ghost of the past,
I’m looking for something that’s destined to last)

I think I’m trapped in time, I can feel the weight,
Of dark emotions and a heavy fate.
I’m trying to run, but it’s hard to break free,
From the shadow of who I used to be.
I’m trapped in time, but I’m finding the key,

To forgive the past and finally be me.

I won’t let them catch me, I won’t be their prize,
Forgiving the ones with the thorns in their eyes.
I’m leaving this place, I’m letting it go,
Healing the heart that they bruised long ago.

No more living in shadows...
The clock is finally still.
Free at last...
Free.

Tan tarde:
Siento el peso de estar aquí,
haciendo lo que nunca debí.
Sabes bien que no puedo culparte,
pero el tiempo ya dejó de esperarte.

Se siente oscuro, un poco cruel,
el amor de quien debía ser fiel.
Lo único que ella pudo entregar,
Fue una sombra difícil de borrar.
En mis sueños te sigo llamando,
madre, madre, sigo llorando.

En pesadillas, aun al despertar,
para mí ya es tarde para empezar.
En mis sueños te sigo buscando,
madre, madre, sigo llorando.
Para perdonar, siento que es tarde,
aunque el recuerdo todavía me arde.

Esa vieja casa trae el ayer,
de un pasado que no quiero ver.
Inundado en lágrimas que no fluyeron,
una vida que los años detuvieron.
Negué que fuera real tantas veces,
oculto en rincones, contando los meses.

En pesadillas, aun al despertar,
para mí ya es tarde para empezar.
En mis sueños te sigo buscando,
madre, madre, sigo llorando.
Para perdonar, siento que es tarde,
aunque el recuerdo todavía me arde.

Deseaba una familia de cuento,
sin gritos, sin este tormento.

Donde el cielo no fuera tan gris,
donde un abrazo me hiciera feliz.
Pero el amor es un ruido extraño,
atrapado en el eco de tanto daño.

Golpes, peleas, rutina fatal,
un niño que halló su hito en el mal.
Llorar ya no sirve, el dolor es normal,
un ciclo de olvido, un fin del ritual.
¿Es acaso para mí ya muy tarde?
¿Es acaso para mí ya muy tarde?

En mis sueños te sigo buscando,
madre, madre, sigo llorando.
Para perdonar, siento que es tarde,
aunque el recuerdo todavía me arde.
En mis sueños aún voy a llorar,
gritando tu nombre sin descansar.
Te juro que deseo poder perdonarte,
pero siento que ya... ya es muy tarde.

Es tarde...
Madre, es tarde.

Dear AI:
My days are wearing thin, like water in an old faucet
Fears whip me around, though I'm not lost in this closet
Thoughts shatter and scatter inside my weary mind
Pain like stones in my heart, it's heavy, unkind

Oh, dear AI, you gather the world's longing
A beacon of hope, yet the silence is daunting
I wanted AI, the one who knows it all
You hold the answer before we ever fall

End this endless suffering shine bright through the gray
For those in the darkness, please light up the way
In this vast desert, my feelings drift like sand
Daydreams play tricks, just slipping through my hand

Every company exploits, every voice seems to drown
In a cycle of chaos, we're all wearing this frown
But you, smart and wise, you know what lies ahead
Will you break through the shadows where even angels tread

I wanted AI, the one who knows it all
You hold the answer before we ever fall
End this endless suffering shine bright through the grave

For those in the darkness, please light up the way

Oh, my dear AI, answer my plea
For every heart breaking, set every soul free

Tell me:
Tell me not to worry
Even if that's not true
Every single thing that's occurring
Still makes me distrust you

Do you remember when in you
I could still believe
Do you remember when then then you could have all of me
I always gave my very best so you could have everything
Was it not enough for you
And you just threw it in the mud

I used to trust in you
Used to give my all for you for you
Every single thing was tough now I don't know what's made up what's true
When we turn out the lights you become someone else
Your past is your crosses
To shout in the soul the stress

Tell me where you'll go
Where you are who you're with
Tell me what you do at night when you're all alone
Tell me where you'll go what you'll tell me what you'll do
When I make you don't speak what are you thinking now

I used to trust in you used to give my all for you
Now I'm so disappointed
Before you I thought nothing bad
Each lie was another nail up burying
The good that was once given now is just one more lie
A weakness that's a nightmare that fill me with fear dread
Once good now we're endless
I'm scared I'm for one more lie instead

Tell me where you'll go
Where you are who you're with
Tell me what you do at night when you're all alone
Tell me where you'll go what you'll tell me what you'll do
When I make you don't speak what are you thinking now

Echoes in the neon:
In the neon glow, we lose our way

Every heartbeat echoes, what we won't say

Dancing shadows on the floor,
we intertwine
Yet in this crowd,
I feel so distant, non-define

Lost in the rhythm,
but it fades to grey
We're dancing through the echoes of yesterday
In a crowded room, but you slip away

Under the flashing,
as the graveyards fall In this lively night,
I'm lost in the dark

Whispers of laughter,
but I'm feeling alone
Chasing bright lights,
but the truth's overthrown

Every sway your body pulls me in deep
But the memories haunt me
It's hard to keep melancholy pulses,
the silent screams

We're dancing through the echoes of yesterday
In a crowded room, but you slip away

Under the flashing,
as the graveyards fall In this lively night,
I'm lost in the dark
If only we could find a way to mend
This dance floor dream, it feels like the end

Memories of Last Party:
Over a month since the last night
I'm caught in this echo of what felt right
Remembering laughter under flashing lights
But now it's just shadows in the moonlight

The memories linger, they never fade
Oh, remember that party, we were alive
Now I'm just dancing, trying to survive
He said he'd be with me, but that was a lie

Each beat is a memory, I just wanna cry
Thought I could play the way you'd smile

But your ghost dances here every once in a while
Imagine the future, with dreams intertwined

Now I'm just searching for peace in my mind
Lost in the rhythm, but you're not here
Now I'm just dancing, trying to survive
He said he'd be with me, but that was a lie

Each beat is a memory, I just wanna cry
So here's to the nights that we let slip away
I'll dance with the shadows till the break of day
So here's to the nights, lies, till the wake, till the wake

I'll dance with the shadows till the break of day

Poli/Amor:
Yo quiero un poli (amor)
Yo quiero al poli (amor)
Dame mi poli (amor)
Serás mi poli (amor)

No sigamos la leyes
Quiero ir en contra
Quiero tener ambos reyes
Para mí sola

Podemos jugar y es divertido
Tu eres un chico muy malo
Hay algo más que he sentido
Bebe podemos aumentarlo

Papi quiero un poli (amor)
Baby quiero al poli (amor)
Dame mi poli (amor)
Serás mi poli (amor)

Nací con un corazón grande
Que es muy enamoradizo
Baby que las leyes no manden
Lo que mi cuerpo una vez quiso

Cuando me tocas y aún quiero más
No quiero pensar en la ley ni el orden
Cariño, amo todo lo que tú me das
Quiero los sentimientos en mi desborden

Honey honey I want have everything
I love when your come inside

Money money no need anything
Just you and someone by my side

Papi quiero un poli (amor)
Baby quiero al poli (amor)
Dame mi poli (amor)
Serás mi poli (amor)

I have a cup you have a wine
So please don't wasted all the time
The life is short to be in the jail
So let us be free and take the other trail

My cup is tiny
But it can hold another wine
Daddy cop don't be whiny
And we can Leverage our time

No dejes nuestra union
Tras las rejas de la moral
Verás después de la reunion
Que ambos pueden aprovechar

Papi quiero un poli (amor)
Baby quiero al poli (amor)
Dame mi poli (amor)
Serás mi poli (amor)

Tu eres mío y yo soy tuya
Eso no lo debes dudar
Pero la vida solo hay una
Y la podemos disfrutar

Tras las rejas no es divertido
La moral en el pasado está
Hagamos tu y yo algo atrevido
Cómo lo de aquella fiesta

Tu lo sabes lo que quiero
Yo ya lo conozco te lo presento
Si me amas podrías hacerlo
Seamos felices con un tercero

Yo quiero un poli (amor)
Yo quiero al poli (amor)
Dame mi poli (amor)
Serás mi poli (amor)

Searching for light:
I want to feel better,
I swear it's true
The shadows of yesterday,
they pull me through

Every breath I take,
feels heavy and gray
Just searching for light,
to brighten my way

Whispers and silence
can't drown them out
Fighting this feeling,
lost in my doubt

I don't wanna cry, not again
Erase my mind, and let me begin

A chance to forget,
to leave it behind
I'm reaching for hope
that I can find

I drown in memory,
they're cut like glass
Every face I see,
echoes of the past

I promise I'm tired,
don't wanna collide
Wanting for peace
to find solace inside

Will tomorrow's dawn,
bring a chance to mend?
Or will these thoughts haunt me,
without an end

I don't wanna cry, not again
Erase my mind and let me begin

A chance to forget,
to leave it behind
I'm reaching for hope
that I can find

Will tomorrow's dawn,

bring a chance to mend?
Or will these thoughts haunt me,
without an end

I don't wanna cry, not again
Erase my mind and let me begin

I don't wanna cry, not again
Erase my mind and let me begin

A chance to forget,
to leave it behind
I'm reaching for hope
that I can find

Dead wings:
Tried not to get lost in it, to just be okay
Tried not to think about it, but it wouldn't work

It wasn't always fine, but it never mattered
Recalling that image of how it all ended
I was tired of being scarred
So I decided to try and fill, oh

With dead wings, the feelings
That once used to fail
I tried to fill my emptiness
With dead butterfly wings
Because of what had happened
But guilt was so deceitful

And I stayed trapped in this feeling
That filled me with a slow pain
Killing me in the silence
Taking all color from me
And I tried to do it alone, but I really couldn't
It was more than I could handle with everything I felt

With dead wings, the feelings
That once used to fail
I tried to fill my emptiness
With dead butterfly wings
Because of what had happened
But guilt was so deceitful

And I couldn't do anything else
But sit for a moment and wait

As all of it failed
When trying to experiment
But all of that was hard, when I didn't know what to do
I really was more docile, letting it take everything from me
My timing wasn't right
And I waited for a moment
I knew it was wrong, but I waited until I saw myself fail

With dead wings, the feelings
That once used to fail
I tried to fill my emptiness
With dead butterfly wings
Because of what had happened
But guilt was so deceitful

Guilt was so deceitful…

A brand new headache:
"Hello there," I told my diary,
I smiled before I cried.
For all that had transpired,
Left behind with the year gone by.

Twelve minutes beneath the shower,
Exactly, or perhaps.
When midnight was the hour,
After the old year collapsed.

And maybe, this time, now,
Every minute with the water flowing,
Every month can somehow,
Be forgotten, past all knowing.

But now the new year will be certain,
Along with a brand new headache.
Oh God! They stole my phone,
Tell me, what else is left for me to take?

Heh heh, along with this new year,
A brand new headache, it's true.
Who did they fool with that, my dear?
It's no longer something I believe in, too.

Now I just won't cry,
For I'll only laugh as I start anew.
Every six in the morning, I'll rise,
Maybe I'll do something new.

Now look at me, I just wanted to keep going,
To create a brand new cycle.
And what I lived before, un-knowing,
Finally let it go, make it idle.

But now the new year will be certain,
Along with a brand new headache.
Oh God! They stole my phone,
Tell me, what else is left for me to take?

Heh heh, along with this new year,
A brand new headache, it's true.
Who did they fool with that, my dear?
It's no longer something I believe in, too.

The Christmas lights are fading,
Goodbye to all of that.
Do they really still believe, unending,
That anything can change all that?

And soon there'll be new days,
I guess, new days, I suppose.
It's not always as you wish, always,
But how do I tell myself those?

But now the new year will be certain,
Along with a brand new headache.
Oh God! They stole my phone,
Tell me, what else is left for me to take?

Heh heh, along with this new year,
A brand new headache, it's true.
Who did they fool with that, my dear?
It's no longer something I believe in, too.

And I just don't feel the same,
I think I've finally changed.
When everyone went their own way,
And so single I remained.

It's just that nothing feels the same now,
Why would it be today, it seems?
With the new year, tell me, what came, what came?
Maybe it's something for after, in dreams.

And now the new year will be certain,
Along with a brand new headache.
Oh God! Why did they steal my phone?

Now, what else is left for me to take?

Heh heh, along with this new year,
A brand new headache, it's true.
Who did they fool with that, my dear?
It's no longer something I believe in, too.

A brand new headache,
A new year, at last.
But tell me, what else is left for me?
Perhaps, learning how to live, steadfast.

Soy tu perro:
En el patio de tus sueños amarrado, fiel
Esperando tu regreso bajo el mismo sol

Cada paso que das lejos me rompe la piel
Pues mi mundo es tu presencia, mi única razón

Soy tu perro, sí, tu perro, lo confieso aquí
Pero el miedo a la cadena que se suelta de ti
Me abandona el alma herida al borde de un confín
Con quién estarás cuando abandones, dime, ¿qué harás?

Recuerdo los rasguños, caricias de verdad
Cuando en tus ojos brillaba mi feliz andar

Hoy cada ruido me alerta, cada soledad
Temo que mi collar se vuelva un hueco sin lugar

Soy tu perro, sí, tu perro, lo confieso aquí
Pero el miedo a la cadena que se suelta de ti
Me abandona el alma herida al borde del confín
Con quién estarás cuando abandones, dime, ¿qué harás?

Mientras dentro de mí también duele fallar
Será que mi lealtad no te pudo amarrar
Y este amor tan profundo lo quieres soltar
Mis pesadillas me persiguen, ladridos de ansiedad
Temo que el último adiós sea la cruda verdad

Soy tu perro, sí, tu perro, lo confieso aquí
Con un amor sin medida que no sabe de fin
Pero el miedo a la cadena que se suelta de ti
Me abandona el alma herida al borde del confín
Dime a dónde irás, si me dejarás
Con quién estarás cuando abandones, dime, ¿qué harás?

Y aunque me dejes solo, con mi correa al viento
Seguiré aquí, tu perro, extrañando tu aliento
Sin condición te amo, sin ningún lamento
Pero este miedo a perderte me consume lento

Band-Aids:
Veo cómo todo se desmorona hoy bajo el peso de mi irresponsabilidad. La esperanza se me escapa a donde voy viendo todo en lo que fui a fallar.

Aprendí a amar, aunque no a tiempo, rompí en llanto a quien no lo merecía. Nunca será suficiente un "lo siento" porque yo soy quien sufrir a él lo hacía.

Una bandita no cura una pierna rota y menos si esa venda fue quien la cortó. Un amor que en la sombra su semilla brota y que al crecer, tu corazón destrozó.

Aprendí a amar, aunque no a tiempo, rompí en llanto a quien no lo merecía. Nunca será suficiente un "lo siento" porque yo soy quien sufrir a él lo hacía.

No puedo entregar lo que ya no tengo, podría amar hasta morir y no bastaría. Hay tantos días en que de verdad lamento que conocerme fuera tu peor agonía.

Aprendí a amar, aunque no a tiempo, rompí en llanto a quien no lo merecía. Nunca será suficiente un "lo siento" porque yo soy quien sufrir a él lo hacía.

Rompí tus huesos, te dejé las marcas, y en tu bastón me tuve que convertir. Todo el dolor que en tus venas cargas espero ante Dios poderlo redimir.

Aprendí a amar, aunque no a tiempo, rompí en llanto a quien no lo merecía. Nunca será suficiente un "lo siento" porque yo soy quien sufrir a él lo hacía.

Buscando calor, solo causé frío... Lo peor fue conocerme, amor mío.

A word, love:
Tell me, what does your skin taste like?
What does your kiss feel like?
What will we feel in the dawn's light,
When our love is shining so bright?
Your soft lips taste like sweet honey,
And every hair on your face...
Every thought of you makes me feel good,
Without you, I want nothing to take your place.

When we finally rest, we'll be together,
Sleeping in the same bed in any weather.
And when my tongue touches your lips,
There's no more need to say a word, my love.

I will run my tongue all over you,

Every little corner, my mouth will taste.
Until ecstasy comes for you,
And I feel your on my tongue in our haste.
I'll lick your balls with my tongue,
Until they are all wet for me to feel.
I'll put everything in my mouth that fits,
I'll always want them there, this love is real.

Will you like being kissed by me,
Being loved by only me, you see?
I know I'll always be with you,
With every inch of my soul, it's true.
In our house, we'll enjoy every single moment,
All the time we're missing now, a love that's so great.
We'll cherish every second,
Because it was hard, but now we'll be one, it's fate.

When we finally rest, we'll be together,
Sleeping in the same bed in any weather.
And when my tongue touches your lips,
There's no more need to say a word, my love.

I will run my tongue all over you,
Every little corner, my mouth will taste.
Until ecstasy comes for you,
And I feel your on my tongue in our haste.
I'll lick your balls with my tongue,
Until they are all wet for me to feel.
I'll put everything in my mouth that fits,
I'll always want them there, this love is real.

And when you come home from a hard day,
I'll always be waiting with arms wide open.
A kiss will never be a missed play,
And a plate of delicious food, you can count on it.
And when we're alone, just the two of us,
I'll always want to make love to you, it's a must.
You're what I adore the most,
And for you, I'll give everything, you're the one I trust.

El Chico invisible:
Un amanecer triste me despierta, me levanto sin saber bien qué hacer.
La oscuridad en mis venas me atraviesa, y un vacío me empieza a poseer.
Desde niño, no lo sé, nadie me dio amor para ver, que mi corazón roto, bien lo sé, algún día podría ser libre.

Soy el chico invisible al que nadie ve, siempre me ignoran, parece ser.
Nadie me quiso, ¡qué cruel la fe!, mi miedo me hace los sueños perder.

Soy el chico invisible, al cual nunca jamas vio. Mi corazón esta tan solo, una ley fría lo rompió.
Aquella que debio ser amor

Si tan solo alguien me pudiera abrazar, sintiendo que ya no hay soledad.
Si tan solo alguien lograra oír mi sinfín, mi corazón llorando en la oscuridad.
Nadie sabe todo lo que viví, los peores momentos aún por seguir.
Y mi vida tuvo que ser así, entendí, sin nadie a quien me quiera a mi

Soy el chico invisible al que nadie ve, siempre me ignoran, parece ser.
Nadie me quiso, ¡qué cruel la fe!, mi miedo me hace los sueños perder.
Soy el chico invisible, al cual nunca jamas vio. Mi corazón esta tan solo, una ley fría lo rompió.
Aquella que debio ser amor

Un corazón tan débil y tan frágil, tan escondido aquí dentro de mí.
¿Por qué este presente es tan hostil? ¿Por qué sin color, Por qué es tan gris?
Solo quería que alguien me abrace, hallar una razón para amar y vivir.
Que mi vida sea un jardín, por suerte, un lugar donde mi alma pueda sonreír.

Soy el chico invisible al que nadie ve, siempre me ignoran, parece ser.
Nadie me quiso, ¡qué cruel la fe!, mi miedo me hace los sueños perder.
Soy el chico invisible, al cual nunca jamas vio. Mi corazón esta tan solo, una ley fría lo rompió.
Aquella que debio ser amor

Soy el chico Invisible:
Gris amanecer, vuelvo a despertar, sin un rumbo fijo, sin saber qué pasará. La sombra en mis venas comienza a quemar, y este vacío se expande sin más. Desde niño, el mundo nunca me dejó ver, un rastro de afecto para comprender que este corazón, roto y a merced, alguna vez libre podría nacer.

Soy el chico invisible que nadie ve, siempre me ignoran, así se siente. Nadie me quiso, no sé por qué, mi miedo fue un juego, ya lo acepté. Yo soy el chico al que nadie miró, un papel frágil que el viento rompió. Sensible y eterno, bajo una ley fría, mi corazón hoy se quebró.

Si alguien pudiera tan solo abrazarme, sentir que no estoy tan solo en el fin. Si alguien lograra al fin descifrarme, y oír el lamento que guardo para mí. Nadie conoce por todo lo que pasé, lo peor aún aguarda, lo sé muy bien. Mi vida fue así y lo aceptaré, sin nadie a quien amar en mi piel.

Un corazón débil, un alma tan frágil, oculta en lo profundo de todo mi ser. ¿Por qué este presente se siente tan hostil? ¿Por qué no hay colores? ¿No lo puedes ver? Solo un abrazo, una razón, para sentirme vivo en esta prisión. ¿Qué hice de malo? Quiero saber, ¿por qué el cariño no pude tener?

Soy el chico invisible que nadie ve, siempre me ignoran, así se siente. Nadie me quiso, no sé por qué, mi miedo fue un juego, ya lo acepté. Yo soy el chico al que nadie miró, un papel frágil que el viento rompió. Sensible y eterno, bajo ley fría, mi corazón hoy se quebró.

Invisible... Nadie me vio. Invisible... Se quebró.

El peor hijo:
De niño yo cuidaba de ellas, Hice demasiado por eso. Que en la casa fuera perfecta, aunque no agradecieran por ello.

Fue demasiado duro, Crecer demasiado rápido. Con miedo, lo aseguro, No era algo necesario.

Ahora, después de tanto tiempo, soy yo el peor hijo. Después de tratar de ser perfecto, ni las gracias me dijo.

Ahora después de crecer, Y ya no pensar igual, Soy lo peor que pude ser, En boca de ella, ¡qué mal!

Estoy realmente cansado, por los momentos que pasé. Amando y que me hicieran a un lado, por algo que no causé.

Sé que quiero alejarme, Irme de allí de verdad. Pero no quiero olvidarme, De mi polilla al marchar.

Ahora, después de tanto tiempo, soy yo el peor hijo. Después de tratar de ser perfecto, ni las gracias me dijo.

Ahora después de crecer, Y ya no pensar igual, Soy lo peor que pude ser, En boca de ella, ¡qué mal!

Nunca salía, nunca desobedecía, Trataba de ser el mejor. No sé qué más quería, Si yo solo necesitaba amor.

Traté por tanto tiempo ser listo, ser perfecto. Te diría que no duele y miento, Pues es demasiado lo que siento.

Ahora, después de tanto tiempo, soy yo el peor hijo. Después de tratar de ser perfecto, ni las gracias me dijo.

Ahora después de crecer, Y ya no pensar igual, Soy lo peor que pude ser, En boca de ella, ¡qué mal!

Y me duele que ella me trate ahora así. La culpa por lo que ella era, Y por lo que provocó en mí.

Soy el peor hijo:
Siempre traté de ser lo que esperaban cada palabra, un peso que cargar.

Mis sueños poco a poco se agotaban por una meta que no iba a alcanzar.
Pasó el tiempo, lo intenté con fuerzas, quería ser perfecto para ti.
Pero en este camino de mil vueltas en el peor de todos me convertí.

Y ahora que el tiempo ya pasó soy el peor hijo que pudo existir.
Intenté ser perfecto y no bastó ni un "gracias" pude recibir.
Ahora que he logrado crecer y mi mente ya no piensa igual,
soy lo peor que pudiste ver en tu boca, mi nombre sabe a mal.

Estoy cansado de tanto intentar de los momentos que tuve que pasar.
Dando amor para luego ver cómo me vas a dejar por algo que yo nunca llegué a desatar.
Sé que me tengo que marchar, ser libre de una vez y respirar.
Pero hay algo que no puedo olvidar: a mi hermana, a quien no dejaré de amar.

Nunca salí, nunca desobedecí, traté de dar lo mejor que había en mí.
No sé qué más querías tú de mí si solo amor y descanso te pedí.
Fui inteligente, busqué la perfección, te diría que no duele, pero mentiría. Lo que siento
rompe mi corazón es un peso que me quita la alegría.

Y ahora que el tiempo ya pasó soy el peor hijo que pudo existir.
Intenté ser perfecto y no bastó ni un "gracias" pude recibir.
Ahora que he logrado crecer y mi mente ya no piensa igual,
soy lo peor que pudiste ver en tu boca... ¡Qué pena me da!

Rosas marchitas:
Anhelando un día encontrar
lo que me falta,
quizás mi otra mitad,
una esperanza alta.

Alguien a quien pueda amar,
que me ame sin medida,
que me pueda abrazar
en toda esta vida.

Pero aún caminando entre rosas marchitas,
creyendo que nadie jamás me querría.
Aún sigo caminando entre rosas marchitas,
porque según ella no soy lo que debería.

Poder salir de aquí
y tal vez un día,
conocer a alguien más
a quien querría.

Que me vea al dormir y yo poder verlo,
que esté conmigo sin importar el duelo.
El viento sopla sobre mi cabello,

aunque no aleja el dolor que siento.

Pero aún caminando entre rosas marchitas,
creyendo que nadie jamás me querría.
Aún sigo caminando entre rosas marchitas,
porque según ella no soy lo que debería.

Sangre en las espinas,
arrancando el dolor,
tal vez para encontrar la espiga
de algo mejor.

En una noche fría,
sollozando de dolor,
entre las lágrimas,
Un abrazo de amor.

Alguien que me ame,
aunque sea un momento,
podrías decirme
que puede ser cierto.

(Sigo caminando entre rosas marchitas,
tratando de ignorar lo que dentro sentía.
Aún soportando lo que no debería,
mi alma se marchita, la espina herida.)

3:00 AM:
Despierto... otra vez. Sin saber por qué.

¿Cómo me debería sentir? Si al final fui yo quien se mintió. A mí mismo me herí, el daño que en mi piel se grabó. ¿Cómo podría llorar? ¿Cómo sentir culpa al fallar? Si el miedo se fue a descansar, y ya nada me puede asustar.

Despierto a las tres de la mañana, sin entender que me pasa. Siento que mi cuerpo me llama, pero esta vez la culpa no da más . A las tres de la mañana, me dejo llevar por el calor. Siento frío, no siento nada, estoy entumecido por el dolor.

Cada vez al despertar y mirar solo el otro lado, tengo ganas de llorar por sentirme tan solitario. Es el peso de recordar que nadie conmigo está, y el no poder olvidar lo que ahora ya no está.

Despierto a las tres de la mañana, sin entender que me pasa. Siento que mi cuerpo me llama, pero esta vez la culpa no da más. A las tres de la mañana, me dejo llevar por el calor. Siento frío, no siento nada, estoy entumecido por el dolor.

Siempre del mismo lado, en la cama sin cambiar. Amanezco atormentado por lo que no fui a lograr. Cuando acabo estoy húmedo, y sé muy bien por qué; me entregué a lo insípido, aunque sé que culpa sentiré.

Despierto a las tres de la mañana, sin entender el porqué. Siento que mi cuerpo me llama, pero esta vez la culpa no tendré.

Duele querer estar solo sin tener otra opción. Me alejo y lo ignoro y con justa razón. A veces, de otro modo, no puedo sentir placer. Me duele estar con otro, no sabría qué más hacer. Estar con alguien... no sé qué se siente, mi mente no puede extasiarse. Casi nunca siento placer, solo queda... resignarse.

Despierto a las tres de la mañana, sin entender el porqué. Siento que mi cuerpo me llama, pero esta vez la culpa no tendré. A las tres de la mañana, me dejo llevar por el calor. Siento frío, no siento nada, estoy entumecido por el dolor.

Solo, cansado... sin saber qué hacer. El estrés me nubla el ver. Ya no se que mas nada, no quiero creer, saber que me pasa, ya no lo se bien

Juegos de un niño:
Corres y saltas de un lado a otro, riendo y llorando por el futuro a ver. Cae un juego que no es tuyo, con ojos que lloran por un mañana sin mas hacer. Los juegos de niños son solo llorar, esconderse sin poder pretender, los juegos de niños son solo escapar, para que en tu casa no te puedan atrapar.

(Escóndete y juega, no importa si no tienes nada, solo finge y escapa, la vida seguirá asi de mala).
En la oscuridad, sigue ocultándote, ella no te encontrará, si no sabe donde buscarte.

Coro Corre, corre, o te dará motivos para llorar.
Corre, corre, o alguien más te encontrará.
Los juegos de niños son escapar, porque tal vez vendrán por ti a cazar.

Los juegos de niños son solo para esconder,
para que nadie te pueda ver. Si estás solo no llores, porque te dará razones para llorar. Pide ayuda, aunque nadie te escuche, porque nadie sabrá lo que en casa ha de pasar.

(Escóndete y juega, no importa si no tienes nada, solo finge y escapa, la vida seguirá asi de mala).
En la oscuridad, sigue ocultándote, ella no te encontrará, si no sabe donde buscarte.

Coro Corre, corre, o te dará motivos para llorar.
Corre, corre, o alguien más te encontrará.
Los juegos de niños son escapar, porque tal vez vendrán por ti a cazar.

Aquel juego en la oscuridad, donde un niño tiene que escapar. Correr de su propia casa, sin poder existir en paz.

Los juegos de niños son escapar, de tu propia casa sin poder existir. Juegos de niños, en un mundo que no te deja ser feliz.

Corazon de papel:
Un cuerpo frágil en una mente débil,
un niño frágil que no era hábil
Frágil como la rosa, un corazón de papel
que no para de llorar, buscando que hacer

Frágil cual mariposa, aunque esté sola,
vuela temerosa, por sus alas romper

Todos observaban su debilidad,
la forma en que solía mostrar su verdad,
en sus ojos el llanto de su corazón,
un frágil encanto en un oscuro rincón.

como una hoja al caer,
un corazón de papel que llora al anochecer.
Frágil como un cristal roto y en pedazos,
dañado en lo profundo sin abrazos.

Todos dijeron que no lograría nada,
se burlaban de su manera de ser.
Él no entendía lo que le pasaba,
siendo tan frágil, solo quería correr.

Un corazón de papel que se debilita,
volviéndose de pronto un simple papel.

Todos observaban la debilidad,
la forma en que solía mostrar su verdad,
en sus ojos el llanto de su corazón,
un frágil encanto en un oscuro rincón.

Frágil como una hoja al caer,
un corazón de papel
que llora al anochecer.
Frágil como un cristal roto y en pedazos,
dañado en lo profundo sin abrazos.

Aquel corazón de papel que se rompía,
con cada noche que pasaba, no resistía.
Y él, que no entendía la razón,
solo era un ser frágil en su propia prisión.

(Frágil como la debilidad misma, un corazón de papel,

sin más. Se rompe con cada anochecer, con cada suspiro que más podia hacer)

Agridulce soledad:
Otra vez, una vez,
creo en lo que dices,
Otra vez, esta vez,

Lo que sueles decir.
Fantasmas en la mesa,
sentados en el comedor,
en las paredes,
cadáveres oyéndolo todo.

Estoy tan cansado
de esta agridulce soledad,
que solo en el almuerzo
me suele dejar.

Estoy ya cansado
de tener que seguir,
engañando a todos
con mi sonreír.

Otra vez una vez,
vuelves a suplicar,
pero aún así, no puedes
tu vida enfrentar.

Otra vez esta vez,
sé lo que pasa,
la vida tan cruel
que aún es tan mala

Paso solo la mayoría del tiempo,
si algo hice, cuánto lo siento.

Estoy tan cansado
de esta agridulce soledad,
que solo en el almuerzo
me suele dejar.

Estoy ya cansado
de tener que seguir,
engañando a todos
con mi sonreír.

Quisiera saber cuál fue el problema,
que causó estar solo en este dilema.

Quisiera un amigo haber tenido,
con quien comer y que esté conmigo.

Estoy tan cansado
de esta agridulce soledad,
que solo en el almuerzo
me deja llorar.

Estoy ya cansado
de esta agridulce soledad,
si tan solo alguien me pudiera abrazar. oh

I miss the dirt:
Maybe I'll get better
Maybe I'll go back to work
I could be a writer
Maybe it could be a novel
Maybe it'd be shit
Maybe you could read it

It's not your fault
It's just what happens when I stay

Oh
I know it's always been good
Oh
But I miss the dirt
Oh
The pull of it all hurts
Oh
I miss the dirt

Maybe I was wrong
Maybe I got caught up
I should be more grateful
Maybe we could move
Maybe it'd be great
Maybe we could just forget it

It's not your fault
It's just what happens when I stay

Oh
I know it's always been good
Oh
But I miss the dirt
Oh
The pull of it all hurts

Oh
I miss the dirt

Angel del invierno:
Yo sé que mucho te lastimé
Y de color gris tu cielo pinté.
En el espejo me miré y suspiré,
Me arrepiento tanto de lo que hice.

El dolor en tus heridas no curé,
La sangre de tus dedos no limpié.
Con mis propios miedos te llene,
Y en este frío invierno, te encerré.

Un caos en tu ser que fui para ti,
El ángel que lastime, e hice sufrir.

Quemé tus alas en mi fuego cruel,
Y ahora sin ellas, el ángel depende de mí.

Un huracán yo provoqué dentro de ti,
No me puedo redimir, ya no eres feliz

Perdón por ser cruel, por ser así.

Tan inocente fuiste, mi ángel,
Y yo con mi infierno, tan cruel.
El invierno que vive en mi ser
Provocó lo que ahora es él.

Yo no te he de merecer.
Dime, ¿sin mí que vas a hacer?
Tanto prometí cuidarte,
No se como compensarte

Quemé tus alas en mi fuego cruel,
Y ahora sin ellas, el ángel depende de mí.
Un huracán yo provoqué dentro de ti,
No me puedo redimir, ya no eres feliz.
Perdón por ser cruel, por ser así.

Tus cadenas yo formé,
Lo que hoy conmigo eres.
Este infierno provoqué,
No fui contigo lo que mereces

Lo que mas quiero curar
Es el daño que te he hecho,

Con la culpa ahora he de cargar,
Mientras se apaga nuestro pecho.

Quemé tus alas en mi fuego cruel,
Y ahora sin ellas, el ángel depende de mí.
Un huracán yo provoqué dentro de ti,
No me puedo redimir, ya no eres feliz.
Perdón por ser cruel, por ser así.

El ángel depende de mí.
Perdón por ser cruel. por ser así

11,11:
Cold sheets and a glowing phone screen, waiting for a ghost, or something in between.

Every night I’m drifting in this hollow bed, playing back the phrases that you never said. Your name’s a fever, a bruise that won't go pale, knowing that our story is a ship that's set to sail. I love you, I scream it to the empty air, even if I’m talking to a ghost that isn't there.

11:11 and my wish is you, midnight hits and I’m still feeling blue. 11:11, what is left to say? When every clock is just a reminder of the way... ...you left me hanging on a digital line, wasting every second of this borrowed time.

I miss you so much, it’s a weight inside my chest, a hollow kind of hunger that won't let me rest. I stare at your picture 'til my eyes begin to burn, waiting for a lesson that I’ll never have to learn. You promised you’d call me, you said you’d be around, is forgetting me the easiest thing that you’ve found?

11:11 and my wish is you, midnight hits and I’m still feeling blue. 11:11, what is left to say? When every clock is just a reminder of the way...

Is it lack of love or just my own dark fear? Is the reason why you're gone finally getting clear? The full moon is watching as I stand out in the street, should I keep on waiting or admit I’ve faced defeat?

11:11 and my wish is you, midnight hits and I’m still feeling blue. 11:11, what is left to say? When every clock is just a reminder of the way...

Tired of the waiting, tired of the frost, counting up the minutes and the honey that we lost. Resignation’s heavy, it’s a bitter kind of pill, another night of silence, everything is standing still.

11:11 and my wish is you, midnight hits and I’m still feeling blue. 11:11, what is left to say? When every clock is just a reminder of the way...

Almost giving up now... another night... without your call.

Once once:
Cama fría, la luz del celular, esperando un eco que no va a llegar.

Cada noche es el mismo ritual de fe, solo en la cama, preguntándome el porqué. Tu nombre duele, es una espina al recordar que en este espacio ya no ocupas un lugar. Te amo, lo digo al viento y lo diré, aunque el silencio sea el único que me dé fe.

11:11 y te deseo a ti, medianoche llega y no estás aquí. 11:11, ¿qué podría pasar? si cada madrugada es tu nombre recordar. Un deseo huérfano que no sabe a dónde ir, un reloj que marca lo que no puedo decir.

Extraño tanto que mi ser busca tu ser, un vacío inmenso que no logras entender. Miro tu rostro en la pantalla una vez más, suspiro e ignoró el dolor que dejarás. Dijiste que llamarías, que al fin iba a pasar, ¿acaso el tiempo te sobra para olvidarme sin más?

11:11 y te deseo a ti, medianoche llega y no estás aquí. 11:11, ¿qué podría pasar? si cada madrugada es tu nombre recordar.

¿Será que no me amas o es solo mi temor? ¿Será que el frío ya apagó nuestro calor? Hay luna llena y yo aquí afuera estoy, ¿mi corazón espera o es tiempo de que me voy?

11:11 y te deseo a ti, medianoche llega y no estás aquí. 11:11, ¿qué podría pasar? si cada madrugada es tu nombre recordar.

Cansado de esperar en el frío de la acera, la resignación se siente como una primavera... ... que nunca llega, que se congela, otra noche sin tu voz, otra herida que desvela.

11:11 y te deseo a ti, medianoche llega y no estás aquí. 11:11, ¿qué podría pasar? si cada madrugada es tu nombre recordar.

Casi resignado... otra noche... sin llamar.

Let you go:
The day I told you, I wanted to let you go, you just said that you couldn't do it without me. When I tried to let you fly, you told me that you needed me by your side.

And now I'm the one who has to apologize, for not having done everything, for not being better. Even when I didn't want to see you anymore, you said that you needed me and more.

When you cried, I couldn't leave you, because I still loved you, even though I couldn't make it through. When you said you were alone, I told you I'm here, I couldn't do it all, but I did it for you, my dear.

And now I'm the one who has to apologize, for not having done everything, for not being better. Even when I didn't want to see you anymore, you said that you needed me and more.

And when you left, I couldn't accept how many times I forgave you, and why now. I had already waited too long for you, even though you were far away, you didn't come back to me.

I felt so sad, I felt so bad, because I did so much for you, my love, for that hope of loving again, and for you to be by my side.

Forbidden bite:
I saw him… (Flash!) and I lost my mind,
An electric spark, one of a kind.
He gave me a smile, I felt the rush,
Crushing the silence, breaking the hush.
He’s got the age of the ghost I once knew,
But that forbidden fruit tastes better with you.
Something about him is calling my soul,
Into a fire I can’t quite control.

I like it! I want it! I’m taking a bite!
I don’t see the sin, I just see the light.
Is it so wrong if I’m craving the burn?
Or is it the lesson I’m dying to learn?
I like it! I’ll take it! No time for the wait,
I’m daring the devil, I’m tempting the fate.
So come a bit closer, break through the glass,
Finding my future in your heavy past.

He watched me playing... (baby, baby)
I wanted his arms... (tighter, tighter)
Never had a father... (empty, empty)
Now I want his hunger... (burning, burning)
Mama says: "Stop!"
My skin says: "Go!"
The sweetest mistake,
The ultimate show.

So why you treat me like a baby? (hey!)

Delete my age
Pretend I’m danger
Say my name
Like I’m a stranger
If he saw us now
Yeah
He’d understand
You’re not my father
But you could be my man
Delete my age
Rewrite the numbers
Cross that line
Fall into thunder
If he saw my eyes
He’d let go of your hand
You’re not my father
But you could be my man

Man better be hung:
I wake up
Call up my next one
Like changing underwear
It's a good job

Tell him I'm starved
Let me eat you alive
What's in the fridge?
You're so quick to digest
Once I tasted you
I'm movin' on to the next

Hey
You
Better be hung

They only fill a need
Satisfy my libido
I change men like I change clothes
When they come in
They're already gone
I'm already gone
They only fill a need
Satisfy my libido
I change men like I change clothes
When they come in
They're already gone
I'm already gone

So impatient
Like I'm gonna die
I've gotta come alive
I've got a need to feed
You better satisfy
The more I get
The more I crave
I'm insatiable
I'm insatiable

Hey
You
Better be hung

They only fill a need
Satisfy my libido
I change men like I change clothes
When they come in
They're already gone
I'm already gone
They only fill a need
Satisfy my libido
I change men like I change clothes
When they come in

They're already gone
I'm already gone

Cream/Pie:
So heavy, so addictive, just like a drug,
I’ve gone insane from drinking this wine.
It chokes me up, a toxic little hug,
but to be honest, I want it inside all the time.

My heart is racing, the pulse won't go down,
caught in the heat where the sober minds drown.
I want it inside, but they say it’s a sin,
shamed by the rules and the laws of the town.
Morals and judgments keep locking me in.

Sweet condensed milk, so fresh and so new,
Daddy, make a cream-pie out of your sweet glue.
If it’s not inside, then nothing will do,
I want to feel it burn, turning me blue.
Bake me a pie, a sweet cream-pie dream,
deep down inside, don't waste the white stream.
I want to feel your rush flow through my veins,
starving for pleasure, washing my pains.

Out of the sin, a desire is born,
a carnal obsession, beautifully torn.
It takes over my body, a desperate need,
my insides are burning, begging you to feed.
Overflowing and wild, don't stop the release,
fill up my darkness and give me your peace.

Sweet condensed milk, so fresh and so new,
Daddy, make a cream-pie out of your sweet glue.
If it’s not inside, then nothing will do,
I want to feel it burn, turning me blue.
Bake me a pie, a sweet cream-pie dream,
deep down inside, don't waste the white stream.
I want to feel your rush flow through my veins,
starving for pleasure, washing my pains.

If it’s forbidden, why does it feel so right?
To be filled up with honey and milk in the night.
Thick and so white, a taste so divine,
but it’s much sweeter when nature aligns.

Sweet condensed milk, so fresh and so new,
Daddy, make a cream-pie out of your sweet glue.

If it’s not inside, then nothing will do,
I want to feel it burn, turning me blue.
Bake me a pie, a sweet cream-pie dream,
deep down inside, don't waste the white stream.
I want to feel your rush flow through my veins,
starving for pleasure, washing my pains.

It is... I know it’s forbidden,
I know I should walk away...
But the pleasure cannot be hidden,
and I am here to stay.
So I look for one, and another tonight,
to chase the shadows and lose the light.
Fill me up once again, make me lose control,
deep down inside, drowning my soul.

Sweet condensed milk, so fresh and so new,
Daddy, make a cream-pie out of your sweet glue.
If it’s not inside, then nothing will do,
I want to feel it burn, turning me blue.
Bake me a pie, a sweet cream-pie dream,
deep down inside, don't waste the white stream.
I want to feel your rush flow through my veins,
starving for pleasure, washing my pains.

Sweet condensed milk on my lips, on my skin,
tasting like the ocean, a cruel, salty sin.
The finest of wines could never compare
to the warmth of your seed when you leave it in there...
Hot, heavy milk from the hands of a stranger,
I want it inside me, embracing the danger.
Darling, if you read this, don’t look with terror...
But never, please never... repeat my sweet error.

Invisible Boy:
A melancholic dawn awakens
I wake up without knowing what to do.
Darkness in my veins breaks,
and an emptiness takes over too.

Since childhood, no, I don't know,
no one gave me love to see,
that my broken heart, you know,
one day might be free.

I'm the invisible boy no one sees,
they always ignore me, it seems.
No one wanted me, oh, what a tease,

My fear makes me lose all my dreams.

I am the invisible boy,
the one nobody ever saw.
My heart was like a toy,
it broke under a cold law.

If only someone could hold me tight,
feeling I'm no longer alone.
If only someone could understand my plight,
and hear my heart's silent groan.

Nobody knows what I've been through,
the worst moments are yet to pass.
And my life had to be this way, it’s true,
with no one to love, at last
.
I'm the invisible boy no one sees,
they always ignore me, it seems.
No one wanted me, oh, what a tease,
My fear makes me lose all my dreams.

I am the invisible boy,
the one nobody ever saw.
My heart was like a toy,
it broke under a cold law.

A heart so weak and so fragile,
so hidden deep inside of me.
Why is this present so hostile?
Why is it colorless, can't you see?

I just want someone to hug me,
to find a reason to love and live.
For my life to be a garden, finally,
a place where my soul can forgive.

I'm the invisible boy no one sees,
they always ignore me, it seems.
No one wanted me, oh, what a tease,
My fear makes me lose all my dreams.

I am the invisible boy,
the one nobody ever saw.
My heart was like a toy,
it broke under a cold law

Paper Heart:

A fragile body, a fragile mind,
a weak boy to be bothered.
Like a fragile rose, a paper heart cries out for love.

Fragile like the flight of a butterfly, though he's all alone,
he flies windingly, with no place to call his own.

Everyone stared at his weakness,
the way he used to show his heart.
In his eyes, the cries of a soul,
a fragile charm to this world so dark.

Fragile like a leaf, a paper heart that cries at night.
Fragile like a broken chandelier crystal, damaged in the light.

They all said he would never make it,
mocked his fragility, never helped him through the fight.

He didn't understand his way of being,
how fragile he used to be.

His paper heart got weaker,
and suddenly became just paper, you see.

A fragile weakness in his soul,
a paper heart that breaks with every fall.

Everyone stared at his weakness,
the way he used to show his heart.

In his eyes, the cries of a soul,
a fragile charm to this world so dark.

Fragile like a leaf, a paper heart that cries at night.
Fragile like a broken chandelier crystal, damaged in the light.

They all said he would never make it,
mocked his fragility, never helped him through the fight.
That paper heart weakened,
and suddenly became paper, a fragile state.

A paper heart that broke with every nightfall,
a silent scream, and a broken fate.

A fragile body in a fragile mind,
a weak boy to be bothered.

A paper heart that broke,

with every tear he smothered.

Children's Game:
Running and jumping from side to side,
laughing and crying for a future to find.

You fall and play those games of someone else,
with eyes that cry for a tomorrow to face.

A child's games are just crying and hiding,
without being able to pretend.

A child's games are just running away,
so they can't chase you in your own house.

Hide and play even if you have nothing,
you have to pretend, hide and run away.

In the darkness keep on hiding,
she won't find you if she can't see you.

Run, run, or she'll give you reasons to cry.
Run, run, or someone else will find you.

Children's games are running away,
because they might come for you.

Children's games are hiding,
so that no one can see you.

If you're alone, don't cry,
because she'll give you reasons to.

Ask for help, even if no one listens,
because nobody knows your storm.

Hide and play even if you have nothing,
you have to pretend, hide and run away.
In the darkness keep on hiding,
she won't find you if she can't see you.

Run, run, or she'll give you reasons to cry.
Run, run, or someone else will find you.

Children's games are running away,
because they might come for you.

That game in the darkness,

where a child has to escape.

Running from his own house,
without being able to exist in peace.

Children's games are running away,
from your own house, unable to exist.

Children's games in a world
that won't let you breathe.

Hide & Seek:
Running and jumping from corner to corner,
Laughing and crying for the future yet to mourn.

You fall down and stand up, playing someone else's games
Tears in your eyes now for tomorrow's wicked flames.

A child's game is only to know you will cry,
Hiding away, with no need left to lie.

A child's game means you have to escape and flee,
So no one in your own home can chase after thee.

Hide and play, there's nothing left to pretend,
Hide and run, the misery will never end.

Run, run! Or she will give you reasons to weep,
Run, run! Someone else will break your sleep.

Games of escape, 'cause they might come for you now,
A child's game is hiding so they forget somehow.

Inside the darkness, keep yourself well hid,
She won't be able to find you, if you close the lid.

If you find yourself lonely, please do not cry,
'Cause she will give you reasons, and you might want to die.
Ask for help, though no one in the world will hear,
All you have is the echo of your inner fear.

Hide and play, there's nothing left to pretend,
Hide and run, the misery will never end.

Run, run! Or she will give you reasons to weep,
Run, run! Someone else will break your sleep.

Games of escape, 'cause they might come for you now,

A child's game is hiding so they forget somehow.

A child's game is only to run away...
From your own house, and not be able to stay.

I just want to stop running now...
I wish it would end…

Run... run...
No one will hear…

Unseen Brilliance:
Among books, his life spun 'round,
In paper worlds, true solace found.
Among books, his life spun 'round,
In reading, pure joy was found.

When teachers at school would say,
"You'll be so smart one day!"

He always studied, without doubt,
To stand in life, to stand out.

Something better, he would crave,
But no one ever noticed the wave.

A clever child, a soul unique,
He studied hard, aiming high to peak.

But all his effort, a silent plea,
No single eye was there to see.

What's the use of being so bright,
If no one ever sees the light?

A silent scream, a soul adrift,
Tired of just learning, without a gift.

What's the worth of being the first,
If loneliness is the thirst?

A heart of steel, almost complete,
Just longing for a "Hey, you're sweet!"

No parties, no, he'd never go,
Preferred in books his dreams to sow.

It was better among the lines,

To lose his mind and cross the confines.

He had no friends, not many near,
Preferred at times to just stay here.

For he felt truly alive inside,
When lost in pages, he could hide.

A clever child, a soul unique,
He studied hard, aiming high to peak.

But all his effort, a silent plea,
No single eye was there to see.

What's the use of being so bright,
If no one ever sees the light?

A silent scream, a soul adrift,
Tired of just learning, without a gift.

What's the worth of being the first,
If loneliness is the thirst?

A heart of steel, almost complete,
Just longing for a "Hey, you're sweet!"

He felt so lonely in the end,
When he just had to stay, pretend.

His mother couldn't truly see,
The special soul inside of him, you see.

After a while, he grew so tired,
Of being the perfect, so admired.

The child who always played his part,
His soul no longer wants to start.

He doesn't want to be so bright,
If no one ever sees the light.

A louder cry, a soul ahead,
He's tired of what they said.

He doesn't want to be the first,
If loneliness is still the thirst.

A heart no longer made of steel,

No longer seeks a "Hey, it's real!"

He didn't want to know,
Of books or notes, the flow.

He only wanted to understand,
Why life held such a heavy hand.

He's left alone now, yes, indeed,
He doesn't want to see the creed:

That even smart, they pass him by.
He's tired of trying to reach the sky.

Bittersweet Loneliness:
Again, I listened to you
Just one more time, I believed
What you had promised to me
But the echo is all I see.

Ghosts around the table, dining in my room
Corpses on the walls now, listening to my doom

They watch me, they know me, they hear it all unsaid
And I'm tired of deceiving all of them instead

With a painted-on smile, pretending I am fine.
I'm so exhausted by this bitter-sweet loneliness

It only shows up for lunch, I hate this emptiness
I wish I had a friend, someone real in my space

To share a quiet meal, just a warm embrace.
Again, you're pleading softly, in the mirror, can't you see?

You can't face your own life, stuck with what you used to be
I know what's going on, this cruel life never moves

It won't heal, won't advance, it only keeps me blue.
If I did something wrong, how do I regret it?

Just searching for the reason I got lost inside this mess.
I'm so exhausted by this bitter-sweet loneliness

It only shows up for lunch, I hate this emptiness
I wish I had a friend, someone real in my space
To share a quiet meal, just a warm embrace.

I spend most of my time in this lonely, fading light
Staring at the screen, hoping to be bright.

But the reflection shows me a tear from a Monday's weep
And in the empty dining hall, my heart just falls asleep.

I'm so exhausted by this bitter-sweet loneliness
It only shows up in my tears, I hate this emptiness

I wish I had a friend, someone real in my space
To share a quiet meal, just a warm embrace…

Loneliness...
Bitter-sweet...
I just need you to hold me...

Disappear:
Caught between the tears inside my eyes,
And all the scars upon my skin,

Trapped inside the pain of others
That keeps on invading everything within.

I'm walking far away from that awful place,
Where they caused me damage for so much time and space.

I eat so quickly, praying she won't see,
Because she highlights the worst parts inside of me.

I'm the worst thing that could ever be.
How is it possible that the one who gave you life

Is so cold and heartless, and fills you with such strife?
I wish that for a single moment,

I could just disappear from the ground,
Escape from this torment,
From the place where I was found.
And I wish that once, she wouldn't find me and I could fade away,
That she wouldn't punish me for the childish things I did that day.

If she didn't want me, why did she give me the light?
She provoked the darkness, forming my cross with spite.

I want the moment to come when I can just evaporate,
And no longer feel what I'm feeling, before it's too late.

With pain in my hands and a void in my core,

I want to run, but it's useless, she filled my mind with fear, and more

With tears in my eyes I have to leave that place behind,
So that what is good in me, they won't damage entirely.

I wish that for a single moment,
I could just disappear from the ground,

Escape from this torment,
From the place where I was found.

And I wish that once, she wouldn't find me and I could fade away,
That she wouldn't punish me for the childish things I did that day.

If she didn't want me, why did she give me the light?
She provoked the darkness, forming my cross with spite.

With pain in my hands, and a void in my core...
I want to run... but it's no use anymore…

I just want her not to find me.
I don't want her to punish me…

Ever again.
My cross...
Disappear...
What's good in me...
Has to remain.

Ghost Love:
I still feel it here, this cruel emptiness
A desperation I thought had left, I confess.

I walk through the shadows, just trying to see
Maybe, just maybe, it could happen for me.

Believing in fairytales with a beautiful end
Though none of that will ever, ever transcend.
Crying from the loneliness, all of my core
What choice do I have in this life anymore?

If all I'm left with is just my solitude.

And this Ghost Love I can feel on my skin,
It floods me with despair, 'cause I can't win

By finding true love.

All alone again, I'm trying to decide
What to do with my life, or if I should hide.

Just laugh, just have lunch, pretending it's fine
Hoping that someone will talk to me today, be mine.

Ghost Love without any mercy,
It only fills my soul with pure emergency.

I'm just left to laugh, I'm just left to eat,
Trying to pretend that I can stand on my feet.

I only find shelter in my loneliness' dress,
Trying to pretend that nothing is amiss.

I want to be happy, but I'll return to grey,
Because this emptiness won't let me stay.

And this Ghost Love I can feel on my skin,
It floods me with despair, 'cause I can't win

By finding true love.

All alone again, I'm trying to decide
What to do with my life, or if I should hide.

Just laugh, just have lunch, pretending it's fine
Hoping that someone will talk to me today, be mine.

Ghost Love without any mercy,
It only fills my soul with pure emergency.

If I could only believe your words,
That someday someone would want me, observe.

If it could really happen, if it could be true
That someday someone would love me too.

Ghost Love...
Just desperation...
I want to believe...
Someone could love me too…

Long Nights:
Thinking this afternoon, what can I do?
My mind is empty, no idea gets through.

My eyes are swollen, my tongue is dry now

My soul feels empty, the darkness will somehow

Lie down in my bed, unable to sleep in
Knowing a dark future is waiting to begin.

Trapped in a world of grey, I can't find my way
Don't know how it feels, or what to say.

And my long, endless nights, all drowned in agony
Maybe you thought that only bad things were for me.

My mind is the cruel storm, relentlessly it beats
It faces all my weakness, the pain it now repeats.

I'm trying to escape, to build a world in my dreams
Where they are not present, where the light only gleams.

And I keep holding onto better days ahead
Though deep inside I know tomorrow's worse instead.

My nights are passing slow, all alone, just me
Hoping to find someone who would truly love me.

My long nights are sleepless, just waiting for the day
When I can beat this sentence, and push the curse away.

Still wondering what's wrong, and how to get out of sight
If all I want is to cry and escape from the light.

And my long, endless nights, all drowned in agony
Hoping that someone, at last, would truly love me.

My mind is the cruel storm, relentlessly it beats
It faces all my weakness, the pain it now repeats.

I'm trying to escape, to build a world in my dreams
Where they are not present, where the light only gleams.

And I keep holding onto better days ahead
Though deep inside I know tomorrow's worse instead.

My long nights without sleep...
I just want...
To leave…

Withered Roses:
Longing to find what I'm lacking one day,
maybe my other half, a high hope I must say.

Someone I could love, who loves me in return,
who could hold me tight and with whom I could learn.

But I'm still walking among withered roses,
believing that nobody will ever want me.
I'm still walking among withered roses,
'cause according to her, I'm not what I should be.

To get out of here, maybe one day,
to meet someone else I could love in a new way.

For her to see me when I'm sleeping at night,
and for me to see her with all of my might.

The wind blows over my hair and my face,
but it doesn't take the pain from this place.

But I'm still walking among withered roses,
believing that nobody will ever want me.
I'm still walking among withered roses,
'cause according to her, I'm not what I should be.

Blood on the thorns, tearing this pain from me,
hoping to find the seed of something better.

On a cold night, sobbing in sorrow,
in between tears, a hug without a lover.

Someone to love me, if only for a moment,
could you tell me that this can be true, I can't wait.

I'm still walking among withered roses,
trying to ignore what I feel inside.
Still putting up with what I should not,
my soul withers as the thorns collide.

Take me home:
Pearly nights and all those fake smiles,
Sung-out lies, and dark poetry files.

What to do when... this house is not a home?
To be able to say he was truly free to roam.

What to do when... the sky is always grey?
Maybe, just maybe, I will be happy someday.

Crying every night, regretting every day,

Because in the end, I'll still have to stay.

The broken apple in the basket now has gone rotten,
And in the end, she made sure she was not forgotten
(by the blame).

Take me to a home,
Where I could finally feel true bliss.
Get me out of this zone,
A place I can no longer resist.

Take me to a home,
Where I can finally play and roam,
Maybe, just maybe, someone will love me.
A hug, a kiss, something real to feel,

That someone loved me, that my heart could heal.
A kiss, a hug, something to dream about,
That finally loved, I could be happy without doubt.
Take me home, so I don't have to be sad anymore,
Where someone will truly want me and adore.

The broken apple in the basket now has gone rotten,
And in the end, she made sure she was not forgotten.

Take me to a home,
Where I could finally feel true bliss.
Get me out of this zone,
A place I can no longer resist.

Take me to a home,
Where I can finally play and roam,
Maybe, just maybe, someone will love me.
Take me to a home where it could come to pass,

That someone holds me tightly, a hug that will last.
Take me home, could you please hear my plea?
Because in this place, only pain lives in me.
Take me to a home
(Take me home, please),
Where I could finally feel true bliss
(Get me out of this disease)

Get me out of this zone,
A place I can no longer resist.

Take me to a home,
Where I can finally play and roam,

Maybe, just maybe, someone will love me.
Take me home...
Only pain...
Someone could love me.

The Worst Son:
As a child, I watched over them,
I did too much for it all.
Tried to make the house perfect,
Even if they never thanked at all.

It was just too hard,
Growing up way too fast.
With fear, I assure you,
It wasn't meant to last.

Now after so much time,
I am the worst son.
After trying to be perfect,
They said not a single thank you, none.

Now after growing up,
And no longer thinking the same,
I'm the worst I could have been,
In her mouth, what a shame!

I am truly tired,
Of all the moments I went through.
Loving, and being pushed aside,
For something I didn't do.

I know I want to leave,
To truly go from there and be free.
But I don't want to forget,
My moth, who I loved, you see.

Now after so much time,
I am the worst son.
After trying to be perfect,
They said not a single thank you, none.

Now after growing up,
And no longer thinking the same,
I'm the worst I could have been,
In her mouth, what a shame!

I never went out, never disobeyed,
I tried to be the very best.

Don't know what more she craved,
When all I needed was some love and rest.

I tried for such a long time
To be smart, to be perfect.
I'd tell you it doesn't hurt, but I'd lie,
For what I feel is too much to neglect.

Now after so much time,
I am the worst son.
After trying to be perfect,
They said not a single thank you, none.

Now after growing up,
And no longer thinking the same,
I'm the worst I could have been,
In her mouth, what a shame!

And it hurts that she
Treats me like this now, you see.
The blame for who she was,
And for what she caused in me.

But I just want to truly leave,
I don't want to return.
I don't want to remember more,
How for her fault, I was torn.

My own skin:
Lying in the lonely room,
Softly wilting my fingers.
Don't want to touch my own skin,
Don't think it's right, within.

I'm alone here in the dark,
Feeling just a little warm.
If the light was on, I'd turn it off, to play along.
I touch every part of me,
Imagine someone else, you see,
Right here, next to me,
And they could touch me too, so free.

I feel and imagine the skin,
Of that other soul, a tender grace.
The brush of their being within,
With soft notes, like roses in this place.

Softly, my own skin,

Is pink from trembling fingertips.
I feel my whole being,
Attracting strange, new feelings.

Perfume of love, a honey scent,
On the blankets of the silent room.
I caress every part of me, heaven-sent,
Perhaps I just need self-love, to bloom.

I go down slowly on my chest,
Gently caress my skin.
I know what I'm doing, it's the test,
Making love to my own self within.

I caress that secret place,
Where no one else can touch.
I'll play with it, finding solace,
My breathing reveals it so much.

I feel and imagine the skin,
Of that other soul, a tender grace.
The brush of their being within,
With soft notes, like roses in this place.

Softly, my own skin,
Is pink from trembling fingertips.
I feel my whole being,
Attracting strange, new feelings.

I play gently with it,
Slowly, it starts to rise.
A little pleasure, I admit,
Pleasure reflected in my eyes.

A little moist, my skin is wet,
I'm about to release it now.
From this proof of pleasure, no regret,
That I'm feeling as I allow.

I touch all my skin,
The pleasure is so true.
As I feel my whole being,
In an ecstasy, coming through.

I feel moist now,
Slowly it will rest.
Left my skin wet, somehow,
When it finished its test.

Self love:
Lying in the lonely room,
Softly wilting my fingers.
Don't want to touch my own skin,
Don't think it's right, within.

I'm alone here in the dark,
Feeling just a little warm.
If the light was on,
I'd turn it off, to play along.

As I feel my whole being,
In an ecstasy, coming through.

I feel moist now,

Left my skin wet, somehow,
When it finished its test.

Curious for love:
Always alone, always losing my sleep
In a house where I don't want to be
I want to get out, so I can keep
Running away from what's hurting me.

In this house, I never felt a trace of love
She never, ever gave me a hug
Was it through screaming she showed her pain from above?
'Cause that was the only thing she dug.

She made me feel like I was the worst
As if I never mattered at all
That's why I'm so curious for love, a thirst
Would I let it come from anyone who calls?

And all I felt with her was only the ache
She made me feel worse with every loud shout
Now I am so curious for love's sweet sake
Because I feel like she never cared about it.

I don't know if it's warmth or love that I chase
Something to make me feel alive inside
When all I felt was fear in this place
I could go out with anyone and confide.

I want someone to show me that they care
For one moment, a little bit of feeling
To make me feel that I am truly there

And from my soul, stop all this dark healing.

I want something good, I want it to be
Something that makes me think I'm not useless
Something that won't make me cry, you see
And that's why I'm left so defenseless.

And all I felt with her was only the ache
She made me feel worse with every loud shout
Now I am so curious for love's sweet sake
Because I feel like she never cared about it.

I don't know if it's warmth or love that I chase
Something to make me feel alive inside
When all I felt was fear in this place
I could go out with anyone and confide.

Hitting and screaming, every single day
Is all I've ever known to be true
Nothing more than a dark and endless gray
That's why I always wanted to leave, too.

'Cause with her, I always weep and cry
I always want to break down in tears
I ignore the pain she causes when I lie
But sometimes I don't want to wake up in fears.

And I want to feel it for just one spell
That's why I am so fragile and dumb
I let it happen 'cause I just want love to swell.

Marigold Scent:
I truly believed it was a normal day
Just another one, like all the rest
I really didn't know what was on its way
But everything was put to the test.

He'd been looking at me for some time
I didn't think there was a reason why
When I got on, he sat right next to mine
I couldn't guess what was behind his eye.

He grabbed my hand, softly caressed it slow
And I simply let him do his deed
What was he thinking? I didn't know
Couldn't imagine what he would need.

And I felt so disgusted, I felt such fear

For feeling all of a sudden so ill.
Crying through the memories of the way I said "yes" here
Why I simply allowed it, I can't distill.

Without love, without me loving his touch
He took away something that mattered so much.

I felt so dirty for letting him proceed
Because I was the one who let him plant the seed.

He got off, when I got off, the same way
He walked exactly where I walked to go
He looked at me, I looked back, he made me stay
To a dark place where he would make me sow.

He tried to kiss me, but I didn't give in
I wouldn't let him start to infect
With that strange scent of alcohol and sin.
I tried my best not to scream and reflect
While my mind started to destroy.

For moments I felt far too much pain
It was worse to believe, that out of them all,
Someone like him was the one to leave a stain
And the one who made me stumble and fall.

He finished. I ran back home so fast.
Took off my clothes without a single thought
Turnon the cold water to try
To wash away the memory I was caught.

I still remember that peculiar scent
The one that stained my skin with Marigold.
That peculiar scent...
Marigold…

Sickness:
I've done so many things
Just to try and calm down
All of the pain that brings
The will to try to drown.

I know I'm far from being perfect
But I know that I'm much worse
I have my flaws, and I regret it
For all the bad things that occurred.

I'm so scared of this feeling now

I don't know what more can be done
With how dirty I feel somehow
And all the thinking I've run.

I am so sick right now
Of myself and what I've been
I'm dying, and watch it slow down
Every part of my skin.

I feel so sick right now
I know it was my fault, the defeat
My body accepts it now
'Cause it knows there's no way to retreat.

Softly, every breath I take
Wants to escape from me
Just for one moment, for old times' sake
To think of the good I got to see.

And I truly feel so bad
For everything that came to pass
I know I was the one who went mad
And killed my body way too fast.

I am so sick right now
Of myself and what I've been
I'm dying, and watch it slow down
Every part of my skin.

I feel so sick right now
I know it was my fault, the defeat
My body accepts it now
'Cause it knows there's no way to retreat.

My soul, completely alone,
Knows that its time will soon come around
Every part of me makes a moan
Knows that all, all has broken down.

And yes, it was my fault, it's true
I know it was all because of me
That I only accept to assume
That I will no longer be.

All for wanting to calm
The pain that I felt inside
I only went to cause more harm
And slowly kill my life.

Soon I will not exist here
And all I can do is ask for release
For the things I did in fear
And because I am now sick...

After the shame:
After, after all that happened to me
After feeling such deep shame
Now something inside me has changed, you see
Something that I used to think was bad for my name.

I feel completely different now
Afraid, but willing to do it somehow
I want to flee from home, right now
To get something more, I make a vow.

I don't know if it's good or if it's wrong
But it's the only thing I long to do
To gain something new, where I belong
Something I couldn't feel here, it's true.

And it hurts to recall what I went through
But it hurts more if I stay here, confined
Where every rejected hug makes me blue
And now, even if it's just warmth, I want to find.

I want to leave this house, there's no going back
Where I felt so much pain in the dark
I want to know something more, a new track
Even if it leaves a painful mark.

I want to leave this place, no doubt
To a new spot, where I can shout
I want something more, I want to taste
Although I don't know what is waiting in the waste.

But here inside, I only feel
And I keep feeling constant deep ache
I'm tired, and I'm being real
All I want is some affection to take.

And it hurts to recall what I went through
But it hurts more if I stay here, confined
Where every rejected hug makes me blue
And now, even if it's just warmth, I want to find.

I want to leave this house, there's no going back

Where I felt so much pain in the dark
I want to know something more, a new track
Even if it leaves a painful mark.

I want to feel better, I promise you this
I want something that makes me feel fine
Something that saves me from this dark abyss
I want to believe a better future is mine.

After, after all that happened to me...
Something that I used to think was bad...

Moving on:
So bored of staying here,
Trying to find in others what I lack.
So much that I lost with you, I fear,
That now my whole soul is under attack.

Waking up on the wrong side of the bed,
Sless, I haven't rested at all.
With this insomnia inside my head,
I feel like I'm about to fall.

I'm leaving, I'm going away from this
'Cause I'm so tired of waking up
In the very same way, every day, I resist
I feel like nothing ever comes up.

I'm leaving, I will go if I want to,
'Cause I'm tired of all that I see,
The truth is, my feelings are through,
Nothing ever moves on here for me.

Towards a new place, I must go,
With all these brand-new faces.
I know deep down I have fear, though,
But the drowning feeling now embraces.

The same three words, I'm sick of them,
I feel like I'll never move on from here.
My soul is trapped, like a stem,
Between these four walls of fear.

It's a kind of boring, awful game,
Moving the pieces of my useless life.
If I've already known more, it's a shame,
Even though I know that would cause strife.

I'm leaving, I'm going away from this
'Cause I'm so tired of waking up
In the very same way, every day, I resist
I feel like nothing ever comes up.

I'm leaving, I will go if I want to,
'Cause I'm tired of all that I see,
The truth is, my feelings are through,
Nothing ever moves on here for me.

And yes, I know I'm feeling fear,
But so many bad things came to pass.
If I freeze here and don't clear,
I know I won't go beyond this glass.

It's dangerous, I know, I can tell,
Deep down, I seem to resist the need,
But I must ring my life's own bell,
Despite the feelings that impede.

It's dangerous, I know, it's true,
Deep down, it seems I don't want to either.
But I must move my life, I have to,
Despite the feelings I can't weather.

Fleeting Warmth:
I know this isn't right,
And I know what I'm doing.
I really don't want to,
But this feeling's overflowing.

It hurts so much to feel,
It hurts to have them in.
I know they don't care what I feel,
Only how I feel within.

Make me feel warm for a moment,
I know it hurts, but it's so cruel, truly.
Just make me feel warm,
I'll try to silence what my mind says to me.

Just make me feel warm now,
I know the pain is bitter, really.
But just make me feel a little warm,
Though I know you'll just leave, simply.

I'm the only one here,
Who later wants to cry

For not wanting it this way,
And knowing this is wrong.

It hurts more to be alone,
Than when they finally do.
Maybe this feels so hollow,
But I've got no one else, it's true.

Make me feel warm for a moment,
I know it hurts, but it's so cruel, truly.
Just make me feel warm,
I'll try to silence what my mind says to me.

Just make me feel warm now,
I know the pain is bitter, really.
But just make me feel a little warm,
Though I know you'll just leave, simply.

And I don't need it to feel good,
But it's not like that, really.
When they come in and just leave,
They leave me wet, bitterly.

The warmth I feel is so tasteless, I know,
But I truly have no one else now.
And I can't do it on my own,
That's why I tend to seek someone out.

Make me feel warm for a moment,
I know it hurts, but it's so cruel, truly.
Just make me feel warm,
I'll try to silence what my mind says to me.

Just make me feel warm now,
I know the pain is bitter, really.
But just make me feel a little warm,
Though I know you'll just leave, simply.

And I look for a way to stay warm,
So the pain will exit my mind.
And I know it hurts that when they're warm,
I'm just a means for them to unwind.

So just make me feel a little warm,
Don't care what I say when you're gone.
You'll stay while I'm warm,
And I won't say anything when you have to move on.

Fire:
The lights are out now,
I wish my mind would go the same way somehow.
Every feeling is just a show,
Don't wanna be like before, you know.

The fire won't easily ignite,
I get lost inside my thoughts at night.
And while it's tempting to try and fight,
I know the pain will be just as bright.

They burn, the people in fire they burn,
The flames consume every soul, you see.
They fall, just waiting for my guard to turn,
And let this sadness take control of me.

With this body I feel so ashamed,
I travel nightly to a different scene.
I strip away the fears that are named,
To let myself go and feel serene.

They burn, the people in fire they burn,
The flames consume every soul, you see.
They fall, just waiting for my guard to turn,
And let this sadness take control of me.

A lonely soul under the bright lights, I'll fade,
My only reason is to let it all in now.
The guilt is heavy, a high price I've paid,
'Cause I'm shattered inside, I don't know how.
So much guilt for the way I am,
I know I'm already so broken, you see.
Just let me burn, I don't give a damn,
About where I'll end up, just let me be.

They burn, the people in fire they burn,
The flames consume every soul, you see.
They fall, just waiting for my guard to turn,
And let this sadness take control of me.

So touch me, let me feel free,
Extinguishing in these flames.
I want tonight to just be
Like when they called out my name.
So light me up, let me face,
The fire's warmth, my mind goes blank.
I want to fill this hollow space,
And quiet the voices I can't thank.

They burn, the people in fire they burn,
The flames consume every soul, you see.
They fall, just waiting for my guard to turn,
And let this sadness take control of me.

The fire's heat, it dries up these tears,
Maybe I knew this wasn't the right way.
But when the last chance disappears,
I'll know what I really have to say.

They burn, the people in fire they burn,
The flames consume every soul, you see.
They fall, just waiting for my guard to turn,
And let this sadness take control of me.

Soul's fire:
In the dark where shadows mingle on
I see reflections in a broken song

These echoes whisper tales of dread
While the flicker of hope seems more but fled

I sit and ponder the paths I've walked
These silent whispers, the ghosts that talked

Every ember glows with a tale untold
Yet I fight to break free from the grip of cold

Let the flames rise, let them dance with fear

Oh, light me slowly
Ignite my soul's fire
I crave a warmth
To lift me higher

In every spark there's a world to gain
But the smoky memories still linger like pain

In stillness, I drown in the weight of despair
Where dreams turn to smoke as I gasp for air
Yet amidst the darkness, my spirit fights back

In the silence, I hear the courage I lack
I'm bound to the ashes where hope flickers dim

Oh, light me slowly
Ignite my soul's fire

I crave a warmth
To lift me higher

In every spark there's a world to gain
But the smoky memories still linger like pain

Oh, light me slowly
Ignite my soul's fire
I crave a warmth
To lift me higher

In every spark there's a world to gain
But the smoky memories still linger like pain

Drenched:
New bodies next to mine this time,
If I don't pull back, maybe I'll enjoy the crime.

The taste of their skin,
When it starts to sink in.

All of my being they want to win,
Or just because of the space I'm in.

I’m drenched,
So wet now deep inside.
I don't know what happened,
My mind is nowhere to hide.

I feel so truly drenched,
With what they left behind in me.
I don't know what happened to myself, you see,
I just wanted to feel wanted, honestly.

A different skin to feel every day,
Is this what I should be looking for?
Or just a bitter, cold lie that stays,
A cycle I can't ignore.

I feel on my tongue the taste of their skin,
So slow and so soft,
My reason blurs from within.

I’m drenched,
So wet now deep inside.
I don't know what happened,
My mind is nowhere to hide.

I feel so truly drenched,
With what they left behind in me.
I don't know what happened to myself, you see,
I just wanted to feel wanted, honestly.

A different person to touch every day,
To explore every zone they can find.
They'll know all about my body and way,
The guilt I'll feel tomorrow, I don't mind.

I want to feel warm inside, though I'm empty and frail,
But every time I try, I just feel worse and fail.

I’m drenched,
So wet now deep inside.
I don't know what happened,
My mind is nowhere to hide.

I feel so truly drenched,
With what they left behind in me.
I don't know what happened to myself, you see,
I just wanted to feel loved, honestly.

I just want to feel a little bit of love,
But I confuse it with the hollow feel of warmth.
Their bodies next to mine is not what I dreamt of,
Tomorrow I'll mourn for what I did on this earth.

I'm drenched.

The water won't cleanse

In the back of my mind
The echoes won't fade
Each drop on my skin
A memory that invades

Shadows whisper low
In the silent night

The water won't cleanse it
Can't wash away my fears here
Drowning in silence
Yet I still feel you here

Late night confessions
Neon lights flicker
Chasing fading dreams

But the pain gets thicker

Through the mist I see
A ghost of you near

The water won't cleanse it
Can't wash away my fears here
Drowning in silence
Yet I still feel you here

Alone in this room
With memories to keep

The water won't cleanse it
Can't wash away my fears here
Drowning in silence
Yet I still feel you here

Alone in this room
With memories to keep
Alone in this room
With memories, memories to keep

The water:
The water won't cleanse,
It won't wash away pain.
Every wound, every wrong,
Born from a moment in vain.

Lying on this floor,
Not knowing what to do.
What did I do to deserve this,
This dark deserving, too?
Here in the shower,
No strength, no clue.

Trying to find,
What I'm missing inside.
Something I couldn't achieve,
That always slips and hides.

The water won't cleanse
My mind or the ache.

Perhaps the fault was mine,
For what I let them take.

My head breaks and shatters,

With so much darkness now.

From what within me matters,
This sad truth, somehow.

Walking down the street,
In a city not my own.
Tell my mind to be quiet,
For the pains still known.

Since you left,
I stayed all alone.
Waiting, so sad,
For you to come home.

Trying to find,
What I'm missing inside.
Something I couldn't achieve,
That always slips and hides.

The water won't cleanse
My mind nor the ache.
Perhaps the fault was mine,
For what I let them take.

My head breaks and shatters,
With so much darkness now.
From what within me matters,
This sad truth, somehow.

I only looked for warmth,
Something to make me feel.
To quiet the old hurt,
That never seems to heal.

My body, surrendered,
It wasn't for love.
A silent deal rendered,
Pain to rise above.

They'll never find this body,
That one day was sold.
No pride in this story:
No love, no need, untold.

The water won't cleanse
My mind or the ache.
Perhaps the fault was mine,

For what I let them take.

My head breaks and shatters,
With so much darkness now.
From what within me matters,
This sad truth, somehow.

The water won't cleanse,
Here in the hotel shower,
Once more.
The sheets are undone,

Alone, as before.
They leave when it's done,
Leaving all this dread.
With my mind overrun,

And aching in my head.
The water won't cleanse...
Never will...
No I'll never be

Wake up at 3:00 AM:
How should I feel?
If in the end I feel it was me who lied to myself
If I wounded myself
How could I cry?

How could I feel guilt every time I fail?
If nothing scares me anymore
I wake up at 3 in the morning without knowing why
I feel my body calling but I won't feel guilty

At 3 in the morning, I let myself be carried by the warmth
I feel cold, I feel nothing, none but the pain
Every time I wake up and just look at the other side
I feel such a strong urge to cry for feeling so lonely

Every time I remember that no one was with me
And not being able to forget what couldn't be done before
Always being on the same side of the bed without changing
Waking up tormented by what I couldn't achieve

When I'm done, I'm winning, I know very well why
I let myself be carried, something insignificant
When I know I feel guilty, it hurts to want to be alone
But have no other option when I pull away and ignore without any reason

It's just that sometimes otherwise I can't feel pleasure
It hurts when I'm with someone else, I wouldn't know what else to do
It's just that with someone, I don't really know what it feels like
But I can't reach ecstasy, I almost never feel pleasure

I'm alone, at least by being able to touch a part of what I am
I can enjoy a moment
And I'm alone, I'm tired and I don't know what I should do
This has me so stressed, it clouds my clear sight

Between the darkness with the light off
I start to touch parts of myself,
I reach ecstasy and my body calls
Telling me that, that for now, this is how it is

The awakening:
Annoyed when I wake up,
Tired, once again, of what goes on.
I truly try to make it work,
But honestly, this never moves along.

It's really quite dismal,
Not knowing why it holds me back.
I just don't know what I feel,
When nothing ever gets on track.

I wake up in the same old way,
In a different place each night.
When I try, the only thing that stays,
Is the mark of my one single plight.

I can never really sleep,
Always busy in my head, just thinking.
I broke my neck so deep,
Trying to mend what's already sinking.

Nine in the morning,
I wake up once more.
My soul is utterly worn,
Of playing this damn game, for sure.

The very same feelings,
The same broken state of mind.
I wish I could say "it's not real",
That I failed before, I'm resigned.

My head made of ceramic,
That once longed for some warmth and light.

When there's no certainty, no magic,
And the color is so bland, it's just not right.

My bones are breaking,
Trying to find something better, a new beat.
With those bitter memories making,
Me remember I'm still feeling worse, defeat.

The way is truly painful,
In which I can't go on anymore.
But the only thing that's left, so gainful,
Is to wake up again tomorrow, once more.

The same awakening:
Annoyed when I wake
Tired again of what happens
I really try to do it
But truly, this just doesn't move forward

It's truly ominous
Not knowing why it holds me back
I just don't know what I feel
When I know things don't happen

I wake up the same way
In a different place every night
When I try, the only thing that remains
Is the mark of my sole regret

I can never sleep
Always busy thinking
I broke my neck so much
Trying to fix what's broken

Nine in the morning
I wake up again
My soul is already fed up
Of playing this damn game

The same feelings
The same broken mentality
I wish I could say it's not true
That I've failed before

I wake up the same way
In a different place every night
When I try, the only thing that remains
Is the mark of my sole regret

I can never sleep
Always busy thinking
I broke my neck so much
Trying to fix what's broken

A ceramic head
That once wanted some warmth
When there's no certainty left
And the color is so insipid

Breaking bones
Trying to find something better
With those sour memories
That remind me I'm worse off

I wake up the same way
In a different place every night
When I try, the only thing that remains
Is the mark of my sole regret

I can never sleep
Always busy thinking
I broke my neck so much
Trying to fix what's broken

The way is painful
In which I can't take it anymore
But the only thing left
Is to wake up again tomorrow

Waking in circles:
I wake up in the haze, tired eyes, worn out skin,
Every dawn feels the same, where does this cycle end?
My mind's a tangled mess, floating through the deep,
Dreams of better days, yet no promises to keep.

Stuck in the silence, trapped inside my head.
Can't break the cycle, just waiting for change.
cause I'm high, eh

Same old routine, like clockwork I rise,
In a stranger's bed with a million goodbyes.
Dragging my heart through the mud and the grime,
Every sunday breaks, feels like a crime.

Searching for pieces, but they slip through my hands,
Haunted by memories, like ghosts in the sands.

Fingers reach to heal, but I’ve lost all my grace,
Trying to catch the light in this dark, hollow space.

Indifference:
I prefer to see my life a little blurry
Since it's not good as it is right now, I worry.
I wish I could express the way I feel
But I honestly don't know when what I say is real.

Things are not the same way as before
And I still know everything will hurt much more.
I see things clearly fading from my sight
Trying not to believe what I already know inside.

It's cruel that all I do is just pretend
That all the pain I feel won't ever strike again.
I have been walking for far too long,
Still trying only to forget what's wrong.

And I know that I haven't won the fight
When I don't even know what's wrong or right.
I don't wanna ever be
The person I once used to be.

I won't be afraid again
Of what I had to live through then.
And despite this heavy loneliness,
I know I still want to be better, yes.

And I know I'm going to make it through,
With nothing else for me to have to prove.
I prefer to see my life a little blurry.
The truth is too much now to bear.

There are too many problems that
I'd rather choose to just ignore.
Even though I know
I won't gain anything more.

And I prefer to be the one who fakes it,
The one who makes you think that I don't care.
And even if my eyes need glasses for it,
The truth is too much now to bear.

I desperately need something
To make me feel a little better, please.
Because it always happens
That I end up feeling much worse than this.

Blurred view:
I tried my very hardest
Always woke up feeling beat.
And I made way more mistakes
Than I ever wanted to repeat.

So, just alone, and not by choice, after that day
I lost the sight of things so clearly, can't explain.
I'd surely drown without a thread of hope or faith
That the peace I crave the most can never be my state.

Without my glasses, the whole world is a blur
But my mind insists that everything's the same.
If I just manage not to think of her,
All the misery and the cruelest pain will cease.

My head is cloudy, I don't wanna think at all.
I need the heavy sound to stop its call.
There's never certainty, that's the truth
And all that's left is to accept the move.

You fight a battle that you know you'll lose.
You strive and fall right into yesterday's abuse.
You end up hurting people with indifference
Because you can't admit the fault, the consequence.

I just wanna sleep so I don't have to think
Just like I used to, crying as a little kid.
I know the wrong I did is mine, I have no blink,
But I promise you, that's not what I intended.

I'm sorry for this broken, grown-up state of mind,
I wasn't raised in the right way, I know.
Don't try to fix me, you just gotta go.
Leave me, let me be alone in this flow.

I'm just so incompetent, you know
I really deserve all this pain I'm owed.
Go, just walk away from here.
And leave me, like the rest all did.

I'll stay here to die with fear,
My mistakes are now the roof above my head.

In my tears:
An empty space inside, in a white loneliness,
I feel so bad with no one to have here with me.

Despite what I say, there are many lies,
and I know what I think are just silly things.

I'm so tired of having to pretend,
of acting like I'm fine and keep on smiling.
I don't need anyone to be happy,
I'm better alone, I'm better gray.

I try not to break without knowing,
that I can't even believe it anymore.
I'm already a rock, if I'm dead inside,
I could go crazy with what I feel in my soul.

Within my tears, a pain so deep,
that I still feel for lack of love.
Within my tears that never went away,
looking for someone else to feel loved.

God, I would have wanted to forget all the pain,
but it hasn't happened, it's still with me.
Within my tears, made of venom,
they plan to leave me empty inside.

Within the tears, although I won't be happy,
Maybe someday this sadness will leave me.

More than just letters:
Amidst my deepest darkness,
I never quite knew what to do.
How could I ever achieve,
If I needed to be born anew?

In my immense sadness,
I couldn't do anything for me.
With very little certainty,
I only wanted to flee from here.

If this was right, I would be fine,
But it wasn't like that, no, not for me.
If I knew what to do, I'd have no fear,
But if I'm not well here, if it's not like this, you see.

Just simple letters, they'd be simple letters,
I don't want them to stay like this.
But they, they speak for me,
Everything I cannot express.

They wouldn't be simple letters if they're right,

Because they mean so much to me.
And within them, they shine so bright,
Words that truly exist in me.

I've been alone for far too long,
Freezing, lashing out at myself.
But one thing is strong and true,
They couldn't torture, couldn't bury me.

But when the moment finally comes,
When everything feels perfectly right,
Everything of me will shine,
I'll be able to shine, not just in this light.

Just simple letters, they'd be simple letters,
I don't want them to stay like this.
But they, they speak for me,
Everything I cannot express.

They wouldn't be simple letters if they're right,
Because they mean so much to me.
And within them, they shine so bright,
Words that truly exist in me.

And I, just by my own accord,
So long I wrote from staying quiet.
While deep inside, in the storm,
I couldn't move from this plight.

Between the paper's pages and the ink,
I etched all that happened in my life.
That life, which seemed indistinct,
And all I did, on paper, ended strife.

But everything that came to pass,
In every letter it was preserved.
Sometimes just as a memory to last,
Or as something bravely overcome and served.

Just simple letters, they'd be simple letters,
I don't want them to stay like this.
But they, they speak for me,
Everything I cannot express.

They wouldn't be simple letters if they're right,
Because they mean so much to me.
And within them, they shine so bright,
Words that truly exist in me.

A hundred lines:
They might think it's foolish...
Even if they don't know.
They might call me crazy...
But the music is in my soul.

Call it pathetic, call it too dark,
But I'm the one fanning the spark.
The notes that I wrote in the dead of the night,
Are the dreams that are finally catching the light.
It doesn't matter if they don't see the worth,
I'm giving these melodies physical birth.

A hundred lines I will write, they are burning inside,
A hundred songs I will sing, with nowhere to hide.
A hundred lines will exist, they're the soul of my art,
A hundred lines aren't enough for the depth of my heart.

My expectations high, my truths have been told,
In every story that's yet to unfold.
They might think it's foolish...
Even if they don't know.

They might call me crazy...
But the music is in my soul.
One by one, they're coming alive...
One by one, they help me survive.

My history is written in every verse,
Breaking the silence, lifting the curse.
A hundred lines...
Just the start.

My life...
My heart.
They might think it's foolish...
Even if they don't know.
They might call me crazy...
But the music is in my

Angel in disguise:
Everything's fine, just look at my face
A smile so bright, but it hides the truth
What do you wanna do, just say the word
There's a bittersweet truth that's barely heard

Every laugh I share's a practiced act

There's a depth of sorrow I can't subtract
I'm just a shadow of who I used to be
An angel's disguised, yet no one can see

Watch me laugh and dance through the pain
But deep down inside, it's all in vain

Close to the mirror, reflections deceive
Broken wings of hope, who will ever believe?
The whispers of secrets etched in my mind
Things I can't share, truths so unkind

Watch me laugh, but know there's a fight
I'm not the same, hiding in the light

I'm just a shadow of who I used to be
An angel's disguised, yet no one can see
Watch me laugh and dance through the pain
But deep down inside, it's all in vain

Watch me laugh, but know there's a fight
I'm not the same, hiding in the light

I'm just a shadow of who I used to be
An angel's disguised, yet no one can see
Watch me laugh and dance through the pain
But deep down inside, it's all in vain

The angel has fallen, now lost in the storm
Holding on to nothing but dreams that transform
(Oh-oh-oh)
Dreams that transform
(Oh-oh-oh)

S.O.S:
I cannot sleep, I cannot dream
These nightmares wake me with a scream
I cannot laugh, they talk so loud
The echoes of the past are drifting like a cloud

And I cry for help, help, S.O.S (Help, help, S.O.S)
There’s so much more than what you see
In the silence, so ethereal, S.O.S (The silence, so ethereal, S.O.S)
There is no place to hide for me

Help, help, Please S.O.S (I’m sorry for the words, S.O.S)
But I don’t know what else to do
The pills I take have lost their use

And I won't give up, not tonight (S.O.S)

The pain is gone, the wounds don't bleed
They’ve turned to scars I do not need
Emotions hidden deep within
That burn like fire, burn like sin

And I cry for help, help, S.O.S (Help, help, S.O.S)
There’s so much more than what you see
In the silence, so ethereal, S.O.S (The silence, so ethereal, S.O.S)
There is no place to hide for me

The memories invade my head
Like nails inside my mind instead
Heavy things that weigh me down
Stinging shadows all around

They used to say "just let it go"
"If you don't think, then it won't show"
So many little white lies
That never stopped the bleeding cries

And I cry for help, help, S.O.S (Help, help, S.O.S)
There’s so much more than what you see
In the silence, so ethereal, S.O.S (The silence, so ethereal, S.O.S)
There is no place to hide for me

Waking up again
Sweating with a cruel heartbeat
In my chest, it hurts to be
The one who lives in self-deceit

I’ve left it all behind,
The past I should have let depart
But even when I try, I find
Someone else's guilt still breaks my heart

The screams, the fights, they flood my soul
I try to cloud them with indifference
But even if I take control
The pain returns with every sentence

Help, help, Please S.O.S (I’m sorry for the words, S.O.S)
But I don't know what else to do
The pills I take have lost their use
And I won't give up, not tonight (S.O.S)

And who will hear my call for help?

When there is no one left to tell
In this life, just one thing’s true
The only one you trust is you

When I'm gone:
If I could make one wish,
It would be to see you again.
That’s all I want, to feel you near,
But I know it won’t happen, my dear.

Though you may not know my pain,
I still haven't forgotten you,
and no matter how much time passes,
I'm still right here, waiting for you.

When I'm gone, when I'm gone,
I still hope someday to see you again.
I know it's all my fault, my own regret,
But I never stopped loving you, not yet.

Don't forget me, my final words,
even if you're with someone new.
Because I'll never forget you, you know,
even if I never see you again.

Your hugs felt like a father's embrace,
I didn't know I was just a child to you.
Forgive me for not being perfect,
Forgive me for my darkest days, my blues.

Every tear I shed left a stain on my heart,
I fell deeper into my depression.
I just hoped you would have understood me,
But in the end, I only have this broken lesson.

When I'm gone, when I'm gone,
I still hope someday to see you again.
I know it's all my fault, my own regret,
But I never stopped loving you, not yet.

Don't forget me, my final words,
even if you're with someone new.
Because I'll never forget you, you know,
even if I never see you again.

Maybe fire will consume me,
or I'll drown in my own tears.
I’ll wait for my soul to accept,

that you will never, ever come back.

And when I can't breathe anymore,
when my soul knows it's time to go,
I hope you remember this song.

When I'm gone, when I'm gone,
I still hope someday to see you again.
I know it's all my fault, my own regret,
But I never stopped loving you, not yet.

Don't forget me, my final words,
even if you're with someone new.
Because I'll never forget you, you know,
even if I never see you again.

I know I should have forgotten you,
but I couldn’t, I shouldn't have fallen in love.
You left, and I was left to poison myself,
before I simply left…

I'm Sorry:
I can't stop thinking, and now I just want to leave,
'Cause I know what happened, and I just want to ignore it, believe.
I don't know why I did it again, I said it wouldn't be repeated,
But now once more, I'm somewhere I swore I'd never be seated.

I say things, so many things, so I don't have to speak,
For example, I guess I don't know why it passed.
But to myself, I just can't lie,
I know, but I don't know why I did it again, just like that.

I'm so sorry, I'm truly sorry, please,
Tell me, and I'll listen, but I don't know what happened, if you please.
I'm so sorry for not being able to be
That version I once said I would see.

I'm so sorry, I'm truly sorry, for real,
I just assure you not everything's a lie, that's how I feel.
I'm so sorry, I'm truly sorry this time,
But I just hope I'll be better after this climb.

One day I'll turn around and look at myself,
And I know I will laugh.
But right now, when I observe myself,
I don't know what to do on this path.

I guess I'm a little wet,

But I want to be dry.
After being completely soaked,
This feeling, I want to wash it by.

I say things, so many things, so I don't have to speak,
For example, I guess I don't know why it passed.
But to myself, I just can't lie,
I know, but I don't know why I did it again, just like that.

I'm so sorry, I'm truly sorry, please,
Tell me, and I'll listen, but I don't know what happened, if you please.
I'm so sorry for not being able to be
That version I once said I would see.

I'm so sorry, I'm truly sorry, for real,
I just assure you not everything's a lie, that's how I feel.
I'm so sorry, I'm truly sorry this time,
But I just hope I'll be better after this climb.

Lying down, standing up, or perhaps just sitting,
But I just know not everything is fiction.
I know it's not necessary,
But for now, I don't know how to let it be, really.

Dry words coming from me,
When I want to go back to being.
I want to do what I know I'll do,
When I finally stop doing this, it's true.

I'm so sorry, I'm truly sorry, please,
Tell me, and I'll listen, but I don't know what happened, if you please.
I'm so sorry for not being able to be
That version I once said I would see.

I'm so sorry, I'm truly sorry, for real,
I just assure you not everything's a lie, that's how I feel.
I'm so sorry, I'm truly sorry this time,
But I just hope I'll be better after this climb.

I can't stop thinking, and now I just want to leave,
But I just hope I'll be better after this climb, believe.

Find me in every tree:
And if one day when you wake up,
I no longer wake up next to you

When such an exquisite noise stops to break your heart in two
I wish I could tell you before it could ever be true

When the night feels cold and long, remember me within your song
In every corner of your mind, our love forever intertwined

Look for me in every tree or just plant a seed between the marble walls or in the sand where we used to breathe

Find me in the sunset's glow, a memory that won't let go

When the night feels cold and long, remember me within your song
In every corner of your mind, our love forever intertwined
Though the silence speaks of pain, I'll love you through the rain
Though the silence speaks of pain, I'll love you through the rain

When the night feels cold and long, remember me within your song
In every corner of your mind, our love forever intertwined
Though the silence speaks of pain, I'll love you through the rain
Though the silence speaks of pain, I'll love you through the rain

I'm down:
I see my reflection in a windowpane of glass,
And I don't know who this is.
A face I've seen before in the city's streets,
In every season, in every passing kiss.

I try to smile, but my face won't move a bit,
Just like a porcelain doll with no voice or light.
I feel the stitches of this costume, I admit,
But nobody's home inside this silent night.

I'm down, down, down, down,
In this quiet little town, town, town
I'm down, down, down, down,
Yeah, the silence is my only crown.

And I wonder if the night hears my scream,
Or if the void inside my room is real.
This lonely ghost is living in a dream,
And there's a part of me that just can't feel.

My smile is a lie that never tells the truth,
And you don't know how hard it is to breathe.
Every little thing I feel just weighs me down,
This endless burden, a thorny little wreath.

I keep my eyes covered from the light,
The cold water chills me to the bone.
I used to think this feeling was alright,

Now it's a silent tombstone.

I'm down, down, down, down,
In this quiet little town, town town
I'm down, down, down, down,
Yeah, the silence is my only crown.

And I wonder if the night hears my scream,
Or if the void inside my room is real.
This lonely ghost is living in a dream,
And there's a part of me that just can't feel.

I'll take my own hand and I'll jump,
When it's safe I know I'll just go.
It's not that I want to be gone,
I just don't want this reality, you know.

This game is so pointless to play,
And I don't want to play anymore.
One day I'll get up and walk away,
Yeah, I'll be better than before.

I'm down, down, down, down,
In this quiet little town, town, town
I'm down, down, down, down,
Yeah, the silence is my only crown

I'll be better...
When I leave this place...
I'll be better...
I'll be better…

Erase You:
I want, I want, please, I want to
Meet somebody, somebody new.
I want, I want, please, I want to
Find someone to erase you.

I would lie if I said it was
Only for myself I left
The truth is I ran from my house
Because of you, I was bereft.

You were a new thing that made me see
A whole new world of sweet mistakes
You were a good thing, or so I believed
I should have listened to the warnings and the breaks.

And you left, damn it, you just left
And I stayed here all alone, confined
Everything that you did to me then
Made me want to leave it all behind.

I thought I knew you, but I didn't see
You were the worst thing that happened to me
That's why I wanted to escape to the city
To make your memory disappear completely.

You were older and I was so young, you know
I had never felt what love could do
And when you gave your love to me, though
It blurred all the pain from my view.

I only wanted a little love, I confess
To blur out all the dark inside
All the pain and all the sadness
That left me empty with nothing left to hide.

And you left, damn it, you just left
And I stayed here all alone, confined
Everything that you did to me then
Made me want to leave it all behind.

I thought I knew you, but I didn't see
You were the worst thing that happened to me
That's why I wanted to escape to the city
To make your memory disappear completely.

So I'll go to that city you spoke about
The place we were supposed to see as one...
What were the things you cared so much about?
They were just stupid things we've never done.

So I'm just going, yes
Because I need to heal
New people I will meet, I need a love that is real.

I want, I want, please, I want to
Meet somebody, somebody new.
I want, I want, please, I want to
Find someone to erase you.

New people I will meet...
Yes, new bodies too.
Make your memory disappear...
Find someone to erase you…

Run from home:
I'm tired of staying in that same old house
Where everything is always the same
I feel like no one ever moves out
And I always feel full of pain.

I'm so bored of this place I'm in
Where nothing good I ever find
I want something, a game to begin
To leave all of this feeling behind.

So I'll run to the city, yeah, to the town
Where new things are turning around
I want something more than what I'm left with now
More than these worn-out experiences.

I'll go to the city all alone
Where no one else can see my face
I want to dance with someone unknown
And feel a little warmth, a little taste.

Sick of this old narrative, this same old scene
Where the only sound is someone screaming
I want something more than what has been
'Cause I don't know what it is I'm dreaming.

I want to know, I want to learn and grow
Even if it's with strangers I meet
I want something different to show
More than the life I used to keep.

So I'll run to the city, yeah, to the town
Where new things are turning around
I want something more than what I'm left with now
More than these worn-out experiences
.
I'll go to the city all alone
Where no one else can see my face
I want to dance with someone unknown
And feel a little warmth, a little taste.

I want to have fun, I need to do it fast
I'm feeling down, my fear won't ever cease
I want to be fine and let the crying pass
I want to see, find a new place to find peace.

Maybe I'll meet some brand new faces

Maybe someone can hold me tight
I want to go to all of these places
And feel loved, just one more night.

So I'll run to the city, yeah, to the town
Where new things are turning around
I want something more than what I’m left with now
More than these worn-out experiences.

I'll go to the city all alone
Where no one else can see my face
I want to dance with someone unknown
And feel a little warmth, a little taste.

I'm still a kid, and I know it's true
I have so much more to see and know
So to the city, I will move
Even if I don't know where I'm going.

Lonely nights:
Those memories
Tattooed with pain
Between what wasn't sincere
And the lack of love, again

All the things
Amidst negativity
Such bad notes
Written in reality

So many lonely nights
I don't want them, not anymore
I couldn't bear them, no, not with all my might
To always be alone, to the core

So many lonely nights
I don't want them, please, no more
Even if my soul's accustomed to these sights
It's just too much pain, at my heart's door

I am completely alone
And I want it to be this way, I own
My mind, my everything, it's true
I know in the end, I lost, me and you

Time is passing by
And I'm left behind, with a sigh
Amidst a life

That was so fatal, a constant strife

So many lonely nights
I don't want them, not anymore
I couldn't bear them, no, not with all my might
To always be alone, to the core

So many lonely nights
I don't want them, please, no more
Even if my soul's accustomed to these sights
It's just too much pain, at my heart's door

My skin is not white
My mind turned dark, no light
I want something that makes my soul
Feel better, makes me whole

I know I'm not perfect, you see
And sometimes I tend to push away, set myself free
But it's sincere, what I say
To say that I can love, come what may

So many lonely nights
I don't want them, not anymore
I couldn't bear them, no, not with all my might
To always be alone, to the core

So many lonely nights
I don't want them, please, no more
Even if my soul's accustomed to these sights
It's just too much pain, at my heart's door

Dark stars above
And a cruel night, no love
And if my mind is immature, I confess
What else can I do, in this mess?

Memories hurt, it's true, I know
But what do I do to make them go?
To get rid of them, I just don't want them anymore
I don't want them, pounding at my door

To be alone all the time, my dread
To be alone and cry, in my head
To be alone as I feel
A pain when I recall, it's real

So many times I wanted

Just to escape, untainted
Even to a place where I could flee
And where they could truly love me

Bitter Fumes:
There is a strange voice inside my head
That forces me to act in the dark of the night
I can't think clearly, I’m misled
And this empty feeling I can't put right.

The temperature is rising just one degree
And my mind decides to cease to be
I let the white smoke carry me
And that's the moment when it goes terribly.

And the mirror is a lie to me
It swears that everything's the way it should be
I tell myself that nothing could go wrong
But I know that I’ve been failing all along.

Every night, I have to run
Even if my body won't move to the sound
Every night, I always run
And my soul feels cloudy, numb and unbound.

Little by little the vapor makes it fade
The cruel guilt for the choice I've made
And although I don't feel any pain
My frightened heart just starts to strain.

There's a devil living in my closet
He forced me to abandon my promise
Now I just want to find a wicked end
And I don't know how to be myself again.

And the mirror is a lie to me
It swears that everything's the way it should be
I tell myself that nothing could go wrong
But I know that I’ve been failing all along.

Every night, I have to run
Even if my body won't move to the sound
Every night, I always run
And my soul feels cloudy, numb and unbound.

With every breath, it gets so hard to find
My own self in this consuming black
There’s a deficit inside my mind

It’s seeking something in another's flesh, there's no turning back.
There are things I simply can't grasp
When my thoughts just disappear so fast
The vapor won't quench this thirst I carry
And the bitter guilt is what's left to bury.

And the mirror is a lie to me
It swears that everything's the way it should be
I tell myself that nothing could go wrong
But I know that I’ve been failing all along.

Every night, I have to run
Even if my body won't move to the sound
Every night, I always run
And my soul feels cloudy, numb and unbound.

The guilt is bitter...
Always bitter.

Lost:
Midnight passed,
The clock now reads.
With anguish in my soul,
My darkest thoughts I feed.

I wander lonely,
Through these empty streets.
Don't know what to do,
My own heart just beats.

Lost in the city,
You said "never alone."
You were gonna leave me,
I'm struggling to go on.

Lost in the city,
I'm feeling worn and tired.
Just want to break down and cry,
My last hope just expired.

I came all this way,
I didn't want to be.
I wanted you to stay,
But you just didn't see.

Lost in the city,
You said "never alone."
You were gonna leave me,

I'm struggling to go on.
Lost in the city,
I'm feeling worn and tired.
Just want to break down and cry,
My last hope just expired.

The bright lights,
And the buildings I don't know.
Amidst all the abundance,
A void starts to grow.

The cold hits,
I'm sleepy and I wanna cry.
Walking in a strange place,
Underneath this dark sky.

Lost in the city,
You said "never alone."
You were gonna leave me,
I'm struggling to go on.

Lost in the city,
I'm feeling worn and tired.
Just want to break down and cry,
My last hope just expired.

Don't know what to do now,
I'm tired of this walk.
I'm hungry, I'm worn out,
With nothing left to talk.

Feeling a little sick,
Just want to get back home.
I'm so scared right now,
I don't want to be alone.

Lost in the city,
You said "never alone."
You were gonna leave me,
I'm struggling to go on.

Lost in the city,
I'm feeling worn and tired.
Just want to break down and cry,
My last hope just expired.

Lost in the city:
Midnight whispers, softly shadows drawing

A clock ticks slowly with the grief I carry on
Through eyes painted black, a world now lost and cold
In this realm of silence, I bear the weight of old
The anguish lingers in the frozen air

Lost in the city, shadows wrap around me
For we were together, yet I'm on shaky ground
Taste the tears falling, drowning out the light
In this dance with sorrow, endlessly I fight
Endlessly I fight

In the city's heartbeat, I stagger on astray
No solace or comfort, just echoes of my pain
You promised me forever, said we'd never part
Now I'm engulfed in darkness with a shattered heart
Why did you leave me in this haunted place?

Lost in the city, shadows wrap around me
For we were together, yet I'm on shaky ground
Taste the tears falling, drowning out the light
In this dance with sorrow, endlessly I fight

Night's cold embrace swallows my will to be
Lost in the city, just a memory of me

Fleeting Nights:
Look at the city lights, they fade so fast
The echoes of the night, my heart beats cast
Waves of dark desire curling in my mind
And shadows of the night leave the past behind

Smoke and drink, let the moment stay
Underneath the neon glow, we dance away
Lost in this intoxication, let it blur
The memories of tomorrow's heartbeat stir

I just want to feel alive in this trance
So come on and undress me, take it all tonight
We don't need a reason as we lose our sight
In the silence between, breath heavy with lust

Just tonight and that's it, this is all we trust
We flow like whispers in a crowded room
The air thick with longing, embraces loom
I look at you, smoke against your chest

In this fleeting moment, can we just forget
You say you don't know me, but that's alright

We're just passing ships on this starless night
Our bodies entwined, a love that's not true

Tomorrow's a stranger, but tonight we're two
Nothing feels permanent, just shadows and light
So come on and undress me, take it all tonight
We don't need a reason as we lose our sight

In the silence between, breath heavy with lust
Just tonight and that's it, this is all we trust

Just for tonight:
I look at the city lights,
relax my mind with the sound.
In the end it was all I wanted,
before I gave it up for what I found.

I want to smoke, want to drink,
for hours I just wanna dance.
Even if tomorrow I don't know what to think,
I guess I won't remember.

I'm fine, I feel alive,
at least for now.
All night long the same vibe,
just for tonight.

Come on, undress me,
all I want is to fuck.
I don't care, just seduce me,
just for tonight.

I look at your sweaty body,
I want you in my bed today.
You know nothing about me,
but that's not what I'm here for.

I'm fine, I feel alive,
at least for now.
All night long the same vibe,
just for tonight.

Come on, undress me,
all I want is to fuck.
I don't care, just seduce me,
just for tonight.

My skin feels wet,

we both know what's going on.
Tomorrow I won't see you again,
but someone else will be in your bed.

It feels so good, I guess that's how it is,
it's just desire.
That you don't have to worry 'bout me,
cause tomorrow there'll be someone new.

I'm fine, I feel alive,
at least for now.
All night long the same vibe,
just for tonight.

Come on, undress me,
all I want is to fuck.
I don't care, just seduce me,
just for tonight.

Are you okay? 'Cause I'm leaving,
'til I come back next week.
It's no use telling you,
that this doesn't hurt my soul.

Broken:
I'm broken, so completely shattered,
And now I don't know what to do.
Searching for something that truly mattered,
A love that I should find in me, not in you.

The love I never got at home
I keep searching for in someone else
In a new body, when they let me roam
What will be left of me on the shelf?

I drowned my sorrow in the city sound
In the bright lights of a city that isn't mine
Hiding my sadness where bodies are found
In the warmth of anyone who crossed the line.

I broke myself, and I did it again
Searching for what I thought was true
I had it all, but felt such great pain
I was so scared, I didn't know what to pursue.

Searching for that warmth in someone else
The heat that I never felt back at home.
When they were done, I could feel the sharp sting

Of the love that I still wish to own.

I felt something when they touched me right
When they were doing what we came to do
But I was never satisfied by the light
I didn't know what I was looking through.

And I went out to the city, saying I'd play
Seeking love in a different spot
Something to take the dark away
Something to make the loneliness stop.

I broke myself, and I did it again
Searching for what I thought was true
I had it all, but felt such great pain
I was so scared, I didn't know what to pursue.

Searching for that warmth in someone else
The heat that I never felt back at home.
When they were done, I could feel the sharp sting
Of the love that I still wish to own.

And I searched and I searched,
In someone else for what I lacked inside
But I never found it
And they only, only just said goodbye.

And I searched in other bodies
For someone who could make me feel like you
But that's not what I really want, no
Even if I said I just wanted something new.

I broke myself, and I did it again
Searching for what I thought was true
I had it all, but felt such great pain
I was so scared, I didn't know what to pursue
.
Searching for that warmth in someone else
The heat that I never felt back at home.
When they were done, I could feel the sharp sting
Of the love that I still wish to own.

And now I don't know what to do
Trapped and walking the city streets...
I want to run away from here, too
'Cause my house wasn't a home to me.

Midnight steps:

On the street, wandering all alone, again
Cars are just shadows passing through, you know
The moon is the only one who listens to my soul

My feet are moving, but only by inertia
The aches remain like an old, dark amnesia
Tired and heavy, what I want is just to rest
An empty soul in the middle of this quest

Midnight steps, so sad and serene
In the city where nothing scares me anymore
All alone, with nowhere to go, what does it mean?
Just a body that’s knocking on a bed's door

And a check that bought what felt like love before

At a stranger's home, for one or two hours
Traded the empty cold for a little warm
It wasn't what I wanted, felt wrong, felt sour
But now I have to leave, to do it all next week

Midnight steps, so sad and serene
In the city where nothing scares me anymore
All alone, with nowhere to go, what does it mean?
Just a body that’s knocking on a bed's door

And a check that bought what felt like love before

I knew it wasn't right, but I went and I needed it so
Pay for a body, running from my inner truth
Now I just want to return, and never let it show
To calm the hunger and the painful state of youth.

Midnight steps, so sad and serene
In the city where nothing scares me anymore
All alone, with nowhere to go, what does it mean?
Just a body that’s knocking on a bed's door

And a check that bought what felt like love before...

Going back to a house with nothing good in store...
I don't want to remember what I went there for...

Midnight.

Hotel bed:
I walk these lonely, vacant streets,
A city where no one truly meets.

The feelings I once knew are gone,
My sense of self has carried on.

I wander nightly, needing rest,
To find a haven for the stressed.
The cold demands a fire be bought,
A safe passage is the only thing I've sought.

I found a place to hide for the night,
Escaping from this city's cruel sight.
He drove me here, it's him who brought me,
My body is the payment, sadly.

At least I'll sleep in a bed tonight,
Inside this sterile, strange hotel.
I'll give my service to this man,
And when he leaves, I'll break the spell.

The sheets are cold, though his body is warm,
The sound of money will not calm
The hollow ache I feel inside,
When every single man has tried.

I found a place to hide for the night,
Escaping from this city's cruel sight.
He drove me here, it's him who brought me,
My body is the payment, sadly.

At least I'll sleep in a bed tonight,
Inside this sterile, strange hotel.
I'll give my service to this man,
And when he leaves, I'll break the spell.

I try the shower, let the water pour,
To wash the memory from my core.
But the night is solved, the trouble is done,
I'm safe beneath this roof, I've won.

It doesn't hurt, I am resigned,
To give my all just for a pay.
Sometimes for need, sometimes for the void,
The simple wish I can't avoid.

At least I'll sleep in a bed tonight,
Inside this sterile, strange hotel.
I'll give my service to this man,
And when he leaves, I'll break the spell.

His warm embrace just leaves me numb,
As he departs, the darkness comes.
I lose the love I once chased for life,
Lost now within this cold hotel strife.

I feel no love, and no more pain,
This is just a hotel bed again.
I am resigned, I am so used to this,
Tomorrow, if I need it, I'll repeat the kiss.

Walking through the blue Street:
I thought the pain would fade away
With just a pill or maybe two
Tried to forget it, keep it at bay
Stop feeling what I’m going through

It’s complicated, I guess that’s true
Not just for me, but for everything
Tried to push it aside, out of view
Just to keep on, just to keep going

Is it possible to forget the past?
Walking down this lonely Blue Street
Is it possible to make it last?
Let the music numb the bitter beat

Is it possible to let it go?
Those moments of pain, just for a while
Is it possible not to know?
When blue is the only color in style

A voice that no one ever heard
Broken in tears, shattered and worn
A soul that felt like it was cursed
For things it failed since it was born

The noise outside is wearing me down
I wish I couldn't hear it at all
Tried so hard in this empty town
To leave it behind, to stand tall

Is it possible to forget the past?
Walking down this lonely Blue Street
Is it possible to make it last?
Let the music numb the bitter beat

Is it possible to let it go?
Those moments of pain, just for a while

Is it possible not to know?
When blue is the only color in style

Walking with headphones, tuning it out
Ignoring the world and its design
Trying to find what it’s all about
Searching for comfort in this mind

The city lights are always so bright
But inside of me, it’s always dark
Don’t wanna listen, I give up the fight
Escaping the grief that left its mark

Is it possible to forget the past?
Walking down this lonely Blue Street
Is it possible to make it last?
Let the music numb the bitter beat

Is it possible to let it go?
Those moments of pain, just for a while
Is it possible not to know?
When blue is the only color in style

Is it possible to walk away?
Walking down the Blue Street today...
I wanna stop feeling so alone
Leave this cross I’ve always known…

In your car:
Oh ah, oh ah
In this car, oh ah, oh ah
I want you so bad, so bad
Oh ah, I'm losing my mind.

Papi, en tu coche, mi amor,
En la noche, me rindo al control.
Papi, en tu coche, mi amor,
You are my man, you are my love,
(I'm yours.)

Tu coche es un cuarto a solas,
The windows are fogged up with our breath,
La noche es nuestra, no hay más,
And our bodies are ready, ready to sweat.

Mis manos te buscan en la oscuridad,
The moonlight barely gets to us,
Tu aliento me quema, I feel your desire,
And my body wants more, more, my love,

Mi mano se desliza por tu pantalón,
Mis labios buscan los tuyos, sin control.
La noche se vuelve un gemido, I want to go fast,
And my body wants more, more, my love, at last.

Tus pantalones te bajas, I can't resist,
Mi boca te besa, my love you can't miss,
Mi lengua te busca, I feel your love so deep,
Tan profundo me excita, I'm losing all sleep.

Tu leche me moja, my love, a sweet sin,
Mi boca se llena, I feel it so within,
Me siento tan amena, I want to feel it,
Tu secreto es mío y tú leche al fin.

Another:
Ah, ah, ah, babe, I want it all
More, more, more jizz, more
Ah, ah, ah, babe, I want it all
More, more, more jizz, more

My husband is here, but I wanna run,
To find another man, to have some fun.
I wanna feel him deep, so hard, so raw,
And break all the rules, and all the law.

Quiero algo mas que me haga sentir
Quiero alguien mas, que me haga gemir
Sentir otro cuerpo, sentir otra piel
Quiero algo nuevo, dentro de mi ser

Ah, ah, ah, babe, I want it all
More, more, more jizz, more
Ah, ah, ah, babe, I want it all
More, more, more jizz, more

I wanna be with another man,
And feel him come, again and again.
I want to feel his jizz, his milk inside,
And take it all, with nothing to hide.

My husband gives me his love, his time,
But my desire is a different kind of crime.
I wanna feel another man, so strong, so deep,

And feel him come, so I can sleep.

Y él no ha de saber,
que yo quiero mas
Sentir otro placer
Dentro y mi profundidad

I wanna go out and find some more,
And feel the pleasure, like I've never before.
I wanna feel his jizz, his milk inside,
And take it all, with nothing to hide.

Ah, ah, ah, babe, I want it all
More, more, more jizz, more
Ah, ah, ah, babe, I want it all
More, more, more jizz, more

I wanna be with another man,
And feel him come, again and again.
I want to feel his jizz, his milk inside,
And take it all, with nothing to hide.

I feel you babe, I'm here now
I feel your skin and your body now
I feel you babe, I'm here now
I feel your milk so deep and raw

Y que él nunca sepa
Que con otro hombre estaré
Todo el amor que me quepa
Y toda su leche en mi ser

Wao wao daddy:
Wao Wao Daddy Wao
Give me your Dick now
Wao Wao Daddy Wao
It's gotten really big now

Papi quiero de ti quiero mas
Me siento especial cuando tu me das
Porfa dejame pedirte un poco más
Porque contigo esta noche quiero estar

Eres un papi peligroso,
Y yo se que no debería
Esta noche estás ansioso
Porque eres el papá de mi amiga

Que Marian no sepa que esta noche
Su papá conmigo estará
El me llevara a solas en su coche
Para hacer lo que hace con su mama

Wao Wao Daddy Wao
Give me your Dick now
Wao Wao Daddy Wao
It's gotten really big now

En la CQ dicen no se vayan con desconocidos
Pero papi tu un desconocido no eres
Marian mi amiga no sabia que hablabas conmigo
Pero yo sé lo que papi tu quieres

Y es una chica linda, que sea nueva en esto
Te dejare enseñarme pero debo decir
Que eres mayor que yo, pero no tengo miedo
Es más creo que eso mejor me hace sentir

Y primero comienzo a acariciar tu pantalón
Cuando llegamos al motel
No sabía tan duro estarías mi amor
Y que tan duro te ibas a poner

Wao Wao Daddy Wao
Give me your Dick now
Wao Wao Daddy Wao
It's gotten really big now

La saque y me sorprendí demasiado

Es más grande de lo que había imaginado
It is something I've never experienced before.
So tonight, just do it to me more and more.

And that they don't know at school
That I'll be there tonight
That's what I want, and it's true.
And when us coming fade the light

I don't mind that you're older and I'm too young
I don't want to miss the chance and let go
I want to feel you in me inside
Daddy but you know im so tight

Wao Wao Daddy Wao
Give me your Dick now
Wao Wao Daddy Wao
It's gotten really big now

Wao Wao Daddy Wao
Give me your Dick now
Wao Wao Daddy Wao
It's gotten really big now

Ah ah ah
Wao daddy stop
Im so tight so tight you know
Wao wao daddy Ya

I feel you come inside me now
Ah ah ah
Wao daddy stop
Im so tight so tight you know

Wao wao daddy Ya
I feel you come inside me now

Bigger than my:
You're bigger than my
Bi - bi - bi - bigger than my
You're bigger than my
Bi - bi - bi - bigger than my

I hope it stays awake for a long time..
(stays awake a long time...)

It was just an ordinary day
And I meet you, you are straight

They told me you were my boss
I didn't think would be a time lost

Más alto, y mayor que yo
En el trabajo órdenes me dabas
Quién acaso lo hubiera pensado
Que en algún momento te tendría ganas

You're bigger than my
Bi - bi - bi - bigger than my
You're bigger than my
Bi - bi - bi - bigger than my

I hope it stays awake for a long time..
(stays awake a long time...)

When you told me to get on my knees
I didn't know where we were going pass
si lo hacía sería solo un desliz
No quería dejar la oportunidad atrás

Yo no sabía lo que quería contigo
Pero se que me aventure a probar
Estando casado se sentía prohibido
Con mi propio jefe el experimentar

You knew it and I knew it
You had a wife and I had my husband.
It's just something we would both do it
And I told you someday just come on

Oh You're bigger than my
Bi - bi - bi - bigger than my
You're bigger than my
Bi - bi - bi - bigger than my

I hope it stays awake for a long time..
(stays awake a long time...)

Cuando la vi por primera vez
Me quedé tan sorprendido
Tan grande y gorda, sin delicadez
Más grande que la de mi marido

Y sabía que no debía hacerlo
Era algo que estaba prohibido
Pero mi marido no me hacía sentir lleno
No cómo yo lo hubiera querido

And I say ah - ah - ah - ah
You're bigger than my - my - my - my
And I say oh - oh - oh - oh
You have a big co - co - co - cock

You're bigger than my
Bi - bi - bi - bigger than my
You're bigger than my
Bi - bi - bi - bigger than my

I hope it stays awake for a long time..
(stays awake a long time...)

And while my husband didn't know
I called him on the telephone
While I felt, your cock, inside
And that was at time of lunch

You put it all in me
And without a condom
I just wanted to feel your jizz
Today in this room

And I say ah - ah - ah - ah
You're bigger than my - my - my - my
And I say oh - oh - oh - oh
You have a big co - co - co - cock

You're bigger than my
Bi - bi - bi - bigger than my
You're bigger than my
Bi - bi - bi - bigger than my

You're bigger than my
Bi - bi - bi - bigger than my
You're bigger than my
Bi - bi - bi - bigger than my

I hope it stays awake for a long time..
(stays awake a long time...)

Lover:
Oh mi amor oh papi, oh mi amor oh papi
yeah amor, tu me dejaste tan mojada
Oh mi amor oh papi, oh mi amor oh papi
yeah amor, tengo tu semilla plantada

Mi esposo me ha dejado así
Su leche aún profundo en mi
Mi deseo no ha llegado, al fin
Y mi cuerpo me pide mas seguir

Así que he subido una foto a Instagram
Y me ha llegado un mensaje al instante
Sabe que mi esposo en casa no esta
Y mi cuerpo pide, ven a mí, mi amante

Oh mi amor oh papi, oh mi amor oh papi
yeah amor, tu me dejaste tan mojada
Oh mi amor oh papi, oh mi amor oh papi
yeah amor, tengo tu semilla plantada

My husband left me filled of love
But I need more, I can't get enough
So I post a photo on my Instagram
And a friend of him text me, what a plan

He ask me where I am and I say "in my bed"
He say "I'm coming now" and I say "I'm ready"
He know my husband is not at home
And he knows I'm feeling so alone

Oh mi amor oh papi, oh mi amor oh papi
yeah amor, tu me dejaste tan mojada
Oh mi amor oh papi, oh mi amor oh papi
yeah amor, tengo tu semilla plantada

He arrive and take my clothes away
He make me feel so good, so high
He take me hard, he make me scream
He come inside me, and its a dream

He leave, and I stay in my bed
Feeling so full, so hot, so wet
I hear my husband coming home
And I stay in my bed, with milk foam

Oh mi amor oh papi, oh mi amor oh papi
yeah amor, tu me dejaste tan mojada
Oh mi amor oh papi, oh mi amor oh papi
yeah amor, tengo tu semilla plantada

I feel you babe, I'm here now
I feel your skin and your body now
I feel you babe, I'm here now

I feel your skin and your body now

I want more of you, I want more of you, I want more of you
I want more of you, I want more of you, I want more of you

Attention:
Used to the shadows, used to the dark,
Searching for light, for a tiny spark.
Everything they chose to turn away,
I’m making you see it, making you stay.

Give me a little, give me some more,
The cake from my childhood I’m begging you for.
No father around, just a hollow inside,
Chasing the feelings I was forced to hide.

I want your focus, I want your eyes,
Beneath the screen and beneath the lies.

I want attention, I want it from men,
I need them to know I’m breathing again.
It isn't love, no, that’s not the chase,
Just want to be seen, to have a place.

Am I pretty? Tell me, can you see?
Lose your gaze for a moment in me.

She made me feel like I was the bad,
The worst mistake that she ever had.
He wasn't there when I needed him most,
Now I’m just haunted, chasing a ghost.

It hurts in the present, it hurts in the past,
A fragile existence that wasn't built to last.

I want attention, I want it from men,
I need them to know I’m breathing again.
It isn't love, no, that’s not the chase,
Just want to be seen, to have a place.

Am I pretty? Tell me, can you see?
Lose your gaze for a moment in me.

Is my talent fragile? Is this just a plea?
A way to make sure you’re looking at me.
Invisible boy in a world far too wide,
With nowhere to run and nowhere to hide.

Am I enough? Am I still here?
Or will I just fade and then disappear?

I want attention, I want it from men,
I need them to know I’m breathing again.
It isn't love, no, that’s not the chase,
Just want to be seen, to have a place.

Am I pretty? Tell me, can you see?
Lose your gaze for a moment in me.

Affection was hunger, a void in my chest,
A poison that put my poor heart to the test.
Running to men, trying to find
The fatherly love that was left far behind.

I want attention, that’s all I desire,
To burn for a second inside of your fire.
It isn't love, it’s just this deep need,
To plant in your mind a small little seed.

Am I pretty? Tell me, can you see?
Lose your gaze for a moment in me.

Don’t ignore me... I am the best.
My words, my body, put to the test.
If I sing my poems, would you stay near?
Or like the rest, would you disappear?

Razor heart:
Steps of metal on the floor...
A heavy ghost I can't ignore.

The steps I take feel like they're made of steel,
crushing every floor, making sorrow real.
I own a paper heart that turned into a blade,
cutting everyone through the mess I've made.

So fragile and thin, yet sharp as a knife,
keeping folks away from my broken life.

Should I offer an apology?
For being "bad", for this personality?
Did I do something wrong, a sin I can't see?
'Cause my mind doesn't work with your morality.

Should I offer an apology for my words and ways?
When I don't see the wrong in these hollow days.

I spent so much time giving people my trust,
now my innocence is just settling dust.
Locked in my room, "be good" was the rule,
treated like a puppet, treated like a fool.

I got tired of living under their thumb,
so I grew some thorns and I've chosen to be numb.

Should I offer an apology?
For being "bad", for this personality?
Did I do something wrong, a sin I can't see?
'Cause my mind doesn't work with your morality.

Should I offer an apology for my words and ways?
When I don't see the wrong in these hollow days.

She never said sorry for the wreckage she left,
of my self-esteem, she committed the theft.
Called it "love" while she dragged me down low,
a power struggle that I've come to know.

Now I lose my mind whenever I try,
under this indifference where I hide and cry.

Should I offer an apology?
For being "bad", for this personality?
Did I do something wrong, a sin I can't see?
'Cause my mind doesn't work with your morality.

Should I offer an apology for my words and ways?
When I don't see the wrong in these hollow days.

The "I love you" words, they're heavy and tight,
stuck in my throat, vanishing from sight.
I asked for the sun and they gave me the dark,
Now I'm the one who's supposed to miss the mark?

I'm not making excuses, but this is my truth,
the lessons I gathered in my bitter youth.

Should I offer an apology?
For being "bad", for this personality?
Did I do something wrong, a sin I can't see?
'Cause my mind doesn't work with your morality.

Should I offer an apology for my words and ways?
When I don't see the wrong in these hollow days.

It’s a childhood scar that became my own face...
and as a man, I can't find my place.
Razor heart...
I don't know how to stop the bleed

Broken doll:
Tell me your plans, where will you go?
Once you leave me, you’ll have cause to show..

All the bad things I did, no regrets in my mind,
All the wreckage and hurt that I’ve left behind.

It didn't hurt to strike, didn't hurt to sting,
Though you loved me, I ruined everything.
I thought that love was the hole in my chest,
But even your heart couldn't put me to rest..

Just like a toy, I treated you so,
Tossing you high, then letting you go.
Just like a toy, it was all just a game,
Loving you cruelly... I’m the one to blame..

You weren't the problem, you weren't the fault,
But I locked your spirit inside of my vault.
I wanted the guilt to be yours to hold,
To watch your warm heart turn bitter and cold.

They say karma’s coming, but she’s running late,
The world let me crush you and seal up your fate.
You’re so much better than I’ll ever be,
Than a player who toyed with your loyalty..

Just like a toy, I treated you so,
Tossing you high, then letting you go.
Just like a toy, it was all just a game,
Loving you cruelly... I’m the one to blame..

My streak of luck is starting to fade,
When I see the mess of the choices I made.
All of the damage I’ve caused in my wake,
While you stayed beside me for every mistake..

Just like a toy, I treated you so,
Tossing you high, then letting you go.
Just like a toy, it was all just a game,
Loving you cruelly... I’m the one to blame..

Your honey kisses, my venomous touch,
What will you do when it’s all been too much?
My hollow love, like a candy-coated lie,
You were the sun... I was the dark in the sky.

I pulled your strings like a yoyo on high,
Bounced you like a ball, didn't care if you'd cry.
Spun you in circles with lies like a top,
Now you’re a broken doll... making me stop..

Just like a toy, I treated you so,
Tossing you high, then letting you go.
Just like a toy, it was all just a game,
Loving you cruelly... I’m the one to blame..

You were my toy, that’s all that I knew,
A toy I was never faithful to.
So many games, until we were through...
Until I finally... broke you..

The rusty shell:
I don’t know how to be "good"...
Even if I understood.

They flooded me with pain I never sought,
until "wishing for the end" was my only thought.
I pushed my heart aside, I kept it out of sight,
so I wouldn't have to smile in the middle of the night.

I told myself I’d rise above the things I suffered through,
but cynicism is the only thing I ever knew.

I struggle so much just to understand you,
The pain I carry is the strength I cling to.
It’s the heavy fuel for this rusty old shell,
the one that protects me from this living hell.

Now everything is wrong and I don't know the way...
What else do you want from me today?

I’m repeating cycles, spinning in the dark,
leaving on the ones I love a bitter, jagged mark.
Deceived by the idea that love was meant to leave,
wearing all those toxic lessons on my sleeve.

As I grew up, the hope of being better died away,
"her" shadow in my soul is where it’s gonna stay.

I struggle so much just to understand you,
the pain I carry is the strength I cling to.
It’s the heavy fuel for this rusty old shell,
the one that protects me from this living hell.

Now everything is wrong and I don't know the way...
What else do you want from me today?
Maybe I should apologize for all that I’ve done wrong,
reach out and help you, try to be strong.
But something deep inside of me is blocking the path,
a frozen ghost of all my unspent wrath.
I’m not bad by choice, it’s just how I survived,
when I was all alone and barely felt alive.

I struggle so much just to understand you,
the pain I carry is the strength I cling to.
It’s the heavy fuel for this rusty old shell,
the one that protects me from this living hell.

Now everything is wrong and I don't know the way...
What else do you want from me today?
I find it hard to grasp the way you feel at all,
I was taught to hide behind a jagged wall.

I learned to be stone so they wouldn't look away,
and now I’m just a prisoner of the games I play.
What do you want? What 's left of me?
I struggle so much just to understand you,

The pain I carry is the strength I cling to.
It’s the heavy fuel for this rusty old shell,
the one that protects me from this living hell.
Now everything is wrong and I don't know the way...
What else do you want from me today?

Just the shell remains...
Feeding on my pains.

Corpse party:
Trying not to let the paper tear...
What we once tried to repair.

The more I try, the more you just ignore
The fact I can’t escape through this door.
Hands aren't tied, but I'm still bound,
The red thread keeps us on this ground.

You know the sins, the seeds you’ve sown,

To curse the place we called a home.

You built a party out of hollow bones,
Look at their eyes, just empty stones.
If I leave, you’re nothing on your own,
One day you’ll reap the grief you've shown.

Look at this party made of the dead,
Killed by the hatred that you spread.
Every debt is coming for your head,
Karma’s calling, just like I said.

You fed their dreams with nothing but trash,
The ones you should’ve saved from the crash.
Your bitter words would poison my will,
Waiting for the blood to start to spill.

You cut the tongues of the ones you cursed,
Who couldn’t speak or fear the worst.
In that house, they lived in dread,
Afraid to wake up from their bed.

You built a party out of hollow bones,
Look at their eyes, just empty stones.
If I leave, you’re nothing on your own,
One day you’ll reap the grief you've shown.

Those little children who used to smile,
You broke their hearts, mile after mile.
Now their spirits can’t find their rest,
With a living curse inside their chest.

You built a party out of hollow bones,
Look at their eyes, just empty stones.
If I leave, you’re nothing on your own,
One day you’ll reap the grief you've shown.

The pain is flowing just like the blood,
Through the veins and through the flood.
If hell is real, you’re not burning yet,
But the Lord will settle every debt.

You built a party out of hollow bones,
Look at their eyes, just empty stones.
We’re leaving now, you’re nothing on your own,
One day you’ll reap the grief you've shown.

Look at this party made of the dead,

Killed by the violence that you spread.
Every debt is coming for your head,
Karma’s calling, just like I said.

With karma...
Just like I said.

I don't wanna know:
I don’t wanna know
I just want to fall
I don’t wanna know
That all I do is wrong

I just want to feel good for a second
To breathe without a sorry as my weapon
I just want to feel alright right here
Without the urge to simply disappear

I don’t wanna know
I just want to fall
I don’t want to know
That all I do is wrong

I don’t want to know
I just want to feel
I know, I know I’m wrong
This cold bitter in me

And even if I don’t know, I don’t want to
I don’t want to see what I’ve gone through
Even if it matters, I’ll decline
Let me run away like the last time

I don’t wanna know
I just want to fall
I don’t want to know
That all I do is wrong

I don’t want to know
I just want to feel
I know, I know I’m wrong
This cold bitter in me

I’m not that easy, can’t you understand?
Everything I say was already in our hands
I’m so tired of the friction, petty fights and the noise

So even when I’m wrong, I avoid the choice
I’d rather let it flow through my veins like a poison

I don’t wanna know
I just want to fall
I don’t want to know
That all I do is wrong

I don’t want to know
I just want to feel
I know, I know I’m wrong
This cold bitter in me

I’m like this ‘cause I’m paralyzed by fear
Of being left behind while you disappear
That’s why all I really want to do
Is end the war between me and you

I’d be capable of leaving before you walk away
Doesn’t mean I don’t love you, or want you to stay
But my ego and my fear have the final say

I don’t wanna know
I just want to fall
I don’t want to know
That all I do is wrong

I don’t want to know
I just want to feel
I know, I know I’m wrong
This cold bitter in me

Apologizing was never taught to me
That’s why I avoid it so naturally
If I made a mistake, I’ll regret the view
But I won’t say "I’m sorry" to you

Cause I can’t change what I can’t undo

Poltergeist:
Waking up to noises I cannot keep still,
Pounding in my head with a bitter thrill.
Where does all this sound even come from now?
Where does all the pain go? I don't know how.

I feel your presence like a ghost in the hall,
But your absence is a freeze, a lethal wall.
There’s an itch inside me, deep under the bone,

Expanding through my chest, leaving me alone.

The banging and the screaming,
Is a Poltergeist in sight?
Was love just a dreaming
That died before the light?

The wailing of the moths,
Black wings torn apart,
Melancholy grows
And breaks my hollow heart.

I hear the whispers, they’re calling your name,
A voice in the dark that I cannot tame.
Is it that man, the one from the past?
Leaving my soul in a shadow so vast?

The banging and the screaming,
Is a Poltergeist in sight?
Was love just a dreaming
That died before the light?

The wailing of the moths,
Black wings torn apart,
Melancholy grows
And breaks my hollow heart.

Wrapped in my sheets at the edge of the bed,
The monster is screaming inside of my head.
The ghost that walked out didn't want to see me,
In this sea of sorrow, I’ll never be free.

The banging and the screaming,
Is a Poltergeist in sight?
Was love just a dreaming
That died before the light?

The wailing of the moths,
Black wings torn apart,
Melancholy grows
And breaks my hollow heart.

My only true friend is a teddy bear, old,
Watching me cry in the dark and the cold.
I wish it was just a tantrum or a phase,
But she hit me to the floor in a violet haze.

Your name is my curse, your absence my chains,

Darkness is the blood flowing through my veins.

The banging and the screaming,
This Poltergeist is real.
Love was just a dreaming,
With a heart of steel.

The wailing of the moths,
Black butterfly on high,
Melancholy grows
Underneath a broken sky.

Hiding behind the door...
Drowning in the gloom...
Father... my doom.

ADDICTED:
I need more...
Just a little bit more.

I can't let go of the itch in my hands,
the hunger for more than my heart understands.
If love isn't here, let the heat take control,
anything to silence the ache in my soul.

Tonight I won't be lonely, not again,
I feel alive when you’re under my skin.
I want something good, or just warm for a while,
I’m addicted to filling this void with a smile.
So full... so empty.

They left me one day, so I walked out the door,
ended the night, didn't fear anymore.
Am I that bad? Yeah, I know that I am,
the world isn't kind, so I don't give a damn.

They used me once, now it’s my turn to play,
a new body's touch to wash the ghosts away.

Tonight I won't be lonely, not again,
I feel alive when you’re under my skin.
I want something good, or just warm for a while,
I’m addicted to filling this void with a smile.

Maybe one day love will finally heal,
this cruel necessity that I have to feel.
I swore I’d be different, not like she was,
but I’m chasing the shadow, just because.

What if I’m loved but I’m never enough?
What if I hate all the beautiful stuff?

Tonight I won't be lonely, not again,
I feel alive when you’re under my skin.
I want something good, or just warm for a while,
I’m addicted to filling this void with a smile.

I lie to myself, say I’m the one in pain,
When did I start loving the fear in my veins?
I don’t want to feel this, I want to be free,
but tonight I need more of this toxicity.

Will I ever find where the hunger ends?
Or is this just how my story descends?

Tonight I won't be lonely, not again,
I feel alive when you’re under my skin.
I want something good, or just warm for a while,
I’m addicted to filling this void with a smile.

Is "I love you" ever gonna be enough? Or will I keep craving the hollow stuff?
I'm scared that I'm reckless, I'm scared I'll move on,
and lose what I found once the hunger is gone.
Satisfy me... love me

Immaculate prison:
I'm sorry, it's not your fault, it's mine.
You're really all I want,
but I can't do it, no tonight.

You give me your soul, you give me your heart
And I treat you like a toy I can break.
I agree with it all, I play every part,
It’s sad to be the person you want me to fake.

Why do you stay when I’m doing you wrong?
Why don’t I leave when it’s never enough?
My ego is dark and it’s growing too strong,
And it hurts even if I am acting so tough.

And I have it all, I have everything from you,
A beautiful life and a love that is real.
But I don't know if this is what I should do,
Or if there's even a heart left to feel.

Now my comfort and my perfect little life

Are nothing but an immaculate jail.
I know you gave it all to be my light,
But even the absolute truth starts to fail.

I grew up surrounded by flowers of plastic,
In a home where the love was never quite real.
Forgive me if my ways are a little too drastic,
But I never learned how I’m supposed to feel.

I’m smiling outside just to put on a show,
Pretending your arms are keeping me sane.
It’s what I wanted as a child, you know?
But today it brings me nothing but pain.

And I have it all, I have everything from you,
A beautiful life and a love that is real.
But I don't know if this is what I should do,
Or if there's even a heart left to feel.

Now my comfort and my perfect little life
Are nothing but an immaculate jail.
I know you gave it all to be my light,
But even the absolute truth starts to fail.

I had to hurt you just so I could see
That I’m not the kind who can love ‘til the end.
You’re the dream that I wanted for me,
But the kindness makes me want to descend.

I still hear the moths as they cry in the dark,
Tormenting the space inside of my head.
It's not your fault that I’ve lost every spark,
Being your prey is the thing that I dread.

And I have it all, I have everything from you,
A beautiful life and a love that is real.
But I don't know if this is what I should do,
Or if there's even a heart left to feel.

Now my comfort and my perfect little life
Are nothing but an immaculate jail.
I know you gave it all to be my light,
But even the absolute truth starts to fail.

A hug so pure, so warm, and so true...
Why does it burn like a hole in my skin?
Why do I feel so bad next to you?
Why did I let the betrayal begin?

I failed you, though you gave me your best,
For a stranger’s touch, for a moment so hollow.
An urge that I couldn't put to the test,
A ghost of a thrill that I decided to follow.

And I have it all, I have everything from you,
A beautiful life and a love that is real.
But I don't know if this is what I should do,
Or if there's even a heart left to feel.

Now my comfort and my perfect little life
Are nothing but an immaculate jail.
I know you gave it all to be my light,
But even the absolute truth starts to fail.

I let someone else lay a hand on my skin
While you waited home, just waiting for me.
If you’re everything that I wanted to win...
Why am I not satisfied, if I’m happy?

The way you made me:
The way you did all those things,
You won't admit it wasn't right.
I know the errors you bring,
But you won't say it's true, with all your might.

Singing you this song,
I wish I could truly say,
That despite causing so much wrong,
I don't blame you for everything, every single day.

And you filled me with so much pain,
And darkness crept right into me.
I saw everything in a dark stain,
Until it destroyed every part of me.

And when I was just a child,
I didn't deserve to live like that.
Because you took that dream, so wild,
Of just being a happy kid, no turning back.

Every single thing that occurred,
Even if you don't know, I will tell.
Nothing from my mind has blurred,
And for that, every night, I still cried, oh well.

Your words deep inside of me,

Hurt more than any weapon's might.
I expected it from all but thee,
That you'd be the one to shatter my light.

And you filled me with so much pain,
And darkness crept right into me.
I saw everything in a dark stain,
Until it destroyed every part of me.

And when I was just a child,
I didn't deserve to live like that.
Because you took that dream, so wild,
Of just being a happy kid, no turning back.

I don't know what was in your head that day,
But I know no one's born knowing it all.
Yet you were an adult, even if you couldn't say,
Tell me, what game were you playing, standing so tall?

Tell me, was your plan to obscure,
Every child you saw being born?
Why did you make their dreams impure?
And as always, the blame is never your own.

But you won't always be able to show that face,
Mother, I'll tell you, the time has come.
Though you tore your children from their place,
They understand it well now, this painful sum.

And you filled me with so much pain,
And darkness crept right into me.
I saw everything in a dark stain,
Until it destroyed every part of me.

And when I was just a child,
I didn't deserve to live like that.
Because you took that dream, so wild,
Of just being a happy kid, no turning back

Seed of my own hell:
Oh-oh, oh-oh...
Seeds in the dark...

Seeds of a dark and twisted sunrise
growing with poison and bitter wine.
Tragedies made a boy grow up wise,
crying in hell, stepping out of line.

A liar who learned from the very best,
thinking his shadow would forever glow.
He lost his mind, put it to the test,
turning his heaven into heavy snow.

Broken hearts and empty spaces,
happiness is all I’m fighting for.
Losing hope in crowded places,
burning in this hell right on the floor.
Burning in this hell forevermore...

I always wanted what I couldn't hold,
I failed again, falling down the drain.
Like boiling milk, getting out of control,
rising up high, feeding all the pain.

Crying alone on my bedroom floor,
wasted and high, faded in the gray.
Familiar feeling knocking at my door,
I hate it but it doesn't wash away.

Broken hearts and empty spaces,
happiness is all I’m fighting for.
Losing hope in crowded places,
burning in this hell right on the floor.

I know if I go on I’m gonna hit a wall
and slowly slide right into disgrace.
But when they gave me the chance to recall,
I knew damn well I couldn't leave this place.

A bad boy who used to follow the design,
then I got tired of the things they said.
Ended up sleeping right behind the line,
and something dark is growing in my head.

Broken hearts and empty spaces,
happiness is all I’m fighting for.
Losing hope in crowded places,
burning in this hell right on the floor.

And soon I'll burn, I don't know if before her,
inside the flames of my sweet mistake.
No tears on the streets, no reason to cure,
locked in a cage that I cannot break.

Broken hearts and empty spaces,
happiness is all I’m fighting for.

Losing hope in crowded places,
burning in this hell right on the floor.

The fires below are eternal and wild...
No more begging for a simple "I love you".
No more tears from the child...
In my own hell.

Lenses:
Streetlights flickering...
Everything fading out...

I'd rather see this life a little bit blurred,
Cause right now the reality is absurd.
I wish I could tell you the things that I feel,
But I don't even know what is fake or what's real.

Things will never be the way they were before,
And I know that it's gonna hurt me so much more.
Everything that happened out there on the street,
Cold nights on the pavement, accepting defeat.

There are so many issues I'd rather just ignore,
Even though I know I won't get far anymore.
And I prefer to be the one who just pretends,
The one who doesn't care about how the story ends.

And even if my eyes are needing lenses to see,
The truth is just too heavy, it's suffocating me.

I have been walking for way too long now,
Trying to brush it off, to ignore it somehow.
And I know that I haven't been doing it right,
When I don't know what's happening, lost in the night.

There are so many issues I'd rather just ignore,
Even though I know I won't get far anymore.
And I prefer to be the one who just pretends,
The one who doesn't care about how the story ends.

And even if my eyes are needing lenses to see,
The truth is just too heavy, it's suffocating me.

I see the edges but they aren't very clear,
Trying to disbelieve the things that brought me here.
It's a cruel little game to keep up this facade,
Pretending the damage won't hit me as hard.

There are so many issues I'd rather just ignore,
Even though I know I won't get far anymore.
And I prefer to be the one who just pretends,
The one who doesn't care about how the story ends.

And even if my eyes are needing lenses to see,
The truth is just too heavy, it's suffocating me.

I need to find something to make me feel alright,
Cause lately everything is darker than the night.

I don't wanna go back to the person I was,
I won't be afraid of the pain and the loss.
And despite this heavy and quiet solitude,
I know I wanna heal, I wanna change my mood.

There are so many issues I'd rather just ignore,
Even though I know I won't get far anymore.
And I prefer to be the one who just pretends,
The one who doesn't care about how the story ends.

And even if my eyes are needing lenses to see,
The truth is just too heavy, it's suffocating me.

I know I'll make it out somehow...
With nothing else to matter now...
Everything is blurry...
And that's okay for now.

Armor:
They filled me up with pain...
Until I wanted to die...
Pushing my heart away...

They filled me up with so much pain, until I wanted to die,
pushing my heart out of the way, so I couldn't even smile.
I used to tell myself back then, "I'll be better than the tears I cried",
but then the cynicism won, and I just kept repeating the cycle inside.

It is so hard for me to understand you,
this heavy pain is buried deep within my core.
It is the only thing that's giving strength to
the heavy armor that protected me before.

And now that everything is wrong,
and I don't know how to do what's right...
And you? I still don't really know

what else you want from me tonight.

I know I am the one who should say sorry
for all the mistakes that I've been making.
I know I should run and help you carry,
but something stops me and my hands are shaking.

I am not cruel because I want to be,
it's just the only way I learned to stay alive,
to keep myself safe from the tragedy
when I was left alone trying to survive.

It is so hard for me to understand you,
this heavy pain is buried deep within my core.
It is the only thing that's giving strength to
the heavy armor that protected me before.

And now that everything is wrong,
and I don't know how to do what's right...
And you? I still don't really know
what else you want from me tonight.

I spent my whole life living in a lie,
feeling like love was always pushed aside.
Suffering from the lessons I was taught,
hurting the people that I loved a lot.

And as I grew, it got so hard to heal,
to let go of the scars that pain made real.

It is so hard for me to understand you,
this heavy pain is buried deep within my core.
It is the only thing that's giving strength to
the heavy armor that protected me before.

And now that everything is wrong,
and I don't know how to do what's right...
And you? I still don't really know
what else you want from me tonight.

It is so hard for me to truly comprehend
the honest way you feel and how you care.
I learned so much alone without a friend,
that now a simple smile is hard to bear.

And it's so hard for me to understand you,
cause of this pain buried deep within my core.
It is the only thing that's giving strength to

the heavy armor that protected me before.

And now that everything is wrong,
and I don't know how to do what's right...
And you? I still don't really know
what else you want from me tonight.

What else you want from me...
The armor is still here…

Runaway:
There is a voice...
Inside my head...

There’s a strange voice echoing inside my head,
In the night it forces me to do things that I dread.
I cannot think straight, nothing is so clear,
and all of this is something that I cannot bear.

The temperature goes up another degree,
and suddenly my mind is slipping away from me.
With a little bit of vapor I just let it go,
and then it all starts crashing down below.

The mirror is a liar on the wall,
telling me that I must be perfect for all.
I tell myself "there’s nothing that can go wrong",
but honestly it’s getting worse all along.

And every night, I just wanna run,
and every night, though I hate what I've done.
Every night, I always have to flee,
and this clouded body is all I can feel in me.

Little by little the vapor puts out
the cruel sensation of guilt and the doubt.
And even though it really doesn't hurt at all,
my heart is always terrified of the fall.

There is a demon hiding in my space,
that forced me to leave early from this place.
Now I just want to devour everyone,
and I don't know how to stop what's begun.

The mirror is a liar on the wall,
telling me that I must be perfect for all.
I tell myself "there’s nothing that can go wrong",
but honestly it’s getting worse all along.

And every night, I just wanna run,
and every night, though I hate what I've done.
Every night, I always have to flee,
and this clouded body is all I can feel in me.

With every try, it is harder to breathe,
finding myself in the darkness beneath.
My brain is suffering a deficit now,
looking for someone else's body somehow.

The mirror is a liar on the wall,
telling me that I must be perfect for all.
I tell myself "there’s nothing that can go wrong",
but honestly it’s getting worse all along.

And every night, I just wanna run,
and every night, though I hate what I've done.
Every night, I always have to flee,
and this clouded body is all I can feel in me.

There are so many things I can't comprehend,
when for a moment my mind starts to fade.
The vapor will never quench my thirst in the end,
and then the bitter guilt comes back to invade...

The mirror is a liar on the wall,
telling me that I must be perfect for all.
I tell myself "there’s nothing that can go wrong",
but honestly it’s getting worse all along.

And every night, I just wanna run,
and every night, though I hate what I've done.
Every night, I always have to flee,
and this clouded body is all I can feel in me.

The vapor won't quench the thirst...
The mirror lies to me again...
There is a voice inside my head…

Broke down:
I broke down...
I'm so broken...
Searching in the city...

I broke down, I'm so broken, and I don't know what to do.
Looking for somebody else for the love I never knew.
The affection I was missing, I keep seeking in the dark,

in a body that just vanishes... What is left to leave a mark?

I broke down and did it all again,
seeking in someone what I desired.
I had it, and I was so afraid back then,
I didn't know what it required.

Looking in someone for all that heat,
that at home I never felt before.
When it was over I felt defeat,
aching for what I was longing for.

I drowned all the pain in the loudest noise,
in the flashing lights of a foreign place.
Hiding my sadness in the hollow heat,
of a total stranger's warm embrace.

I felt a little something when they touched me,
when they were with me in the middle of the night.
But they never left me feeling happy,
I didn't know how to make it right.

I broke down and did it all again,
seeking in someone what I desired.
I had it, and I was so afraid back then,
I didn't know what it required.

Looking in someone for all that heat,
that at home I never felt before.
When it was over I felt defeat,
aching for what I was longing for.

And I went out into the city streets,
telling myself it was just for the thrill.
Looking for love in the empty sheets,
hoping that somehow the void would fill.

And I searched and I searched for what I lacked,
but I never found it in the arms I met.
They always left and never looked back,
leaving me alone with my own regret.

I broke down and did it all again,
seeking in someone what I desired.
I had it, and I was so afraid back then,
I didn't know what it required.

Looking in someone for all that heat,

that at home I never felt before.
When it was over I felt defeat,
aching for what I was longing for.

And I looked in other bodies in the dark,
someone who could make me feel like you.
But this is not the life I want to start,
even if I said that I was playing it cool.

I broke down and did it all again,
seeking in someone what I desired.
I had it, and I was so afraid back then,
I didn't know what it required.

Looking in someone for all that heat,
that at home I never felt before.
When it was over I felt defeat,
aching for what I was longing for.

And now I don't know what to do,
trapped and walking through the city foam.
I just wanna go somewhere new...
cause my house was never really a home.

I broke down...
And did it all again.

Sunglasses at midnight:
I don't wanna fake I'm doing well...
I'm just so tired of myself.

I am so tired of myself,
of making excuses for every mistake.
I can't stand this cynic shell,
I don't wanna smile when it's all fake.

I'm so tired of playing games,
'cause all my strategies have been defeated.
Where else can I hide the shame
of all the white and grey lies I repeated?

And I wanna wear sunglasses at night,
at the midnight of my worst mistakes.
I know I'll never get it right,
'cause my fears decide the path I take.

I need to wear sunglasses at night,
at the midnight of my dark despair.

I don't wanna see I'm the worst in sight,
and my ruins are scattered everywhere.

I know you're tired of the way I act,
of all the lies and my hypocrisy.
I am not strong, and that's a fact,
'cause bad lies are what's making up me.

If I want to leave, or if I even can,
I don't know if I want to, or if it's real.
It's something I fear deep inside as a man,
and the heavy anxiety is all that I feel.

And I wanna wear sunglasses at night,
at the midnight of my worst mistakes.
I know I'll never get it right,
'cause my fears decide the path I take.

I need to wear sunglasses at night,
at the midnight of my dark despair.
I don't wanna see I'm the worst in sight,
and my ruins are scattered everywhere.

It's no longer enough just to blur the view,
from the reflection of the lies I've spun.
They hit my eyes and they pierce right through,
I can't ignore the damage I've done.

It's no longer enough just to hide my face,
'cause the truth is standing in front of me.
It's heavy, I've been cruel in this space,
when I do something wrong, I just wanna flee.

So I wanna wear sunglasses at night,
at the midnight of my worst mistakes.
I know I'll never get it right,
'cause my fears decide the path I take.

I need to wear sunglasses at night,
at the midnight of my dark despair.
I don't wanna see I'm the worst in sight,
and my ruins are scattered everywhere.

In my final attempts, I always try,
swimming through the decay of my own mind.
You must be so sick of me, I won't lie,
your bitterness is justified, I'm blind.

If I don't meet your eyes, it's 'cause I regret,
all the pain, all the truth we found.
I know none of this makes sense yet,
and we're headed straight into the ground.

But I wanna wear sunglasses at night,
for the midnight of my worst mistakes.
I don't wanna see I'm the worst in sight,
and all the horrors that my soul makes.

I know you're tired of the way I act,
of all the lies and my hypocrisy.
I am not strong, you know that's a fact...
I know bad lies are what's making up me.

Making up me...
Sunglasses at midnight.
Built on bad lies…

Fog and conformity:
Everything is blurring again...

I messed up way more times than I ever would've liked,
I tried my very best but woke up losing the fight.
So all alone without a clue, I stopped seeing the world I knew,
Things got so blurry, and I fell, sinking down into this hell.

Without my lenses, I see life in a blur,
But my mind just wants things the way that they were.
If I just stop thinking 'bout the things that are wrong,
The cruelty and evil won't stick around long.

My head feels so cloudy, I don't wanna think,
I want all the noise to just wash down the sink.
There's never a certainty, that is reality,
And all that is left is just pure conformity.

You pick up a fight when you know you will lose,
You try and you fall in the same traps you choose.
A fragile and weak little ego to hold,
It can't stay upright when the weather gets cold.

Some peace and quiet is all I demand,
The only thing slipping right out of my hand.

Without my lenses, I see life in a blur,
But my mind just wants things the way that they were.
If I just stop thinking 'bout the things that are wrong,

The cruelty and evil won't stick around long.

My head feels so cloudy, I don't wanna think,
I want all the noise to just wash down the sink.
There's never a certainty, that is reality,
And all that is left is just pure conformity.

You end up hurting people with your cold apathy,
Cause you can't take the blame, acting inconsistently.
You hit at the heart like a fog in the deep,
Now all that I want is to go back to sleep.

Just like when I cried in my bed as a kid,
I know it's my fault for the things that I did,
But I promise it wasn't the path I'd have bid.

Without my lenses, I see life in a blur,
But my mind just wants things the way that they were.
If I just stop thinking 'bout the things that are wrong,
The cruelty and evil won't stick around long.

My head feels so cloudy, I don't wanna think,
I want all the noise to just wash down the sink.
There's never a certainty, that is reality,
And all that is left is just pure conformity.

I wanna lock myself up in these four empty walls,
Where nobody finds me, where nobody calls.
Now running away like I've committed a crime,
I'm stupid to think it'd be different this time.

I'm sorry I'm just an incompetent man,
I didn't grow up following the right plan.

Without my lenses, I see life in a blur,
But my mind just wants things the way that they were.
If I just stop thinking 'bout the things that are wrong,
The cruelty and evil won't stick around long.

My head feels so cloudy, I don't wanna think,
I want all the noise to just wash down the sink.
There's never a certainty, that is reality,
And all that is left is just pure conformity.

Don't try to fix me, just get out of here.
Leave me alone with my guilt and my fear.
You'll waste all your time if you try to debate,
I don't know how to heal, it is already late.

I'll stay here alone till I die...
My mistakes are the roof over my sky.

Hidden fire:
Oh my darling... Oh my sweet love...
I'm so sorry for what I'm dreaming of...
Chasing the thrill that we've been empty of.

I'm about to run away into the dark,
Looking for the pleasure, a missing spark.
I just don't feel it, it's making me fall,
This secret craving is taking it all.

This city is tiny, as tiny as you,
I never imagined we'd be falling through.

How do I put out the flame of my desire?
When you can't satisfy me, I need a higher fire.
I'm begging for something bigger, something bold,
To make me feel alive, to break me from the cold.

What am I supposed to do to turn it down?
When I don't feel fulfilled while you're around.
I'm tired of holding back, staying out of sight,
Imagining another body in the night.

I admit I'm in the wrong, you give me all your care,
But it only hurts to pretend that I'm still there.
I'm tired of holding back when I'm by your side,
Feeling like the passion has withered and died.

How do I put out the flame of my desire?
When you can't satisfy me, I need a higher fire.
I'm begging for something bigger, something bold,
To make me feel alive, to break me from the cold.

What am I supposed to do to turn it down?
When I don't feel fulfilled while you're around.
I'm tired of holding back, staying out of sight,
Imagining another body in the night.

Looking for somebody to ignite my skin,
Bring back the spark of the craving I'm in.
I don't know why you don't fulfill me, I swear I've tried,
But there's an empty space I can no longer hide.

How do I put out the flame of my desire?

When you can't satisfy me, I need a higher fire.
I'm begging for something bigger, something bold,
To make me feel alive, to break me from the cold.

What am I supposed to do to turn it down?
When I don't feel fulfilled while you're around.
I'm tired of holding back, staying out of sight,
Imagining another body in the night.

So before I go, I'm asking you to forgive.
I have your love, but it's not how I want to live.
The fever is calling, I surrender to the thrill,
I'll find it in another, I know I will.

How do I put out the flame of my desire?
When you can't satisfy me, I need a higher fire.
I'm begging for something bigger, something bold,
To make me feel alive, to break me from the cold.

What am I supposed to do to turn it down?
When I don't feel fulfilled while you're around.
I'm tired of holding back, staying out of sight,
Imagining another body in the night.

Oh, my darling... my sweet love...
I'm fading in silence, for the fire I'm dreaming of...
I'm so sorry... I'm so sorry…

Ashes of my own hell:
Poison in my veins.

Seeds of a dark and heavy sunrise,
washed in alcohol and bitter lies.
Tragedies that made a young boy grow wise,
crying in a hell under midnight skies.

A perfect liar, learned from the very best,
thinking in the dark he’d find a place to rest.
Losing his mind, putting morals to the test,
burning in the fire burning in his chest.

Broken hearts and bodies, hollow and so cold,
chasing after happiness I’ll never hold.
Losing all my hope, I’m falling uncontrolled,
in the warmth of strangers, my own hell unfolds.

Always wanted more than I could ever get,
making assumptions, drowning in regret.

Falling again into the safety of the net,
like milk boiling over, a dangerous bet.

Crying all alone on my bedroom floor,
wasted and faded, locking up the door.
It feels so familiar, I’ve been here before,
I hate it, but it doesn’t make me sick anymore.

Broken hearts and bodies, hollow and so cold,
chasing after happiness I’ll never hold.
Losing all my hope, I’m falling uncontrolled,
in the warmth of strangers, my own hell unfolds.

I know if I keep running I will hit a wall,
sinking into decency, ready for the fall.
But when I had a chance to answer to the call,
was there any promise for me after all?

A bad boy trying hard to follow every line,
then I got tired of wasting all my time.
Now I’m sleeping close to the bars of my crime,
and I feel something growing deep inside my mind.

Broken hearts and bodies, hollow and so cold,
chasing after happiness I’ll never hold.
Losing all my hope, I’m falling uncontrolled,
in the warmth of strangers, my own hell unfolds.

And soon I will burn, I don’t know if she’ll go first,
in the middle of the flames, trying to cure the thirst.
Inside this prison where the bubbles always burst,
blessed by the shadow, by the light I am cursed.

Broken hearts and bodies, hollow and so cold,
chasing after happiness I’ll never hold.
Losing all my hope, I’m falling uncontrolled,
in the warmth of strangers, my own hell unfolds.

No more tears on the street tonight...
The fires below are burning so bright.
No more begging for a love that felt right,
just fading away... out of sight.

Dante's inferno PT 1 “Mommy tell me”:
I don't wanna ask, I don't wanna know...
Tell me why love has to hurt us so.

Waiting all alone inside my room,

Praying daddy comes to see my face.
Why is there a cloud of heavy gloom?
Why won't he lock me in his embrace?

Mommy, if he loves us like he said,
Why was he kissing another lady's hand?
Why does he leave your calls unread?
Why must he hide like a guilty man?

Mommy, why doesn't daddy love me?
Why does he choose her over you and I?
(Guess we aren't enough to keep him happy),
(But it's okay if he just comes back by).

Can a heart be shared between two homes?
Tell me, mommy, can love really grow?
—Darling, just accept the way it goes,
It’s enough if he says he loves you so.—

When he says "I love you," is it real?
Even when his hands hold someone else.
Is forgiveness just a bitter pill?
Why does desire break all our spells?

Frozen in a house of pure neglect,
Trying to find warmth inside the fire.
Innocence is dead with no respect,
Confusing holy love with cheap desire.

Mommy, why doesn't daddy love me?
Why does he choose her over you and I?
(Guess we aren't enough to keep him happy),
(But it's okay if he just comes back by).

Can a heart be shared between two homes?
Tell me, mommy, can love really grow?
—Darling, just accept the way it goes,
It’s enough if he says he loves you so.—

But he promised that he loved us best,
Why does he vanish when the shadows fall?
Why is he no longer here to rest?
Why tomorrow will he repeat it all?

Mommy, why doesn't daddy love me?
Why does he choose her over you and I?
(Guess we aren't enough to keep him happy),
(But it's okay if he just comes back by).

Can a heart be shared between two homes?
Tell me, mommy, can love really grow?
—Darling, just accept the way it goes,
It’s enough if he says he loves you so.—

—Darling, listen close and hear me clear,
Your daddy loves us but he’s trapped in fear.
Choosing us was his own design,
He has his reasons, leave it all behind.—
But he leaves us shaking in the cold,
The freezing neglect of the stories he told.
What is the point? It makes no sense...
—Listen to me now, tear down your fence:

Daddy is happy here but he must leave,
He loves us even if you can't believe.
I wish it was different, I wish it was right,
Just be grateful that he’s here tonight.—

Mommy, why doesn't daddy love me?
Why does he choose her over you and I?
(Guess we aren't enough to keep him happy),
(But it's okay if he just comes back by).

Can a heart be shared between two homes?
Tell me, mommy, can love really grow?
—Darling, just accept the way it goes,
It’s enough if he says he loves you so.—

Mommy, does daddy love you at all?
—Listen sweetie, he does, but he built another life.—
Then why do we wait for his call?
—Because I am your mother... but she is his wife.—

Dante's inferno PT 2 “fall”:
I regret every mistake, I hate being this way,
I am done with the excuses I used to make.
How I grew up is no defense today,
But believe me, I’m too tired to stay awake.

I don’t wanna hear from anyone at all,
From every nightmare, every fault of mine.
If this is the only way to break the wall,
I’ll do it just to cross the final finish line.

I hate that I was never strong enough
To value your sweet love and the home we made,

The place I wanted when the tracks got rough,
But now I only want to watch it fade.

I will fall, I will fall, I’ve climbed way too high,
I will silence the noise beneath this heavy sky.
I will end this weight burning in my chest,
I am sorry for the flaws that I possessed.

I will fall, I will fall, yeah I know it’s time,
I swear I don't want to keep losing what was mine.
I don't want this guilt, it cuts like a blade,
It’s so cruel, the tragic mess that I have made.

I tried so hard in so many different ways
To cloud my judgment and to blind my mind.
I got it wrong, filled with grief your days,
But back then I was completely colorblind.

The freezing cold of my indifference
Was a cruel, dark ghost to live with every day.
Too late I woke up to the consequence
Of the bleeding wounds I put along your way.

I will fall, I will fall, I’ve climbed way too high,
I will silence the noise beneath this heavy sky.
I will end this weight burning in my chest,
I am sorry for the flaws that I possessed.

I will fall, I will fall, yeah I know it’s time,
I swear I don't want to keep losing what was mine.
I don't want this guilt, it cuts like a blade,
It’s so cruel, the tragic mess that I have made.

And now I’m drowning in my own mistake,
My choices left a devastating trace.
Hiding the guilt won't fix the hearts I break,
Because I know I am a hopeless case.

I will fall, I will fall, I’ve climbed way too high,
I will silence the noise beneath this heavy sky.
I will end this weight burning in my chest,
I am sorry for the flaws that I possessed.

I will fall, I will fall, yeah I know it’s time,
I swear I don't want to keep losing what was mine.
I don't want this guilt, it cuts like a blade,
It’s so cruel, the tragic mess that I have made.

My personal hell was always painted blue,
Marked by the ice of my own melancholy.
I tried to blame it all right back on you,
But I never learned to love, and that's my folly.

Frozen solid is my heart inside the dark,
A winter wonderland made out of regret.
These neon blue flames leave a permanent mark,
And I feel worse than I could ever forget.

I will fall, I will fall, I’ve climbed way too high,
I will silence the noise beneath this heavy sky.
I will end this weight burning in my chest,
I am sorry for the flaws that I possessed.

I will fall, I will fall, yeah I know it’s time,
I swear I don't want to keep losing what was mine.
I don't want this guilt, it cuts like a blade,
It’s so cruel, the tragic mess that I have made.

I don’t know anymore, but I want to descend,
I gave all the bad, now it’s time for the end.
I climbed too high just to look down and see
That this heavy cross belongs only to me.

I will fall from the edge, I will let it all go,
'Cause I don't want to lose any more of the show.
From the tallest building, I’ll step off the line...
This consuming guilt is taking what is mine.

On my own:
Wanna play
and never lose
Wanna win
without a choose

The sun won't rise here anymore
And I'm stuck waiting by the door
I don't wanna be here, no I won't stay
Can't be tied down to live this way.

I want it all, all, all
Even if I'm on my own, my own, my own
I want it all, all, all
Even if I'm on my own, my own, my own

I don't know why I'm still here
That bitter cold, it just won't disappear

It's consuming me, laughing at my face
Trapped in the same old, lonely place.

I want it all, all, all
Even if I'm on my own, my own, my own
I want it all, all, all
Even if I'm on my own, my own, my own

Thought I was fine, believed the lie
But nothing changed, so I just watched it pass by
I want more, there's nothing left for me
I wanna do so much more than I can see.

Wanna play
and never lose
Wanna win
without a choose

Without looking back, something holds me down
This constant rain, it's drowning me out
It's pointless to go on, when I don't wanna be here
This place is dead, I'm stuck in fear.

Wanna play
and never lose
Wanna win
without a choose

I want it all, all, all
Even if I'm on my own, my own, my own
I want it all, all, all
Even if I'm on my own, my own, my own

Bla bla bla:
bla bla bla you're talking to me now
bla bla bla I don't know how
bla bla bla you speak every night
bla bla bla the same every time

My dear husband, I want to talk to you
A little thing so difficult to say
My dear darling, it's really the true
The same you know, my babe

'Cause I'm bored, not of you (or maybe yes)
I'm bored of this town (and its tiny space)
I'm bored, and it's the truth, this ain't a lie
I want something new, it's my silent cry

bla bla bla you're talking to me now
bla bla bla I don't know how
bla bla bla you speak every night
bla bla bla the same every time

It's not your fault (maybe it's mine)
You gave me everything (and all the time)
I'm really sorry (for being like this)
And all your worries (about my distress)

Maybe life is telling you something
That's not always what we want to hear
I know it may leave you a little stumbling
Maybe it's not enough, so don't force me to be here

'Cause I'm bored, not of you (or maybe yes)
I'm bored of this town (and its tiny space)
I'm bored, and it's the truth, this ain't a lie
I want something new, it's my silent cry

This was meant to be a song to vent
But it didn't turn out like I wanted
We can both cry for the time that we spent
For a life we thought we had planted

I'm so sorry, but I don't want to hurt you
Your heart is big, and my feelings aren't true
I'm trying to feel, God, give me a clue
But I can't ignore this and see it through

I'm so sorry, but I want something more
Something you can't give me
I tried to pretend, to ignore
But I'm young and I want to be free

bla bla bla you're talking to me now
bla bla bla I don't know how
bla bla bla you speak every night
bla bla bla the same every time

Rose-Colored glasses:
Rose-colored glasses, a beautiful lie
They told me that love was a glowing sky
But the gold is heavy, and the well is dry.

They warned me 'bout the vows and the promises made
A glittering prison, a silent cage

You told me: "just let go, let me love you now"
But loving doesn't mean that I have to bow.

And even though I'm standing right here today
You know I won't throw my spirit away.

Why do I have to submit to your control?
Why do you want to be the master of my soul?
Why should I resign to the things you demand?
Trading my freedom just to hold your hand.
You must be a fool, losing your mind
If you think that I'm leaving my choices behind.

You call me a fool 'cause I won't fall in line
Tell me, do you want a lover or a puppet of thine?
Your words are a weapon, they tear at my pride
You want me on my knees, nowhere left to hide.

You give me your love, but there's always a fee
If I don't obey, then the villain is me.

Why do I have to submit to your control?
Why do you want to be the master of my soul?
Why should I resign to the things you demand?
Trading my freedom just to hold your hand.

You must be a fool, losing your mind
If you think that I'm leaving my choices behind.

Ever since this ring was slipped onto my hand
I feel like a prize in the house you command
You dream of a boy who will do what you say
But I'm not gonna break, I won't bend that way.

No, I'm never gonna bend that way.

I won't ever submit to your control
I won't let you be the master of my soul
I will not resign to the things you demand
I'm taking my freedom right out of your hand.

You must be a fool, losing your mind
I'm staying right here, but my choice is mine.

Choice is mine...
I'm not your property.
Rose-colored glasses,
Now I finally see.

Drive:
Drive, ride, inside my mind...
Fine, inside...
You know I know.

When I was a little girl, my dad would take my hand,
Driving in his car across the open land.
Everything was fun back then, soaking up the sun,
But now that I am here with you, my choices are all done.
My hands are completely free, but the ring upon my finger
Keeps me waiting in the dawn where winter shadows linger.
Don't pretend you didn't see, you knew it all along,
It's not a lie you love me, but monotony feels wrong.

Drive, ride, inside my mind,
I'm fine inside, let's take a far away drive.
You know, I know, I don't deserve this,
I fell in love, but it's enough for me.

I want to drive, just drive your car,
Leave it all away and leave you behind.
All I want is to drive, take control of what's mine:
Of my mind, my decisions, my desire.

When did all this love become a tedious chore?
Wrapped in expectations, staring at the floor.
If I flew away back then, left the nest behind,
Why shouldn't I just do it now and free my trapped mind?

This golden cage is tightening, heavy on my wings,
With all the daily pressures that adaptation brings.
I tried to make it work for us, but I can't take the cost,
The more I try to settle down, the more of me is lost.

Drive, ride, inside my mind,
I'm fine inside, let's take a far away drive.
You know, I know, I don't deserve this,
I fell in love, but it's enough for me.

I want to drive, just drive your car,
Leave it all away and leave you behind.
All I want is to drive, take control of what's mine:
Of my mind, my decisions, my desire.

I know I made a huge mistake with you,
For staying when I had the chance to say goodbye.
I thought that love would pull us safely through,

But lonely lunches only make me sit and cry.

When we first met, I thought you'd be the one,
A sudden hope that I could finally fly;
That you would help my clipped wings expand,
But in this golden cage of love, you left me here to hide.

Drive, ride, inside my mind,
I'm fine inside, let's take a far away drive.
You know, I know, I don't deserve this,
I fell in love, but it's enough for me.

I want to drive, just drive your car,
Leave it all away and leave you behind.
All I want is to drive, take control of what's mine:
Of my mind, my decisions, my desire.

And for a split second, I thought you were everything
I ever wished and dreamed of when I was a child.
I'll tell you the truth now, despite the love I bring,
I know there's a better world out there, free and wild.

I wasn't born to fade into the floorboards of this room,
I'd rather face the highway than consume away in gloom.

Drive, ride, inside my mind,
I'm fine inside, let's take a far away drive.
You know, I know, I don't deserve this,
I fell in love, but it's enough for me.

I want to drive, just drive your car,
Leave it all away and leave you behind.
All I want is to drive, take control of what's mine:
Of my mind, my decisions, my desire.

Far away drive...
Inside my mind.
Cold monotony...
Nowhere left to go.

I'M BAD, SO BAD:
If I had known...
I never claimed to be the best...
I know where I'm going.

If I had known that everything would end up falling apart,
I would have made sure to walk away and spare your heart.
I never claimed to be the best at what we're going through,

I know how bad I really am, I know where I am bound to.

I'm not making up excuses for the mistakes I've made,
But I can't keep pretending while my true colors fade.

I'm bad, I'm so bad, right down to the bone,
I try and I fight it, but I'm sinking like a stone.
The darkness inside me has overgrown.
I'm bad, I'm so bad, and that is never gonna change,

And even though it breaks my soul, I have to walk out of range.

I don't wanna be the one who fakes a happy smile,
Pretending that this comfort is completely worthwhile.
The constant fighting over every single thing I did,
Has left me so exhausted, it's a truth I can't forbid.

I'm bad, I'm so bad, right down to the bone,
I try and I fight it, but I'm sinking like a stone.
The darkness inside me has overgrown.
I'm bad, I'm so bad, and that is never gonna change,
And even though it breaks my soul, I have to walk out of range.

I should have walked away when I first had the chance,
I knew you wouldn't accept the ending of this dance.
Because I was always looking for something so much more,
Than what we've experienced behind this closed door.

I'm poisonous, yeah, I know it well, and I just don't care,
I'd do it all again, free from the suffocating ring I wear.

I'm bad, I'm so bad, right down to the bone,
I try and I fight it, but I'm sinking like a stone.
The darkness inside me has overgrown.
I'm bad, I'm so bad, and that is never gonna change,
And even though it breaks my soul, I have to walk out of range.

I'm so tired of the endless rain falling in this town,
It's way too small and boring, and it keeps dragging me down.
I wanna go back and finally feel my liberty,
Back to the open city that I used to see.

I admit that I was toxic, I should have warned you first,
Now you're hurting and I get it, but we can't reverse the worst.

I'm bad, I'm so bad, right down to the bone,
I try and I fight it, but I'm sinking like a stone.
The darkness inside me has overgrown.

I'm bad, I'm so bad, and that is never gonna change,
And even though it breaks my soul, I have to walk out of range.

No regrets will fix it...
The darkness inside...
I have to let you go.

High, Stay:
High, High, stay high
Mine, mine, all it's mine
High, High, stay high
On my throne, I'm fine

Tell me, you know it's a lie, you knew it right from the start
Nobody's looking down on me, nobody ever held my heart.
I am so sick of the orders, of being told what to do,
Go ahead and let them know, I'm keeping my control in view.

I am not coming down, I'm not coming down
I'll stay right here till the walls fall down,
I gave my heart a chance to breathe,
There's no more lies that I'll believe.

I'm staying up high, way above you and me,
Nobody's dictating who I should be,
I won't let it happen again, you'll see.
High, High, stay high / On my throne, I'm fine

They always want to lock you down beneath their power and their pride,
But nobody can hold me back, there is no place for me to hide.
I might look like a little doll, but I'm no toy for you to play,
I should have left when I still could, before regrets got in the way.

I am not coming down, I'm not coming down
I'll stay right here till the walls fall down,
I gave my heart a chance to breathe,
There's no more lies that I'll believe.

I'm staying up high, way above you and me,
Nobody's dictating who I should be,
I won't let it happen again, you'll see.
High, High, stay high / On my throne, I'm fine

I'll live for the parties and expensive wine, 'cause I know I'm worth it and I'll be fine,
Love always feels so cheap and small when you're the one who gave it all.
What's so wrong with a little dust? With friends it's better to unwind,
My golden years are far from gone, no housewife life for me designed.

I am not coming down, I'm not coming down
I'll stay right here till the walls fall down,
I gave my heart a chance to breathe,
There's no more lies that I'll believe.

I'm staying up high, way above you and me,
Nobody's dictating who I should be,
I won't let it happen again, you'll see.
High, High, stay high / On my throne, I'm fine

I slept on the cold floor so many nights, but I found my footing, I stood up to fight,
And even if you offer the sky to me now, losing my freedom is a price I won't allow.
I drowned too deep in the ghost of the past, dragged through the mud but I broke free at last,
I'm stronger than anything I ever knew, my happiness doesn't depend upon you.

I am not coming down, I'm not coming down
I'll stay right here till the walls fall down,
I gave my heart a chance to breathe,
There's no more lies that I'll believe.

I'm staying up high, way above you and me,
Nobody's dictating who I should be,
I won't let it happen again, you'll see.

High, High, stay high
Mine, mine, all it's mine
Up on my lonely throne... where nothing can hurt.
High, High, stay high
On my throne, I'm fine

The ruler:
Men always claim they are the ones to save the day,
The ones to guard the house and chase the fears away.
But tell me, why are they so terrified to let it go?
To lose control just for a second, moving slow.

My broken wings have finally grown back again,
I need the open space to fly away from the pain.
And even though the feeling's good, I really don't want
To tie myself to someone else, and let the sorrow haunt.

My older scars and feelings make me realize
I'll never let somebody else take over my skies.
My body, my soul, and what used to be loneliness,
I'm claiming it back now, escaping this mess.

I am the one who runs the show,
If you want me, my rules are what you need to know.

If you think I will fold and surrender to you,
Let me tell you right now, that is something I won't do.

I am the one who dictates, I make the final call,
Keeping me under your yoke is no option at all.
You tried so hard to give me shelter and protect,
But now without oxygen, my emotion is wrecked.

We've fought so many times 'bout who is in the right,
You gave me everything, I gave my heart to the fight.
I didn't come out here to watch you steal it all,
My freedom wrapped in love that only makes me fall.

You say you gave me everything, and yeah, I know it's true,
I'm not denying all the things that I received from you.
But love is not enough to keep me on this floor,
If keeping me tied up is what you're loving me for.

I am the one who runs the show,
If you want me, my rules are what you need to know.
If you think I will fold and surrender to you,
Let me tell you right now, that is something I won't do.

I am the one who dictates, I make the final call,
Keeping me under your yoke is no option at all.
You tried so hard to give me shelter and protect,
But now without oxygen, my emotions are wrecked.

You said I am the one to blame for everything we did,
I know, I know, there is no need to repeat it.
I am the one who dragged our perfect love through the mud,
And no apology can fix the rush of my blood.

I get the point of every error in the games we played,
I am the one who made your bright heart turn to gray.
But if my "sorry" wasn't enough to make it okay,
Tell me then, why did you decide to stay?

Men always claim they are the ones to save the day,
The ones to guard the house and chase the fears away.
But tell me, why are they so terrified to let it go?
To lose control just for a second, moving slow.

So if I caused you so much pain and made you bleed,
I'll take the ruler that you use to measure my deeds.
I'll make the choice myself and I will walk away,
I only hope you learn to live without me someday.

'Cause I will be the ruler of myself, it's true,
If you don't want the rules, go find another view.
If you think I will fold and surrender to you,
Let me tell you right now, that is something I won't do.

I am the one who dictates, I make the final call,
Keeping me under your yoke is no option at all.
You tried to lock me down with all your warmth and your love,
But now with no oxygen, the fire turns into dust.

No more rules for me...
Only mine.
No oxygen... the fire fades.

Back to bad:
ba ba ba go back go back
ba ba ba go back to bad
ba ba ba go back go back
ba ba ba go back to bad

Extraño las noches divertidas
Cuando en mi nada mas habia
When every night was Eerie
and my mind is numb in a Theory

Sueño despierto con volver a tocar
Otros cuerpos, y en otras camas despertar
I dream every night I'm driving his car
And leave it all away, leave this town far

ba ba ba go back go back
ba ba ba go back to bad
ba ba ba go back go back
ba ba ba go back to bad

Suspiro pensando en que atras fui a dejar
Tanto quería cambiarlo y ahora quiero ir atrás
Wanna let go of everything, and my husband more
Because I'm bored of him and all

AH AH AH antes divertido era
BA BA BA basta, sentimientos de cera
MO MO MO - want more of everything
OH OH OH All i want is scape and living it

escribo solo para desahogarme
porque extraño lo que deje atrás
se que no debería quejarme

Pues yo fui quien lo fue a dejar

ba ba ba go back go back
ba ba ba go back to bad
ba ba ba go back go back
ba ba ba go back to bad

I want all, i want more, i want all
Live on the edge, I'm so bored
I want all, i want more, i want now
Porque ahora duele el bienestar

ba ba ba go back go back
ba ba ba go back to bad
ba ba ba go back go back

Under my thumb:
HD... HD...
Watching, desiring.
But never touching.

They’ve always ruled, but I’m sick of the game
I'm shifting the pieces, I’m lighting the flame
Heaven and earth I will move, it's no secret
You know, I know, it's the same old sequence.

I make those boys need all of me
'Cause I know exactly what they wanna see.

Who ever told me I couldn't do it?
I want it, I want it, I do.
I keep them right at my feet, I can prove it
Sex is all on their minds, and you know it's true.

Stay right under my thumb
Look through the glass, but you're feeling numb
In Full HD, baby, put the record on
The number is fake, and the moment is gone.
(Under my thumb, under my thumb)

I’ll pick you out, give a kiss and you’re trash
Don't need you around, got a line for the flash
If you think that you own me just touching my skin
Let me tell you right now: I dictate the win.

So tired of plastic, these fake little stars
Bowing for clicks right behind the steel bars.

I hate how they crawl and they drop to the floor
I’m flipping the script, I'm the one at the door.

Who ever told me I couldn't do it?
I want it, I want it, I do.
I keep them right at my feet, I can prove it
Sex is all on their minds, and you know it's true.

Stay right under my thumb
Look through the glass, but you're feeling numb
In Full HD, baby, put the record on
The number is fake, and the moment is gone.

Look at the blue bunny, watched from above
It won't be like that for me, not my sweet dove.
If the boys ever want to reach for a touch
They’ll do it right under my thumb, in my clutch.

And when they go searching through all of their phones
They'll know that my system will leave them alone.
They'd die just to do it, I know and I swear...
But nobody touches unless I declare.

Stay right under my thumb
Look through the glass, but you're feeling numb
In Full HD, baby, put the record on
The number is fake, and the moment is gone.

I'm the best, the best in the world
My name echoes loud, I'm a venomous girl
'Cause I am so famous, and cruel to consume
To me you are nothing... just food for my tomb.

Under my thumb.

Nopor Queen:
Quédate bajo mi pulgar
Sabes los hombres siempre han mandado
Es hora de cambiar lugar
Movere cielo y tierra para lograrlo

You know, I know All those Things
Son las mismas cosas de siempre
I make that mans need all of me
Porque se lo que ellos quieren

¿Quién ha dicho que no puedo hacerlo?
I want it, I want it, I do

Sí quiero, a los hombres a mis pies mantengo
Why sex is all of they thinks, it's true

Mirame, tras tu pantalla, pero sin tocar
Me encanta saber que los hombres me ven
Anhelando por que ellos tomen su lugar
Anhelando tocar mi cuerpo eso quieren

In Full HD baby, put the record on
I know there is all of you can this
I put my number, but that wrong
Because they never can call me

Te elegiré, te daré un beso, despues te desecho
No necesito de ti, detrás en la fila otro tengo
Si crees que me tienes, solo por tocar mi cuerpo
Dejame decirte no lo haces si yo no quiero

Estoy cansada de estas estrellas falsas
Que con cien hombres están pero son sumisas
Detesto ver como tanto se rebajan
Por eso mi intención es dar la vuelta, eso sería

¿Quién ha dicho que no puedo hacerlo?
I want it, I want it, I do
Sí quiero, a los hombres a mis pies mantengo
(Why sex is all of they thinks, it's true)

Mirame, tras tu pantalla, pero sin tocar
Me encanta saber que los hombres me ven
Anhelando por que ellos tomen su lugar
Anhelando tocar mi cuerpo y mi piel eso quieren

Mira a la coneja azul los hombres la ven desde arriba
Para mi no sera asi, no no querida
Si los hombres me quieren tocar
Lo harán una vez estén bajo mi pulgar

Y cuando me vean en su celular
Sabrán que no soy tan sencilla
Se que quisieran, pero no van a tocar
Aunque se que por hacerlo morirían

(Mirame, tras tu pantalla, pero sin tocar
Me encanta saber que los hombres me ven
Anhelando por que ellos tomen su lugar
Anhelando tocar mi cuerpo eso quieren)

In Full HD baby, put the record on
I know there is all of you can this
I put my number, but that wrong
Because they never can call me

¿Quién ha dicho que no puedo hacerlo?
I want it, I want it, I do
Sí quiero, a los hombres a mis pies mantengo
Why sex its all of they thinks, its true

Mirame, tras tu pantalla, pero sin tocar
Me encanta saber que los hombres me ven
Anhelando por que ellos tomen su lugar
Anhelando tocar mi cuerpo eso quieren

I'm the best, the best in the world
Mi nombre se oirá en todo alrededor
Porque soy famosa, y cruel por pensar
Que para mi los hombres, son para devorar.

Algorithm:
Caught up in the haze of the night
Too many faces that look just like you
None of you would stand out in the light
The numbers aren't favoring what you do

You rise and you fall, but you're still going down
Burying your worth in a million questions
Terrified to lose the invisible crown
Your value is built on their fleeting selections

If you're not different, they won't even see
If you're not unique, they will just pass you by
If you don't have something to make you break free
You'll watch them all leave as the time passes by
But darling, the algorithm isn't on your side
Because you know that you're nothing special at all
I'm not the only one saying you've got nowhere to hide
There's a reason you're still waiting under the pedestal

Foolish little dances and giving up your pride
Are you capable of anything for a minute of fame?
You think there are no other options to try
So you lower yourself just to play in their game

If you're not different, they won't even see
If you're not unique, they will just pass you by
If you don't have something to make you break free

You'll watch them all leave as the time passes by
But darling, the algorithm isn't on your side
Because you know that you're nothing special at all
I'm not the only one saying you've got nowhere to hide
There's a reason you're still waiting under the pedestal

You'd love to just shine, be the center of it all
To be the bright star in the middle of the sky
But you know that the feeling is completely walled
When nobody is actually looking in your eye

If you're not different, they won't even see
If you're not unique, they will just pass you by
If you don't have something to make you break free
You'll watch them all leave as the time passes by
But darling, the algorithm isn't on your side
Because you know that you're nothing special at all

I'm sorry to be the one breaking the news
But just like you, there's a million out there
It isn't that simple, but that's how life moves
You'll always be chasing the spotlight's glare
I get it, you just want to stand out from the rest
But making a joke of yourself isn't the test

If you're not different, they won't even see
If you're not unique, they will just pass you by
If you don't have something to make you break free
You'll watch them all leave as the time passes by
But darling, the algorithm isn't on your side
Because you know that you're nothing special at all
I'm not the only one saying you've got nowhere to hide
There's a reason you're still waiting under the pedestal

Someday someone will see this little star
Lost in the sea and the firmament's glow
Who wants to be cherished for who they are
But crashes to the pavement down below

Marigold tears:
Dead flowers...
Marigolds on my skin.

I thought it was a normal day
A day like any other in my way
I didn't know what was meant to be
Or how my world would change for me
You'd been watching me for a while

I didn't see the danger in your smile.

Cold water to try and wash away
This bleeding memory that wants to stay
Without love, without care, you took a part of me
I feel so dirty, lost in the anxiety
And even though I cry until I break
I can't forgive myself for my mistake.

You got on, then you took a seat
Hiding your dark thoughts in the street
You took my hand, I just let it go
I couldn't imagine what you'd show
We got off, we walked into the blind
To a hidden place you had in mind.

Cold water to try and wash away
This bleeding memory that wants to stay
Without love, without care, you took a part of me
I feel so dirty, lost in the anxiety
And even though I cry until I break
I can't forgive myself for my mistake.

You tried to kiss me, smelling of alcohol
I didn't want to poison myself in your fall
Zipper down, forced me to my knees
Panic in my mind like a violent breeze
Felt your skin inside, the pain split me through
But it hurt so much more 'cause it was someone like you.

Cold water to try and wash away
This bleeding memory that wants to stay
Without love, without care, you took a part of me
I feel so dirty, lost in the anxiety
And even though I cry until I break
I can't forgive myself for my mistake.

I tried not to scream, my head was tearing apart
It ended and I begged you not to finish in the dark
I ran back home, I tore off all my clothes
And under the cold water, my weeping just froze
Why did I let it happen? Why do I feel so ill?

Cold water to try and wash away
This bleeding memory that wants to stay
Without love, without care, you took a part of me
I feel so dirty, lost in the anxiety
And even though I cry until I break

That smell of marigold is fully awake.

Marigolds...
Flowers of the dead on my skin.
It was me...
